Arrangements for Three Days' Pro-HASTINGS, Neb., March 3.—(Special.)—
Preliminary preparations have been made for a race meet in Hastings July 3, 3 and 4. Hastings will take a place in a central Nebraska circuit that will begin and end before the state circuit in the eastern part of the state. Grand Island will have a meeting and York and several other towns are expected to fall into line.

The decision to have a race meet here in Fourth of July week is the result of the failure of the local association to secure an assignment in the state circuit outside of the period of the Hastings chautauqua. The state circuit committee gave Hastings dates in the latter part of July, during the principal days of the chautauqua. gram Beginning July 2. chautauqua.

Attorney Eays She Does Not Regard Her Son as Real Plaintiff.

MADE TOWARD SETTLEMENT

Statement that Heles Were to B Offered Large Sum Not to File Suit and Waive Rights to Estate.

CONCORD, N. H., March 3 .- General Frank S. Streeter, legal adviser of Mrs. Mary Baker Eddy, issued a statement tonight replying to various allegations in the bill of equity, which has been brought against trustees and directors of the Christian Science church by relatives of Mrs. Eddy, with the view of obtaining an accounting of funds.

"Early Saturday morning," he says, sent to Mrs. Eddy a copy of the bill in equity as published, but not yet served upon any of the defendants, so far as I am informed. I have since had a conference, with her, at which this proceedings and matters connected with it were fully discussed.

"In common with her many friends, she believes that the initiative was not taken by her son or other relatives, but by others who in a markedly unusual manner and by unique methods are undertaking under the guise of court proceedings to continue the persecution begun some time

"From my conference with her at the time and on recent occasions. I am able to speak definitely and positively. Her clearness of mind and resoluteness of purpose has been in no respect impaired by her advanced years. Her capacity to think clearly and to deal accurately and justly with important business affairs has never been more perfectly demonstrated than in her conferences and acts in the last two weeks and in numerous business letters in her own handwriting, which I have received from her during that time

Mrs. Eddy's Income Exaggerated. "The amount of Mrs. Eddy's property has been grossly multiplied by rumor and unfounded report. She is not possessed with large wealth as the term is used Mrs. Eddy receives no income from the church or the church publication society Her sole income has been for many year, from the copyright on her own books and the amount from this source has been verestimated.

"Mrs. Eddy's business affairs have managed by herself, with the aid of Mr Frye and under the oversight and personal audit of another gentleman, whose name has not been mentioned, but who stands for all that is honorable and of good repute in financial circles in Concord. Ac curate accounts of all her property and investments, as well as her annual income and expenditures, have been carefully kept and frequently audited. The last audit was in October, 1906. None of the deany connection with the management of her property or investments or have any knowledge whatever in reference thereto, one instance for the benefit of a relative.

"Inquiry has been made whether the various defendants would accept service of the proceedings. I cannot say as to that. With my partner, Mr. Allen Hollis, I am counsel for Mrs. Eddy alone. While PLATTSMOUTH—A new trial has been asked for in the case of Pope against the defendants untrubtedly would be Oberly. The evidence showed that the plaintiff. John U. Pope, a farmer, drove cannot as her legal representative, unde take to speak for them. With reference to the report that within a few days Mrs. Eddy has placed in the hands of trustees a large amount of money to be held and used for the benefit of her son and grandchildren, I have nothing to say whatever, what she may or may not have done toward providing for her family is a matter which ought not to be discussed by me.

Case Without Precedent. "The proceedings are unusual. So far as this case can be considered a legitimate

proceeding in equity, it seems to be an attempt to have the personal rights and privileges of a citizen adjudicated in a way unprecedented in New Hampshire, so far as I am aware, and if it shall appear that these proceedings have been instituted for purposes other than the ascertainment and protection of the plaintiff's legal rights, the method of dealing with such a case will be carefully considered by Mrs. Eddy's counsel before making any public state-

ment. Messrs. Kelley and Martin, counsel for the nominal plaintiff in the bill of equity, have an appointment with Mr. Streeter for tomorrow afternoon. If at that time Mr. Streeter declines to accept service in behalf of the defendants, the process of serving the defendants individually will be instituted. Former United States Senator William E. Chandler, the senior counsel for the plaintiff, will arrive here from

A DOCTOR SAYS Grape-Nuts Food Contains all the Elements Condensed.

There was a time when doctors de pended almost entirely on the use of drugs in treating disease. That day is happily past, and our doctors of today are men of wider views-they have learned that proper food is most important in healing disease. A practicing physician in New York City says:

"Disease is often an effort of Nature to get rid of impurities in the system as the result of incorrect habits-wrong living. The cause of disease ought to and can be removed by right living and right think-

food of proper quality and quantity, plenty of pure water, exercise, cleanliness and sleep. When these conditions are met, health follows, but when they are denied or neglected, sickness and disease are sure to result.

