NOT SO EASY FOR ICE TRUST

Enormous Supply Makes it More Difficult to Maintain Combine.

SMALL DEALERS ENTER THE FIELD

Adopt Price of Forty Cents a Hundred, Which the Trust Firm Are Naming Just Now.

"Is the prosecution of the coal trust bearing fruit?" asked Mr. Common People. With their storage houses bulging with 100,000 tons of ice local ice dealers, who last year were rewarded for their extortionate prices with the opprobrium of "trust," are said now to have lost faith in each other and this fellow is watching that fellow—and vice versa—out of the corner of his eye.

ALL HE GETS IS THE LIMIT

George Peterson Draws Maximum Penalty and His Lawyers

The efforts of Julius B. Cooley and his associate counsel, J. W. Kaley, to get a new trial for George Peterson met with a rude, rude shock Saturday morning.

as before for small dealers to get into the

Frank Lehmer, treasurer of the Omaha Ice and Cold Storage company, said his company is now selling coupon books at a rate of 40 cents per hundred, these books being for the retail consumer. Mr. Lehmer did not know of any proposed change in this rate so far as his company was concerned.

MANAGER WOOD OF THE PEOPLE'S ICE AND COLD COMPANY

Manager Wood of the People's Ice and Cold company said the People's company was selling coupon books at the 40-cent rate, but thought when the warm weather set in a lower rate might be made, although no other rate than 40 cents per hundred had been decided on. Inquiries of other companies brought similar responses.

INDEPENDENTS ARE ACTIVE

Meantime at least one firm of independent dealers has established itself for the summer with a permanent price of 40 cents a hundred. This is the (C. B.) Gunnell & (Duncan) Armour company, 324 Cumming street. Armour was formerly with the trust and one hot day last summer when he thought the trust had caught him in its tentacles as well as its patrons, he left his wagon and got out of his own. He has continued in the ranks of the trust. Ice is so "We have substantial financial backing and reservoir of ice till you can't see," says he, "and we are in the fight to the finish. There are rumors of other independents who will serve as a ballast to keep down the gouging prices of the trust. Ice is so cheap, it has not been found as difficult

never have been drawn up. They are made merely by putting the words into the mouth of the affidavit makers."

The court declared Peterson was "the luckiest man who had ever come into the court room," because if he had been caught five minutes later he would probably have been charged with a crime, the maximum sentence of which might be ten years. Being caught before he had accomplished his evident purpose he was charged with a lesser crime.

CHEAP ESTIMATE OF LIFE

Five Hundred Dollars Paid by Railroad for Death of Nation's Hero. The value of the life of Thomas Lee, civil war veteran, hero of a score of battles, who offered his life for his country's flag, is \$500. That was the price fixed on it by the United Pacific railroad by whose cars Mr. Lee was run over and killed last Monday. Settlement was made with Mrs. Emma Lee, the widow, by the payment to her of \$500 by the company Saturday morning.

DIGGS GOES BACK IN JAIL

Colored Character No Sooner Completes One Term Than He Enters on Another. James Diggs, the negro who attained great notoriety in connection with the murder of Frank E. Wheeler one year ago, and who just completed a ninety-day sentence at the county jail, is again in jail, this time on the complaint of others than the police. He was arrested Friday by Patrolman Glover as a suspicious character, for alleged peculiar actions he was said to have followed, by families named Johnson and Reynolds, 1510 Marcy street, and Mrs. E. B. Brown, 318 South Sixteenth street. They assert Diggs has been hanging around their houses at night, peeping through the windows and otherwise acting strangely.

MAYOR SIGNS TRACKAGE BILL

Approves the Ordinance Granting Rights for Triple Tracks for the Smelter.

Mayor Dahlman Saturday morning signed an ordinance granting the Union Pacific Railroad company the right to lay three sidetracks on the west half of Eighth street from California to Seward streets for the use of the American Smelting and Refining company. It was after some personal investigation of the merits of the Omaha and South Omaha, and there is no reason why we should not take that inspection as right. What reason has Nebraska for saying that work is for naught when the national inspection is being taken in other counties where the requirements are of a most stringent character."

Such is the Scheme Which Mayor Dahlman Wants to See Adopted.

Mayor Dahlman favors using the old market house on Capitol avenue for a public bath house, charging such nominal fee for baths as will defray actual running expenses of the institution. The mayor has presented his plan to Assistant City Attorney Kins, who will prepare an ordinance along lines suggested by the mayor. The mayor will also go before the council in committee of the whole next Monday afternoon and urge that serious consideration be given his bath house scheme.
