Three Vote for and Three Against the Ship

Subsidy Bill.

MUNGER CONFIRMED AS FEDERAL JUDGE

Burkett Introduces in Senate the Resolution for an Investigation of Express Companies in Fruit Business.

The Nebraska delegation was not the Sulzer amendment, which was overby any means alone in opposition to the lines when both San Francisco and Port Townsend, but also representatives from the whole middle west joined with the Nebill. Mr. Pollard, however, having been steamships from the Gulf of Mexico to Argentina voted with the republican leaders. On the final vote the delegation split evenly, Hinshaw, McCarthy and Kinkaid Kennedy and Pollard voted for the bill. The Iowa delegation, with the single exception of Birdsall, also voted for the measure, which was beaten at one time by several votes, but which eventually by adroitness and clever manipulation was passed by ten majority,

Munger Confirmed as Judge. The nomination of T. C. Munger to be additional judge for the federal district of Nebraska was confirmed this afternoon by the senate. At the session of the judiciary committee this morning Mr. Munger's name was favorably reported upon. Senator Burkett saw in the confirmation of Mr. Munger a personal triumph, for it was by hard and consistent work that he was able to overcome what was undoubtedly a strong sentiment against Mr. Munger's selection for so important a place upon the federal court bench

Express Company Resolution. Representative Kennedy, realizing that it would be impossible to get a favorable report from the house committee on interstate commerce on his resolution to investigate the charges that the express companies are taking advantage of an omission in the rate law of last winter and are engaging in business other than that common carriers, asked Senator Burkett to introduce the resolution, which he did today. Senator Burkett called up the resolution, but objection was made by Senator Kean of New Jersey and the resolution went over until tomorrow.

Even though the resolution does not pass at the present session of congress, the foundation is laid for an investigation at the next session of congress.

Elliott Matter Settled. The South Dakota senators have reached an agreement concerning the nomination of J. D. Elliott to be United States attorney for the district of South Dakota. The nomination was reported adversely from the committee on judiciary because of the opposition of Senator Kittredge, but he has agreed not the press the adverse report to the point of having the that President Roosevelt will not give Mr. Elliott a recess appointment after March 4. That assurance has been given, The appointment was made at the request of Senator Gamble.

LITTLE BABY CURED OF ECZEMA

Parents Applied to Hospitals and Doctors but Could Get No Relief-Grew Worse Under Doctor's Prescription - Friends Recommended Cuticura -- Result

A SPEEDY AND PERMANENT CURE

"We express to you herewith our best thanks for the cure of our baby from eczema. The eczema appeared when the child was three months old. We applied to several doctors and hospitals, each of which gave us something differ-ent every time, but nothing brought re-lief. A physician recommended a salve lief. A physician recommended a salve which we threw into the fire after two days' use as the ecsema became worse so that the baby scratched his face. At last, one of our friends recommended to us Cutieura Scap and Cutieura Cint-ment. A few days afterwards improvement could be noted. Since then we have used nothing but Cuticura Soap and Cuticura Ointment, and now the baby is six months old and is quite cured. All that we used was one cake of Cutiment, costing in all \$1.25. Even the poorest man can pay that instead of throwing it into the doctor's lap. I myself only make twelve dollars a week as a teamster, but I recommend the Cuticura Remedies strongly to all moth-ers whose children suffer from such dis-eases. They are cheap, harmless and good. C. F. Kara and Wife, 343 East 55th Street, New York, March 30, 1906."

FOR SORE HANDS

Soak the hands on retiring in a hot, ereamy lather of Cuticura Soap. Dry and anoint freely with Cuticura Ointment, and in severe cases spread the Ointment on thin pieces of old linen or cotton. Wear during the night old, loose, kid gloves, with the finger ends cut off and holes cut in the paims, or a light bandage of old cotton.

An amendment by Mr. Sulzer requiring

more like a town meeting than it did like bers of the house do not know the names the national house of representatives be- of Mexican ports, was next offered. By cause so many and so vitally conflicting this time interest in the bill was intense. interests got together against the mail The galleries were crowded and the leadsubvention bill which it really should be ers on both sides of the chamber were rallying their forces for the final battle. It was near \$ o'clock and there was still pending Mr. Fordney's amendment subtion from Nebraska voted to strike out of stilluting a tonnage tax measure. The adthe bill the steamship lines running from vocates of the Littauer substitute did not desire to vote on that proposition and they began to filibuster by forcing a vote on

whelmingly defeated. Tellers were demanded by Mr. Littauer to kill time, notwithstanding the chorus of "noes" that went up from the demobraskans to knock out this feature of the crais. When the count was finally taken there was found to be only one vote for successful in writing into the bill a line of the provision. The vote was slow in the extreme and the democrats became highly indignant. Mr. Sulzer rose to have the vote by tellers abandoned, but Mr. Currier of New Hampshire, in the chair voting against the measure, while Norris, held that the vote could not be interrupted, and the farce was continued until 3 o'clock arrived, when the regular order was demanded.

