Friess on Board of Trade.

CHICAGO, Feb. 2—The local wheat market showed very little animation today and prices were steady throughout the sension the quotations on the May delivery being the quotations of the absence or any important naws. A report claiming that a large amount of wheat in certain provinces of Germany had been winter killed caused some uncasiness among the shorts early in the days, but later this rumor was denied for the days but later this rumor was denied of the days but later this rumor was denied of the days but later this rumor was denied for the northwest and official forecast for collayed the collection of the days but later this rumor was denied for the collection of the days of th Prices on Board of Trade. The firmness was caused by a lack merings, rather than by any demand. Provision interests and shorts were the chief buyers, while the seiling was mainly by longs. Unsettled weather throughout the corn belt held a strengthening effect. The market closed firm. May opened to higher at 47%c, sold off to 47%c, and then advanced to 47%c. Closing quotations were at 47%ght%c. Local receipts were 250 cars, with 18 of contract grade.

The price of oats declined soon after the opening of the market on selling by pit traders, but the loss was soon recovered and prices held firm for the remainder of the day. Trading is drifting gradually toward the July option because of the congested condition of the May delivery. Commission houses with northwest connections were the principal buyers. May opened to higher at 425424c, sold between 41%c and 42%c, and closed at 42%49424c. Local receipts were & cars.

Provisions were firm for the greater part of the day on a lively demand from shorts and local packers. The shortage in hog packing was the source of the strength. The market eased off late in the day on realizing sales. The close was steady. Final quotations on May pork were up 24cc at 18.52%. Lard was up 24c at 19.75. Ribs pers off 24%foc at 19.07%.

LONDON, Feb. 3.—Money continued to be in short supply in the market today and rates were firm. Discounts were inclined to harden. On the Stock exchange the settlement was considered satisfactory and the tone remained cheerful, but business did not expand materially. The bank returns had no effect on the market, though gitt-edged securities hardened fractionally on moderate investment purchases, while home ralls attracted more stiention and advanced considerably. Americans ruled dull during the forenoon, with only a partial recovery from the parity setback, the uncertainty in Wall street checking operations. In the afternoon the New York advances caused a sharp upward movement and then prices, led by Union Pacific, became erratic, but the market closed firm, with stocks at the best quotations of the day. Mexican rails Rio tintos and DeBeers continued active and atrong. Japanese imperial 6s of 1994 closed at 1934.

PARIS Feb. 3.—Prices on the Bourse today, with the exception of Russians were firm and had a better tone. Russian imperial is closed at 5.30 and Russian bends of 1994 at 493.

BERLIN, Feb. 2s.—Trading on the Bourse today was quiet and prices were steady. Japanese securities ruled higher.

The steer market has been gradually firming up, not enough advance being made any one day to quote, and still prices are safely the and in some cases lie higher than the tiose of last week.

Cows and helfers were also in good demand this morning and the market was teasonably active at steady to strong prices. The most of the receipts changed sands in good season in the morning. The supplies of stockers and feeders was very small this morning in first hands. There was no very great demand, as speculators still had some cattle on hand, but the market was in very fair condition for a Thursday and fully steady with yesterday. The tendency this week has been a little stronger on light stockers of good quality. At the same time heavy feeders are not selling as well as the first of the week. 4 Utah Copper 81's Victoria 11 Winena 28 Wolverine 84 Cananea 20% Niplasing New York Mining Stocks. INCREASE OF CRIME IN FRANCE Matter Receives Attention in Cham-

ber of Deputies. PARIS, Feb. 28.-The general feeling of alarm created by the increase of crime in France was echoed in the Chamber of Deputies today by an interpellation of the government upon the insecurity of life and property in Paris and in the country. Along the Belgian frontier a regular gang of bandits has been robbing and murdering for two years and their depredations continue in spite of the fact that the police early in February succeeded in arresting the ringleaders.

During the two years this gang committed thousands of robberies and murders. The streets of Paris, especially in the Montmarte district, are terrorized by "Apaches," as they are termed, and are no longer safe for pedestrians. The newspapers for weeks past have been filled daily with stories of robberies and assassinations, the victims being struck down with knives,

M. Cochin, liberal, in the chamber today declared that in many sections of the country the gendarmerie were unable to cope with the brigands and the inhabitants were arming for self-protection. He cited the case of a village constable who was besleged in his home.

Spain Favors Disarmament. ROME, Feb. 28.—At the conference which has just taken place between Prof. De Martens, the Russian imperial councillor of state, and the duke of Arces, the Spanish ambasador here, the latter allowed it to be known that Spain was ready to endorse the Anglo-American proposition for the discussion of the question of the limitation of armaments at the approaching peace conference at The Hague.

BERLIN, Feb. 28.-It is officially apnounced that two cases of the plague have occurred at Maunga, German East Africa. and also that one case was discovered on board a British steamer which arrived recently at Maunza.
