HACK FARE CHARGED FOR PASS RIDES

(From a Staff Correspondent.)

LINCOLN, March 5 .- (Special.)-It turns out that the graft by which the Douglas county sheriffs have been unlawfully enriching themselves out of the state treasury includes not only padded bills for feedng prisoners after sentance and mileage charges for tripe traveled on free passes, but also that they have been making fraudulent claims for back hire when they never

In the claims filed with the legislature by Sheriff McDonald of Douglas county, a sample of which was published in The Bes last week together with an exhibit of the amounts asked and the amounts cut out by the auditor and the claims committee, the items for hack hire were entirely overlooked. A hunch from a party who ought to know prompted an inquiry as to how many prisoners brought down to the state penitentiary by Sheriff McDonald were really conveyed in a hack or were taken down by foot or in the street car.

The Bee correspondent went out to the penitentiary and interviewed personally a large number of the prisoners there sentenced from Douglas county and according to their own stories a majority of them were taken from the county jail in Omaha to the depot in street cars, while a few walked, but in every instance whether the prisoner rode in a street car for 5 cents or whether he walked, the Douglas county sheriff has charged up \$1 to the state for alleged hack hire. Every one of the claims filed by Sheriff McDonald with these fraudulent items for backs are subscribed and sworn to over his own name, but this oath does not seem to have been conclusive.

What the Prisoners Say. Of the seventy some odd prisoners who were brought to the penitentiary from Douglas county during 1906, forty-four of them were interviewed and each was posttive in his statement as to how he was taken to the depot from the Douglas county jail. Twenty-one said they had been

placed on street cars and taken down;

three said they had walked and twenty said they had been taken down in hacks. Sheriff McDonald made the sworn statement that each one of the forty-four prisoners named in the table below had been taken to the Omaha depot from the county jail in a hack, and for each one of them he charged up \$1 to the state to pay the back fare. All of the prisoners declared
