Much of the fighting here is comparatively not serious, but the warring elements of these states have shown in the past that they can, on occablons., put up a good, stiff fight, and if the arrayed forces of Honduras and Nicaragua do meet in an engagement the conflict

The situation of armed hostility between Honduras and Nicaragua, from the Honduran side, is briefly as follows: The skirmish at San Marcos, a village in Honduras about five miles from the Nicaraguan frontier, was inconsequential. The main Honduras force is at Choluteca, Texiguat, Guinepo and Yuscaran. These four towns are in practically a straight line and about twenty miles from the frontier.

He would like also to have the first serious engagement on Honduran territory in order to be able to demand that Salvador make good its promise to help him in case of war. The presence of President Bonilla in the field has stimulated the Honduran army so that the men have confidence, and he is a fighter of experience. He has a strong personal following in Salvador as well as the confidence of the Salvadorean army, and every one here is expecting to hear any day that Salvador has decided to fight with him.

Honduras has armed already between 16,000 and 18,000 men, and 15,000 more are being equipped at the capital. The president is in close touch with his capital by automobile.
