Prices on Board of Trade.

CHICAGO, March & Reports of damage to the fall sown crop caused strength today in the local wheat market, May delivery closing at a net gain of %6%c. Corn was also up %6%c. Oats showed a gain of %c. Provisions were 3%c lower to 5c higher.

The majority of the damage reports related to inroads said to have been made on winter wheat in Texas and Oklahoma by the "green bug," although a number of dispatches told of injury by Boods to the crop in Ohlo and southern Indiana. The market opened easy on selling by pit traders, who were influenced by a moderate decline at Liverpool and fairly liberal receipts in the northwest. Offerings were readily taken by commission houses and this, with covering by shorts, brought about a sharp advance. After the first hour trading became dull and without feature. The bears, however, were not aggressive and prices held firm until the closs, which was strong. May wheat opened 4,0%c lower at 70%c70%c, sold at 75%c70%c, sold at 75%c70%c, and then advanced to 76%c. Final quotations were at 70%c70%c. Clear-ances of wheat and flour were equal to 204,300 bu. Frimary receipts were 563,000 bu., against 405,000 bu. for the same day last year. Minneapolis, Duluth and Chicago reported receipts of 373 cars, against 412 cars 204.300 bu. Primary receipts were 583.000 bu., against 405.000 bu. for the same day last year. Minneapolis, Duluth and Chicago reported receipts of 573 cars, against 413 cars last week and 302 cars one year ago. The corn market was firm all day because of an urgent demand from commission houses. The main strengthening influence was a report that this year's crop in Argentina would be only one-third of that last year. The close was strong. May opened a shade to 4c higher at 40% to 464,04%c, advanced to 465,404%c and closed at 46%c. Local receipts were 317 cars, with bear of contract grade.

Outs for July delivery were in brisk demand and the May option was largely neglected. The strength of the July option was due largely to the covering of shorts. May oats opened a shade lower to 46%c higher at 41%41%c, advanced to 42c and closed at 41%42c. Local receipts were in active demand by shippers, while pork and lard were sold freely by local packers. The close was fairly steady, with May pork off 3%c at \$16.50. Lard was unchanged at \$2.000,52%c. Ribs were up 5c at \$2.60. Estimated receipts for tomorrow: Wheat, 18 cars; oorn, 325 cars; oats, 125 cars; hogs. \$2.000 head.

The leading futures ranged as follows:

Bank Clearings.

OMAHA, March 6.—Bank clearings for today were \$2,487,586.18 and for the corresponding date last year \$1,807,485.55.

Dun's Report on Bank Clearings

14,500 198% 190 1,000 41 199%

Rank exchanges in February, as reported by B. G. Diff & Co., reflect a further large increase in the volume of settlements through the banks at nearly every city, with nessewishy gains at some important points, particularly among the leading manufacturing centers in New England, at some cisies in the South, notably in Georgia, in the Central West and at Texas points. In the Large gains denote continued rapid development there. A smitter volume of trading in the Wall Street markeds still affects unfavorably the comparison at New York City and there is a loss in the aggregate, compared with February a year ago—cuteide New York City, total bank at changes for the mouth at all other cities in the United States are \$4.443,067,832, an increase of 7.4 per cent. over a year ago, and 25.5 per cent. over February, 1905. Meet of the cities report an interesse and at searly all of them there is a large gain over February, 1906, when trade was very softwe, and the volume of payments through the large. Boston and Baltimers report small calms over February of last year, but New York and Philadelphia losses. There is an increase at Chicago and most of the cities of the Central West, an increase at 6t. Levils and San Francisco, but a decrease; at New Orleans. The average daily figures show the usual decrease in February as compared with the active months trumediately proceeding, but compared averably with conditions in both proceeding years. Comparison is made below of bank exchanges by sections covering three years, also the active months to February and the three proceeding

SHEEP-When the market opened this morning only hine oars were in, with twenty cars reported back. The market on sheep opened early and active, and everything in sight changed hands very readily. Good ewes commanded strong prices, as high as \$5.50 being paid for very choice westerns. The market on ewes has been firming up a little this week and at the same time the quality of the receipts has shown improvement, so that prices have looked quite a little higher, and it would be safe to call the market loc higher than last week.

The packers did not seem to be very hungry for lambs and their inquiries were limited largely to choice lightweights, which were in good demand and fully steady. Heavy lambs, on the other hand, were slow but about steady. Feeder buyers helped out very materially, paying as high as \$7.25 for stuff to take out and shear.

Quotations on killers Good to choice lambs, \$7.00 for \$5.70, fair to good yearlings, lamb weights, \$5.00 for \$5.16.

OIL CITY, Pa., March 6.—OILS—Credit balances, \$1.63. Runs, 143,522 bbla; average, 98,478 bbls. Shipments, 165,130 bbls.; average, 150,478 bbls.

NEW YORK, March 6.—COFFEE—Market for coffee futures opened steady at a decine of \$6,10 points under lower European cables and a decline in the Rio market. Europe was a heavy seller here and there was a good deal of local liquidation owing to lower firm offers from Brazil and bearish rumors regarding valorization. The local bulls supported the market at the deciline and the close was steady, but at a net loss of 10220 points. Bales were reported of \$0.750 bags, including March at 6.506.55c. April at 6.50c. May at 6.506.50c. June at 6.40c. July at 6.256.55c. September at 6.2066.25c. December at 6.2066.30c. Spot
