WATER RATES ARE UP AGAIN

Special Committee Ordered to Prepare Schedule on Compromise Basis.

CHAIRMAN WALLACE BALKS ON THE MOVE

Insists He Will Accept Nothing But Engineer Kiersted's Valuation as a Basis for Computing the Rates.

By a decisive vote of 5 to 3 the city council last night took steps to bring the long-pending negotiations with the water works company to a speedy and amicable settlement. The special committee, of which Councilman Wallace is chairman, was instructed to draw up a schedule of rates and submit same to the council at the earliest date possible. The instructions also provided that the committee for this purpose use a valuation midway between and it now looks as if extra room will the appraisement of W. Kiersted, the expert employed by the city, and that of J. Secretary Reed had received acceptances W. Alvord, the consulting engineer employed by the water works company. Mr. Kiersted placed the value of the plant at \$500.948, while Mr. Alvord's valuation was \$706,384, so a valuation of approximately \$600,000 will be what the special committee is to use as a basis for making the rate schedule.

This action on the part of the council was brought out by the presentation of the

following petition:

was brought out by the presentation of the following petition:

We have read the petitions recently presented to the city council by a large majority of the business interests of this city, and, desiring to express our approval of the plainly stated wishes of these petitioners, we respectfully ask that the council proceed at once to enter into an agreement with the existing company.

We suggest that any franchise that may be offered to the company should be for a term of years long enough to warrant the investment by the company of sufficient money to make necessary reinforcements and extensions, but that the city should reserve the right to purchase at any time. In view of the further fact that the power to make or change rates at any time rests with the council and to the end that the necessary improvements may be made at once and to the end that this matter be settled without any more direct expense to the city or indirect expense to the people in the matter of insurance rates, we suggest that, for a basis for rate making only, a valuation midway between the city's appraiser and the water company's appraiser be used.

That your consideration for the taxpayers and the business interests of the city will influence you to grant this petition and immediately take steps to bring negotiations to a successful conclusion along the lines indicated above is the earnest wish of your petitioners.

BRIGHT PROSPECTS FOR Y. M. C. A. Five Thousand Dollars Raised on the

First Day. The preliminary canvass for funds for the proposed Young Men's Christian assoclation building made yesterday morning by the special committee, assisted by State Secretary Magee, proved most encouraging. The committee succeeded in a short time in raising \$5,155 and expects to increase this to \$10,000 before making a report at the mass meeting to be held this evening in the rooms of the Commercial club. Yesterday's list was headed by J. F. Wilcox with a donation of \$1,000.

If possible State Secretary Magee will remain over for the meeting this evening and Secretary Wade of the Omaha association is expected to be in attendance. More Money for Veterani

cial condition.

A bill has been prepared that is to revive the movement to give the state Soldiers' home at Marshalltown more money on which to operate. The new bill appropriates \$10,000 or as much thereof as needed as an additional contingent fund. A billvas introduced by Senator Eckles increasing the monthly per capita support fund tween Tabor and Sidney, was found dead from \$14 to \$16 and it passed the senate. out was killed by the house committee on appropriations and the house adopted the report of the committee indefinitely postponing the bill. It now developes that the ason the house committee killed the bill is because the friends of the institution jumped over the heads of the members of and family. the Board of Control. The increase was recommended by Superintendent Horton, but not by the Beard of Centrol. When the legislative visiting committees went to the institution nothing was said about increasing the support fund. Consequently when the bill came before the house committee it began to make inquiries where the bill came from. The Board of Control was asked and the members said the support fund was ample though they would not object to its being increased. Conscquently the committee killed the bill. Since then there has been all sorts of complaint because the old soldiers were limited in their support. The legislature started out on a plan of economy, but a halt was called when the old soldiers were concerned. Con sequently another bill will be introduced and it is likely that it will pass both

houses. Inheritance Tax Bill. A direct inheritance tax bill such as was ecommended by Governor Cummins in his nessage to the legislature, has been pared and will be introduced in a few days. This will leave but one measure of im portance, the civil service measure, which was recommended by the governor, that has not been introduced. It is understood that such a measure will be gotten up. Appropriation Bills Next.

The house appropriation committee will this week take up the appropriation bills for the institutions under the Board of Control and those of the educational institutions, and also the bill to consolidate the educational institutions under one board. Hearings will be arranged at once on all the measures. The bill to consoli date the management of the educational house.
