Brisanc Buys Town Site. NEW YORK, March 2.—The deserted vil-iage of Allaire, in Monmouth county. New Jersey, was bought yesterday by Arthur Brisbane, editor of the New York Journal, at private sale, and is to be converted into a model farm. The seller was the Allaire Water Supply and Land company. The place takes in some 600 acres, and it is said that Mr. Brisbane paid \$125,000 for the tract. For years he has been deeply interested in experimental and scientific agriculture, and he intends to make Allaire one of the finest modern farms in the eastern states. Allaire ncorrect declaration is punished by a fivefold tax. Every person residing in France will pay the complementary tax based on his total income. Wives separate as to property

and living apart from their husbands and children, or other members of a family who earn or own separate income will also pay this tax.

Exemptions Under Law. The only exceptions are those whose taxable income does not exceed \$1,000 and ambassadors and consuls, as before. The tariff is: Incomes of \$1,000 to \$1,100 pay \$2; every extra \$100 pays an increased tax on an increasing ratio, so that incomes of \$2,000 to \$2,200 pay \$26, incomes of \$4,000 pay \$88, \$6,000 pays \$170, \$10,000 pays \$360, \$30,000 pays \$710 and above \$20,000 incomes pay 4 per cent.

The comptroller of direct contributions will notify the taxpayer that he must make a declaration showing what income he has from every possible souce. The tax payer must sign the statements and affirm on his honor that the declaration fulfill the law's requirements.

The declarations are submitted to examination by a committee composed of a magistrate, a tax comptroller, a registrar and a tax collector nominated by the prefect. This committee can summon the taxpayer to give it any information on his declaration and can put him on his oath. If a declaration is proved incorrect the maker of it or his heirs are fined half the ncome which has been concealed. When Cascarets Candy Cathartic were invented in 1896, and the formula was perfected after much experimental labor by highly scientific chemists, it was our aim not only to produce a perfect combination of EFFECTIVE CONSTITUENTS, but to

have every ingredient the very best in point of PURITY and QUALITY that could be obtained.

We established a standard of PURITY and OUALITY and MEDICINAL STRENGTH, that has been maintained for all these years, and every Cascaret tablet has been as harmless, pure, gentle and effective as every other one.

The substances that enter into a medicinal formula, to produce the desired effect, to be SAFE and ever TRUSTWORTHY, MUST be clean, fresh, carefully selected and compounded with painstaking supervision.

The eternal vigilance necessary to secure the ingredients of Cascarets in the most PERFECT CONDITION, so as to get the best effect without any danger from intruding substances, has never been relaxed.

What is the result?

There has never been a disappointment, never a complaint. The people of America are today buying over ONE MILLION BOXES a month of Cas-carets Candy Cathartic, a recognition of their dependable qualities to do what is claimed for them, as the best medicine FOR THE BOWELS as yet discovered.

This law went into effect January 1, 1907, and will help to banish all questionable practices and preparations. We endorse the law.

The essence of this law was anticipated by the makers of Cascarets when the first box was made ten years ago, and every precaution was taken to estab-lish Cascarets as the standard, reliable and responsible Bowel medicine for the American People.
