Gossip About Plays, Players and Playhouses

sole used her famous "Sapho" as her vehiele for introducing herself to Omaha. No doubt can exist as to the talent of this charming woman. She is all that had been saido f her, and then some. Simple and unaffected in her personality, a genius and yet a woman whose interest in mankind's affairs is undiminished, she made a marked impression on all. About her welcome to the visitor is something that leaves no lingering suspicion that she is affable merely for advertising purposes. She apparently means it, and her sincerity in this egard is no greater than her sincerity on the stage. As Fanny LeGrand she spared no detail in development of the character. All its weakness and its misery were shown with unsparing fidelity, and whether or not she succeeded in pointing a moral, she did provide a warning. It serves to emphasize what has been so frequently said before, here and elsewhere, that beyond a well defined limit a woman dare not go if she would retain her right to happiness. Miss Nethersole will begin her American tour in Omaha next September, and promises to give us at least two new plays. It may be that she will offer one of Suderman's heroines, probably Magda, and Paula Tanqueray for our edification. It is a little remarkable that "The Second Mrs. Tanqueray" was written for Miss Nethersole, but her engagements were such that she had to decline it, and Mrs. Campbell created the role.

The business of the week at all the houses was good. At the Orpheum the bill was so strong that for the second time this season an overflow matinee was given on Friday. The business at this theater is rapidly approaching the two-a-day status. All of which calls to mind a story Manager Reiter tells with some gusto. Once during the winter a merry party of vaudeville performers were on their way from Kansas City to Omaha, and fell to talking about what towns they had been in or were going to. "By the way," said one, "what is Omaha noted for?" "T'ree matinees a week," said the "hick" performer. who was rolling a cigarette, and the rest understood. But this will soon be over if the interest in the vaudeville continues to grow as it has.

will build a theater for the uses of the Music and Musical Shuberts is the first thing in the way of a definite proposition along the line that has been made. It is interesting to note in this regard that the last time Isabel Irving appeared in Omaha as a star it was at the Krug, in "The Crisis," as an "independent," under the management of James views, saying that after five years he had K. It has been in times of hard luck that some of the finest women whose names have been connected with the stage have encouraged their husbands and cheered them so that they were able to do great work that itself forced the recognition that had not come when the skies were brighter. It was after William Farnum had a run of bad parts that his wife, Mabel Eaton, cheered him up so that by plugging away he was able to secure the fine part of Ma-Somet in "The Prince of India." That he and Miss Eaton were then divorced spoils the moral of the story a little, but everything cannot be exactly as the ideal historians would wish it.

There have been plenty of women from the time Kitty Cleve exercised such influence over Garrick to the days when Ellen Terry helped shape Henry Irving's policy at the Lyceum in London, and when Mrs. Mansfield helped her husband in his restless struggle for the highest success, who have had a large share in the work

that the stage has done. One of the worst things that can happen to an actor or actress is to have no hard luck at all. These players about whom the world cares most just now have lot improved or made worse by matrimony,