> Bill Reported to House. The bill was then reported from the committee of the whole to the house, and much to the chagrin of the supporters of the Littauer bill, Speaker Cannon held that there must still be a vote on the Fordney substitute. The result was unfavorable to that measure and a ballot on the Littauer

bill was immediately announced. The ayes and nays were ordered and the vote as announced showed the bill defeated, ayes 154, nays 161.

Mr. Littauer moved to reconsider. Mr. Williams of Mississippi, the minority leader, moved to lay the motion on the table. Then the republican leaders determined to undo the former action and pass the bill if possible. The motion to lay on the table was defeated, 156 to 169. The republicans won a victory in the very jaws

Again the ayes and nays were called, this time on the motion of Mr. Littauer to reconsider the first vote, and the house decided to reconsider by a vote of 164 to

Mr. Littauer then moved that the substitute to the senate bill be agreed to and the substitute was adopted, 162 ayes, 150 nays. The third reading of the bill was authortred 161, nays 151, and then on its final passage there were ayes 156, nays 144. Mr. Williams realized that it would be useless to continue to contest and the motion to reconsider and the motion to lay on the table were perfunctorily agreed to .

PROCEEDINGS OF THE SENATE

Denatured Alcohol Bill Passed and Conference Reports Agreed To. WASHINGTON, March 1.—The denatured alcohol bill passed the senate today Alabama cast the negative vote. This action was taken after the committee amendment, requiring the presence of a nomination rejected if assurance is given government storekeeper whenever alcohol is being manufactured, had been defeated by a vote of 47 to 16. The bill as passed contains a senate amendment permitting rum to be denatured. Consequently the measure must be returned to the house for action. The bill is intended to make of limited capacity for the manufacture

> Senator Aldrich made a brief answer to the arguments which were advanced yesterday against the committee amendment requiring the presence of a storekeeper during the process of manufacturing alcohol. He said opportunities for fraud on the revenues, unless such a safeguard was provided, were numberless. The commisaloner of internal revenue, he contended, would have authority without the amendment to require the presence of an agent during the process of manufacture and it was his belief that this would be done whether the amendment was adopted or not. A roll call was demanded on the amendment resulting in its defeat by a vote

> The amendment of Senator Daniel postoning the operation of the law until January 1, next, was also defeated, after which the bill was passed by a vote of 65 to 1. Conference reports on the agricultural, sundry civil, naval and postoffice approp-

> riation bills were agreed to. A bill was passed granting a pension of \$50 a month to the widow of the late general Joseph R. Hawley.

> The conference report on the postoffice appropriation bill was reported to the senate today and adopted. The more important senate amendments which were retained were, classifying clerks in first and second class postoffices and fixing a scale of salaries ranging from \$600 to \$1,200; authorizing contracts in the sum of \$1.388,739 for pneumatic tubes in Brooklyn, Baltimore, Cincinnati, Kansas City, Pittsburg and San Francieso; increasing the pay of rural carriers to \$900

The senate receded on its amendment requiring the use of the divisor seven in de- In., of the class of 1882. terminating the average daily weight of malls carried by the railroads, The senate also receded on its amendment authorising newspapers to carry return coupons as a part of advertisements.

FAREWELL TO TWO SECRETARIES

President Meets with Shaw and Hitchcock for Last Time. WASHINGTON, March 1.-Today's cabinet meeting was in the nature of a farewell to two of its members who, on next Monday will retire to private fife, they being Secretary of the Treasury Shaw and Secretary of the Interior Hitchcock. The former will be succeeded by Postmaster Cortelyou and the latter by Commissioner of Corporations Garfield. This was the last meeting of the cabinet as at present constituted. Another addition will be forme ambassador to Russia George von L. Meyer, who succeeds to the postmaster

generalship. With the retirement of Becretary Hitchock, Secretary Wilson of the Department of Agriculture will be the only member of the late President McKinley's cabinet who has remained consecutively in that of the present chief executive. Secretary of State Root was a member of President Mc Kin ley's cabinet, but he retired January 1, 1904, after having served over two years in Mr. Roosevelt's first cubinet.

THAW MENTALLY UNSTEADY

District Attorney Jerome Fpends Day Cross-Examining Dr. Evans.

WORKING TOWARD LUNACY COMMISSION

Partially Successful Attempt to Make Witness Admit Prisoner May Have Incurable Form of Insanity.