"The important question is to decide what is the proper kind of food to supply the physical and mental necessities of man? I have had experience with all the various foodstuffs known to our markets, but up to the present time I have met with no other answering so fully all the requirements as does Grape-Nuts food. In my own experience and observation in my practice, I have found Grape-Nuts to be not only satisfying, but more lasting in the benefit derived from its use. It sends a man forth to his labors in a state of physicial comfort, with a cheerful and buoyant spirit, and the end of the day finds him with reserve strength-he suffers less from exhaustion and depletion

of powers. "I particularly recommend Grape-Nuta food to those whose occupations involve a great deal of brain work. There could not be a food better adapted to the strengthening and conservation of the faculties and energies. It supplies a more sustained mental vigor than any other

food that I know of. "Grape-Nuts food contains all the elements that form the valuable part of natural diet in a condensed, toolhsome and easily digested form." Name given by Postum Co., Battle Creek, Mich. "There's a reason."

MRS. EDDY'S VIEW OF SUIT Washington on Tuesday, and will join with the others in the conduct of the case Heirs Offered Settlement.

> It was learned tonight that about 4 o'clock last Friday afternoon, the day on which the bill in equity was filed, a messenger from George W. Glover of Deadwood, S. D., the son of Mrs. Eddy, delivered to her a letter in which Mr. Glover stated his purpose of beginning the suit. At 4:56 o'clock that afternoon Rev. Irvington C. Temlinson, one of the defendants named in the suit, left Concord, his mission being, it is understood, to go to Mr. Glover. Mr. Tomlinson is said to have in his possession for delivery to Mr. Glover a deed of trust for a certain sum of money, variously estimated at from \$100,000 to \$250,000. This money, it is declared, was to be delivered to Mr. Glover on three conditions, as fol-

First, that neither he nor his household should make any further demands upon Mrs. Eddy: second, that they should offer no objections to the probating of any will that might be offered after her death; third, that they should not seek any legal proceedings to set aside any gifts, deeds or conveyances that Mrs. Eddy might make during her lifetime.

Meanwhile John W. Kelley of Portsmouth, one of the attorneys interested in bringing the proceedings, had filed the bill in equity with the clerk of the superior court and notified Mr. Streeter, counsel for Mrs. Eddy, of the fact. Streeter a long conference with Mr. Kelley and Mr. Martin, during which he made it known that the deed of trust was to be given to Mr. Glover. This conference came to an end when Mr. Streeter was informed the fact that the bill had been filed, had been given to the press, and Mr. Streeter then recalled Mr. Tomlinson from his mission.

His efforts provoked a howl- expressed the same sentimen ing success. In less than two hours after got busy he had developed ten or a senator from Tennessee personally in his dozen whooping drunken Indians. The Indians were not so bad at that: in fact, they were a blamed sight more decent than would have been a fair sixed delegation of whites as thoroughly pulverized. The most diagusting, the drunkest of all, and the one whose face and croak and manner really made the night hideous and offensive was the filthy old bum who was handling the "white line," He operated so brazenly, his talk was so utterly vile, his jag such an ndecent, stomach disturbing monstrosity, and he such a low down, homely looking human burlesque that a self-respecting man couldn't pass him on the street with out spitting in his direction. And assurance! He had the assurance of a Methodist preacher at a chicken pie social. He informed one of his audiences, during the progress of his evening's business, that he had lived on this reservation for two years and that he had never come here and he'd be d-d if he was ever going away. Now we have formulated a guess that the miserable reprobate has just about lived on this reservation long enough to prove up and move on to a civilization better suited to his peculiar style of beauty and character of culture, and if he does not move or will not be good and has to be moved, he is going to court the visitation of the crowning sadness of his career. Another one of our guesses is that a sentence in the but when the necessary number was sepen would be too mild and respectable for cured business proceeded as usual. CIBBONS ON GOOD READING

Cardinal Discusses Belation of Newspapers and Books to Daily Life.

SALACIOUS' JOURNALS ARE DENOUNCED News and Advertisements They Con-

taln Are the Greatest Danger to the Morals of Any Community.

BALTIMORE, March 8 .- Preaching his usual monthly sermon at the cathedral this morning, Cardinal Gibbons denounced 'salacious journals" and newspapers printing objectionable advertisements. Taking as his subject, "Spiritual Reading," especially in connection with the Lenten season, after pointing out the helpfulness of reading religious books, and particularly the Bible, he said: "I shall conclude by making a few prac-

tical auggestions: "Rigidly exclude from your household all books and pamphlets which are hostile to religion and good morals. Never admit into your homes any newspaper or periodical which ventilates obscene news and licentious scandals.

"There is one kind of literature in which we all indulge and of which we partake as regularly and with as much relish as our daily bread, without which life would be dull and tedious-s literature which has become almost a necessity of our daily life. I refer to the daily newspaper. Now, there are good and bad journals, and there are clean and unclean animals.

