TOO HEAVY AND TOO STRONG FOR FARMER

In Spite of the Bundleap the Big Rock Man Puts Up Fine Contest-Gotch Displays Remarkable Speed.

Frank Gotch, champlon heavyweight wrestler of the world, clearly demonstrated that he outclassed Parmer Burns at the Auditorium Tuesday night before 4,000 people, who filled nearly every seat in the big building, when he won in two straight falls. Burns had the big crowd with him, but that availed him naught against his heavier adversary. Gotch was in another class than the Farmer, being clearly a heavyweight who would have to fear no man, no matter how large. For physical development the statement was heard on all sides that never was a better built man shown before an Omaha crowd. He had the speed of a featherweight and was developed from head to foot. Some wrestlers have overdeveloped shoulders, but not so the mighty Gotch, whose leg work was marvelous.

Burns is pretty shifty himself, but not ace did he gain a perceptible advantage over his heavier adversary, which he was able to maintain. Omaha people have heard of the Gotch toe hold, but they never realized what its terror was until they saw the way Gotch grabbed the Farmer. With his great strength he was able to get that toe hold and hold it until the lines of Farmer Burns' face clearly

CHICAGO March 12.-F. A. In addition two petitions were filed in the United States circuit court asking for an injunction restraining the furniture companies from further violations of the Sherman anti-trust act, under which law the ndictments were returned. This indictment contains three counts. The first charges conspiracy in restraining of trade under section 1 of the anti-trust law. The second count charges a conspiracy in monopolizing trade and commerce throughout the United States. The third count charges a conspiracy and com bination in restraint of trade and com nerce and charges a number of overt acts n furtherance of the conspiracy. The indictment also charges that the above corporations and F. A. Holbrook had organised an association called the "Prudential club." The object of this association was to prevent competition in the sale of church pews throughout the United States.

The grand jury declares that the methods and means used in preventing competition and restraining trade were minimum fixed prices agreed upon, below which none of the defendant corporations were allowed to sell church pews. It is also contended in the indictment that the defendant corporations reported the names of all the churches or prospective purchasers requiring furni-ture to F. A. Holbrook and that Holbrook assigned and allotted the prospective sales o the different corporations in the combination. The indictment also states that the men of the combination put in "straw bids" for the purpose of deceiving the pub lice and making a show of competition. WASHINGTON, March 12.-Japan has made no protest to the State department against the action of the California legislature, the upper body of which passed a other to prevent land owners from making long leases to Japanese before President Roosevelt interfered through his protest to Governor Gillette. The assurance from California officials that these measures unfavorable to Japan will not become laws has not relieved the anxiety of the administration entirely, as it is feared that the effect of the California senate's action or pending negotiations between Japan and the United States will be decidedly unfavorable. The San Francisco school board has no as yet rescinded its order requiring Japanese pupils to attend separate schools and conequently Japan has not been asked to formally consider the terms of a treaty to settle the points of difference between the two nations, the exchanges up to this time having been entirely informal.
