

OMAHA AUTO JOBBING TOWN

Market City Derives New Prestige from Second Automobile Show.

BECOMES GREAT DISTRIBUTING CENTER

Means Great Saving for Retailers and Individual Buyers and Prices Will Be Much Lower.

The attendance at Omaha's second annual automobile show increases as the week progresses. Thursday night saw an immense crowd of spectators, who were interested in the machines which are being shown and the attendance Friday was large.

Omaha automobilists are visiting the show in large numbers and learning lessons from the representatives from the east from all the leading manufacturing houses. They never tire of talking automobiles. The accessory men also are in attendance and are boosting their special makes of tires.

The tire proposition is a hard one to face. Manufacturers are striving to make a tire as nearly unpuncturable as possible and yet to preserve the resiliency.

Local dealers are closing contracts with dealers in the state and western Iowa for automobile supplies for which this city has been made the distributing point. The Omaha dealers are in a position to make the same prices as the factories and at the same time to give more prompt shipments and also to effect a saving in freight, which formerly had to be paid from Chicago or New York. This is another move in making Omaha the great market town.

An enormous touring car was received by the Powell company, which is one of the sensations of the show. It has been sold to C. A. Romans of Denison, Ia. C. W. Hull bought a similar machine in a run-about form which is to be delivered April 1.

The large crowds are especially interested in the new six cylinder Franklin, which arrived by express for W. J. Hynes, a local grain dealer. These six cylinders are attracting considerable attention, although all sorts of the smaller machines are shown and are being sold in quantities. The moving pictures attracted the usual attention. Some of these are the same ones which were the hit of the Vanderbilt cup race, a show which was given at the Boyd earlier in the year.

HOWELL MOTION IS LOST

Plea for New Trial Overruled and Case Goes to Supreme Court.

Judge Sutton Friday overruled the motion of Samuel E. Howell, former president of the Omaha Coal exchange, for a new trial. Howell was found guilty in the district court in December of being a member of the exchange, which was held to be an organization in restraint of trade.

Attorney Connell had filed two affidavits in support of the motion for a new trial. One of these, in which prejudice was alleged on the part of Judge Sutton toward Connell, was ignored by the court Thursday "on account of the well-known tactics of Mr. Connell." The other, alleging that one of the jurors, L. M. Cash, had stated prior to the trial that he hoped he could get on the jury and help "cinch" the coal men, was denied by Cash in a counter affidavit filed Friday.

Mr. Connell says he will get the case into the supreme court with all possible dispatch.

Dangers from Grip.

An attack of grip seldom results fatally, but it is the indirect cause of many deaths. If it does not result in pneumonia, which is frequently the case, it leaves its victim with a cough which lingers on long after every other symptom of the disease has vanished. The system is thus left in a weakened condition and is susceptible to almost every other disease. The grip can be greatly lessened in its severity if Chamberlain's Cough Remedy is used, and any tendency toward pneumonia is promptly checked. There is no medicine which has met with greater success in the treatment of this disease. It cures the cough and leaves the system in a natural and healthy condition.
