#### NEBRASKA PRESS COMMENT.

Fairmont Chronicle: Twenty years ago March 5 the infamous Kansas City & Omaha railroad bonds were voted in Fairmont. Practically everybody was willing to donate the \$20,000 and the last dollar has just been collected in taxes. Fairmont taxpayers in 1996 gave up 24% mills as a final tribute. Railroad bonds-never again. Hastings Republican: And it seems it had to be Munger. The balance of the members of the state bar, especially the lawyers in western Nebraska, will now proceed to lay it up against Senator Burkett, who, it is deemed, played the overshort of from eighteen to twenty-four sealous part in bringing about the appointment of Munger in the face of much opposition. Madison Chronicle: Every father and

mother in the land should say amen to the editorial from The Omaha Bee. The newspaper that prints the sensational details

of the Thaw murder trial or other matter of like character has no place in the home Mr. Rosewater's course is worthy of emulation and it should be the means of adding under court-martial for practices prestige to the great newspaper which he represents.

Howells Journal (dem.): They have political club down at Omaha that they have named "The Dahlman Democracy, We want none of it in ours. If it preaches morals and habits of the army officers the same creed that Jim Dahiman attempte to put in practice it is anarchy pure and simple. There is surely nothing democratic about it. For the good of the democracy of Nebraska it is to be hoped that such leadership will be repudiated.

Hastings Tribune: The appointment of Thomas Munger of Lincoln, to the federal judgeship will be a just recognition of meritorious work. Perhaps no man in the state of Nebraska did as much to bring about the election of E. H. Burkett, to succeed Senator Dietrich as did Thomas Munlive in Washington and has to econo- ger. He was among the very first to urge Mr. Burkett to make the race, and he assisted materially throughout the campaign that followed. Mr. Munger is a good jurist and will make an able judge.

Ashland Gazette: The United States supreme court has handed down its decision in the Nebraska railroad tax case, fully ets," or something like this, for the news sustaining the contention of the state. So now the railroads are going to pay their taxes just like other people and another howl of cheap agitators will subside for the at Fort Omaha, Neb. It is given out that time being. This will mean very low rates of taxation in Nebraska counties, unless the flushness of funds leads to unjustifiable extravagance on the part of those who

make the appropriations. That is a danger arising from incerased taxation. Beatrice Sun: The Omaha Bee says tha it has been congratulated upon the fact that it cut out the objectionable features of the Thaw trial, also of the divorce trial now on in Omaha. The Bee says that it is printing a paper for the home. That is a good thing to keep in mind. Too many newspapers reach after the sensational features along news lines, and print stuff unfit to read. There are also papers that endeavor to keep their news and editorial columns clean, but admit the vilest of

patent medicine advertisements and testimonials. York Republican: At the time of the pur chase of the so-called "gubernatorial mansion" in Nebraska, many who were not interested in the graft urged that the state had no right to do it, and that the governor had no right to occupy it. Governor Sheldon knows that he has no constitutional right to occupy this house. He has adopted the only means of settling the question. Some people, who cannot understand the

existence of an honest man, have become frightened, and urge that the governor will bear watching, No doubt. We'll all bear it. And the squarer we are, the better we'll bear it. Weeping Water Republican: It would

seem as though Omaha would be in po-

#### BALLOONS FOR THE ARMY.

Equipment for the Sky Pickets at Fort Omaha.

Washington Star. Americans may soon read of the "Baloon Corps, U. S. A .:" "Detachment of Aerial Engineers, U. S. A.;" "flying ma-chine squad," "sky scouts," "cloud pickof the day shows that the government has purchased \$12,000 worth of balloons, and that an aerial station has been established three balloons will soon be shipped to this

station, that more will follow, and that a hydrogen gas tank has been built to supply the big bags. The experiments with these balloons are to be under direction of General James S. Allen of the Signal corps.

European powers have been busy with the balloon question for a long time, and American military observers have not had their eyes shut. Doubtless the military branch of this government has learned much by the experiments of other nations. Expert observation has been profitable to this country. The Navy department jumped from the civil war type of warship construction to the up-to-date type, unless the building of the ships Boston, Chicago and Atlanta be classed as an intermediate or experimental step. In the matter of Expert observation has been profitable

submarines this government progresses at one bound from submarines on paper and in theory to submarines of approved type in practice. This was true of torpedo boats and destroyers.

The eves of the army have been kept on the experiments of foreign governments with artill.) y and small arms.

The result of this alertness has been the saving of untold millions of dollars. The artillery branch of the army progressed at one step from the Napoleon of the civil war to the 3.2-inch breech loading Rock Island field piece, and has recently discarded this weapon for the 3-inch rifle of German model. It is believed that the new

field piece and the new Springfield rifle of fire. > Restraints of Law. Kansas City Star.

The welcome inference that Mr. Harrinan knows there is a government in the United States and that he recognizes its authority is made apparent in his declaration before the Interstate Commerce comnission that if the law would permit him to do so he would be operating a railway between New York and San Francisco in a weck.

#### Boost for States' Rights. Baltimore News.

We take it from this that Mr. Harriman s a staunch upholder of state authority and a firm opponent of federal interference. Here we have exposed the worst influence with which state authority has to contend-the disposition to use it as a shelter for "high finance." If this sort of strain is wantonly put upon the doctrine of \$29,000,000, and whose borrowing members state's rights, in the exploitation of technical defenses against investigation, it will certainly be disastrously weakened in the public mind.

#### Sprend of Two-Cent Fares. Springfield Republican.

Nebraska is the latest state to join the novement for a maximum 2-cent passenge fare on railroads. The movement is still spreading and is being made to include sparsely settled states as well as the most thickly populated ones where such a rate can well be afforded. Accordingly the railroad companies are contemplating action to will admit. It is said, that they were mistaken as to Ohio where the enforced 2-cent rate has been a cause of steadily increasing conditions are radically different in such states as Missouri, Nebraska, Arkansas and some others which have adopted the Ohio plan. And that is measurably true. Still it might be better for them to The truth is that the county jail await some demonstration of experience in The pre-calculations of railroads regarding the

ness in eastern Nebraska, as well as the western portion. Shippers to the metropo lis, however, do not hold the buyers in very high favor. Instances are known where corn has been shipped there, that was as fine as was ever raised in the state, yet when it landed in Omaha it looked to the buyers like No. 3. After many of the elevator men got bit in this way, they changed the course of the grain down the usual way, south, where they know the men are reliable. The old way of faking by declaring short weight, dam-

aged goods, etc., will not go these days, and if Omaha grain dealers want to do business and keep business, they must prove themselves reliable and trustworthy

## **There Are No Subterfuges Or Deceits in This Great Piano Sale**

We have everything that is advertised and as it is advertised. The great success we are having is because people know that when we advertise bargains we have them.

Did it ever occur to you how differently is the Plano business carried on in other stores where you learn nothing about the Piano except through the verbal statement of the salesman who is praised by his employer when he sells a Piano at an enormous profit? In such stores the salesmen always try to get as much as they can for Pianos. In those stores the price marks upon the Planos are always fictitious. The customer is lucky indeed who gets a fair deal from a salesman so schooled in the arts of deception.

But in the Hospe store it is different. The Planos themselves are of good Every Piano is marked in plain figures at its bottom price and it canquelity. not be broken, because it is the lowest price. Surely the Hospe one-price, nocommission plan is a good plan, because it makes Plano buying easy and safe, and is a saver of money.

We Save You \$50 to \$150 on a Piano **PUSH PIANO SALE**