"No kind of literature works more mischief in a community than salacious journals. They contain not only news matter, but also advertisements of a most objectionable character.

"They have sensational items, which are a snare and a stumbling block to the innocent and unwarned. Many of the youth of both sexes have learned from this impure fountain their first lessons in human depravity. Advertisements appear, which paint in glowing colors the attractive features of dangerous haunts of amusement, advertisements of patent medicines and other drugs whose object is to defeat the inexplorable laws of nature and of as

ture's God. "As an offset to these depraved journals, I have known the proprietor of an upright paper of this state who refused an offer of \$10,000 rather than admit into the columns of his paper an advertisement suggestive of immodesty, though its indecency was thinly veiled by ambiguous phraseology. Would to God that all newspaper owners had emulated this noble

Senators Dubois and Carmack made an appeal to Senator Gallinger to withdraw the bill, but he did not comply. The debate was interrupted by the passage of a resolution for the printing of a document on horses, which brought out from Senator Carter the remark, "That's a horse on the democratic

side." This sally aroused the venerable Senator Pettus of Alabama, who remarked, "We accept the rebuke from the-senator Montana, because of his wisdom and long experience, and do not fail to recollect that he has the record of speaking for more than twenty hours to kill a river

PROCEEDINGS OF THE HOUSE Philippine Bank Bill Passed and Con-

ference Reports Agreed To. WASHINGTON, March 3 .- More than an hour was spent by the house in obtaining a quorum after meeting at 11 o'clock today, to the consideration of conference reports. nore than the law owes him and in such civil bill and a partial report on the Laconsultation with the representatives of the senate. The final report on the pension appropriation bill, containing a provision for the maintenance of eighteen pension agencies, was agreed to. The bill authorizing the establishment of an agricultural bank in the Philippine islands was passed. At 6 o'clock the house took a recess until 9:30, and the night session continued until late.

After the recess the house agreed to the conference report on the general deficiency bill. A number of menument bills were passed, including the completion of a conument in honor of the nattle of New Orleans at Chalmette, La.; the Stevenson Grand Army memorial, to be erected in Washington: monument for Tippecance battle ground, Indiana.

The conference report on the sundry civil bill was agreed to and with business generally completed the house at 12:10 a. m. took a recess until 9:30 Monday morning. By a vote of 187 to 60 the house today passed the senate bill providing for the es

Philippines. The passage developed diametrically opposite views on the part of the two leaders of the minority, Mr. De Armond of Missouri voting for the measure, while Mr. Williams, minority leader, stood squarely against it. The following democrats voted for the bill: Alken (S.C.), Bankhend (Ala.), Dearmond (Mo.), Howard (Ga.), Kline (Pa.), Legare (S. C.). Ransdell (La.), Ruppert (N. Y.), Sherley (Ky.), Small (N. C.), Taylor (Ala.), Wiley

But two republicans voted against: Darrah (Mich.) and Mann (Ill.).

While the bill was under discussion Mr. Rucker of Missouri made the direct charge that certain democrats in favor of the bill had been the guests of the secretary of war on his trip to the Philippines last year, which, he said, might account for the position taken by these gentlemen, who were Mesars. De Armond, Sherley, Wiley and Howard.

In reply Mr. Sherley said that the "slur" cast by Mr. Rucker upon the democrats who voted for the measure was uncalled for in view of the fact that the man who had seen the Philippine situation was better able to legislate than the man who had vague ideas as to conditions.

The bill was called from the speaker's table by Mr. Crumpacker of Indiana, who moved to pass it.

Mr. Rucker of Misseuri was recognized as a member of the committee. He wanted to know if the bill could be passed without amendment. "The house can pass an elephant under suspension if the party in charge of the measure was recognized for that purpose," replied the speaker.

Mr. Crumpacker supported the bill. Mr. Sherley also advocated its passage as in the line of lending much-needed assistance to the Philippines. Mr. Grosvenor of Ohio, who advocated the bill, expressed the opinion that the United States had been guilty of more wrongs towards the Philippines than Spain had been, and Mr. Longworth thought the bank bill should be passed as a crumb of comfort due in the face of failure to pass the Philippine tariff bill. It was here that Mr. Rucker made his charge that Secretary Taft had won the

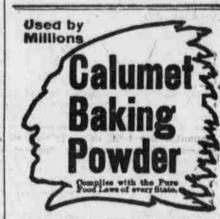

support of members while they were his guests on the Philippine trip. Mr. Parsons of New York asked for an explanation, and Mr. Rucker replied that the gentleman knew what he meant. He

had accepted them. Mr. Parsons replied that the secretary of war had urged members of the senate and house to go to the Philippines so that they could intelligently legislate. Mr. Rucker said he knew nothing about the trip and he did not care about that, but was his opinion that the legislation would haunt the American people as it grew more odlous.