NEW YORK, March 1.-The insanity of idolescence, paranola and "brain storms" occupied both sessions of the Thaw trial today, and when adjournment until Monday morning was ordered Dr. Brittin D. Evans, one of the alienists for the defense, was still under cross-examination.

District Attorney Jerome's course in questioning the witness was somewhat baffling. He seemed desirous to have Dr. Evans admit that Thaw suffered from paranoia which is practically incurable. Then again today transferred to the retired list of the he brought from the witness the opinion that when Thaw armed himself he well knew that a revolver was an instrument for self-protection and when fired into human body might produce death. Finally the prosecutor wanted to know if the actions of a person suffering from a brain storm, or mental explosion, would be characterized by the calm, deliberate manner which Thaw displayed the night he shot Stanford White to death on the Madison Square roof garden.

The net result appeared to be that Mr. Jerome is still laying the foundation on which he may ask for a commission in lunacy to judge of the present mental condition of the defendant. Even to the extent of greatly fatiguing the judge and jury, the district attorney dwelt on the subject of adolescent insanity and paranois, endeavoring to establish a relationship between the two and being at last rewarded by Dr. Evans admitting that the defendant's will and codicil did suggest to his mind a paranoias form of adolescent insanity. Adolescent insanity, it has been explained, is common in persons during the development period of life from 10 to 40 years, while paranola is a fixed insanity on one subject, monomania.

Judge is Fatigued. Justice Fitzgerald indicated his fatigue at the three-days cross-examination of the expert when Mr. Jerome began to question Dr. Evans about his knowledge of other instances of adolescent insanity which had resulted in acts of homicide. The alienist said there was a woman in his hospital for the insane at Morris Plains, N. J., who, in the midst of a brain storm, or mental explosion, had killed two of her

children. After a number of questions by Jerome, objection was made by Mr. Delmas to this line of examination. Mr. Jerome point of this thing."

the judge to the effect that "we have been torney and the alienist. mighty long time getting there." Mr. Jerome disclaimed responsibility for the tedious cross examination, suggesting

the blame was with the evasive answers of

been a long time getting to the point."

Witness Refuses to Answer. another wordy conflict near the end of the day when Mr. Jerome asked Dr. Evans to give his opinion of Dr. Alian McLane Hamilton, who is to be called in rebuttal by the state and who is reported to have said are held subject to the court's orders. that he believed Harry Thaw to be suffering from a form of insanity which could not possibly have been crudicated by this

"I refuse to answer," replied the witness Mr. Jerome argued the point and cited a part of the record in the Preusser case at Albany, where the presiding judge had allowed one expert to give an opinion of

another. "Now you will direct the witness to answer?" suggested Mr. Jerome, inquiringly of the justice.

"I will not," responded Justice Fitzgerald. He added that he would not rule finally on the point until he had read the entire record of the Preusser trial. As Mr. Jerome said the ruling would cover the last questions of his examination, the adjournment until Monday was ordered. Dr.

Evans will again be on the stand. Dr. Evans declared today that Thaw showed a degree of adolescent insanity when he wrote the letters in 1903 after Evelyn Nesbit had told him of her alleged wrongs at the hands of Stanford White. The delusions apparent in the letters were more concentrated in the will and codicil executed April 4, 1906, and when taken by themselves indicated a paranolac feature of the insanity. On June 25, 1906, when Thaw shot and killed Stanford White, Dr. Evans said the defendant was suffering from an explosive outburst of adolescent insanity. Mr. Jerome tried to make the witness admit that a person insane from 1905 to 1906 suffered from a chronic form of mental disorder, but Dr. Evans insisted that the evidence merely showed acute outbursts and not a chronic state.

Unusual Acts of Prisoner.

Now that Evelyn Nesbit Thaw is no longer upon the stand and the center of all interest, the prisoner is attracting more and more attention. He gave out no additional statements today, but created almost as great a sensation as on yesterday when he issued his attack upon the "unprofessional" methods of the district attorney. Through his counsel Thaw obtained permission to absent himself from the room. When he got into the prisoners' pen Thaw threw off his hat, brought his heels together and began violently to go through a five minutes' drill at "setting up" exercises. When he had finished Thaw announced that he was ready to return to the court room, declaring he felt he had been compelled to take the exer-

When the Thaw trial opened this morning District Attorney Jerome announced that there had been received a second packet of letters from L D. Lyons, the Pittsburg banker, who until "I am not saying whose fault it is," said November last had custody of Thaw's will.

Justice Fitzgerald, "but I repeat, we have The letters received today were written to artesian by the big disturbance.
