> able footwear for the spring. There is also the brown tie and the pump, both fashionable, and no doubt as soon as the season gets at all warm these will-be more popular although not more styllah.

The brown footgear is shown in an infinite number of shades. There are brown ooze bonts, with yellow vumps and dark brown uppers. These are shown to be worn with plain silk stockings of the dark shade of brown. One of the nicelies of dress is shown here. The boot, being in two colors, gives sufficient variety to the ensemble, and so a plain stocking is worn. With a perfectly plain one-color tie or boot a figured stocking might be more in order.

With a low tie of yellowish brown kid a duli mustard stocking is shown. These ties had steel buckles of medium size. A plain gray stocking would also look well with the combination. An exceedingly attractive new shoe was

nade of very dark branze kid. So very dark was the bronze that at a little disance only the slightest suggestion of color distinguished it from black. And yet is was infinitely richer than black and would be in harmony with simost any costume

The brenze shoe was low, with a very high heel. It was fastened in front with a dushing bow of very dark bronse grosgrain ribbon, and the stockings, of plain, heavy silk, were in the same shade. The

stockings had clocks in the same color. Next in popularity to the brown shoes for street wear, but a long way behind when it comes to a question of general use, are the gray shoes. These are shown In pumps and ties. A very handsome shoe, but one too elaborate for anything but touse wear or evening wear, was of gray undressed kid, made very high for a low shoe, that is, quite to the ankle joint. The shoe had a very high French beel. It The first glint of the newest, daintiest opened down the front so as to show the and most exclusive of spring underwear is stocking. SHIRT WAISTS STILL WORN

Garment Which Has Proved Its Service is in Active Demand.

DESIGNERS HAVE SOME NOVEL IDEAS

Sheves Will Continue to Be Short, but Much of the Fullness Has Been Taken Out.

It seems as if the designers have put orth unusual efforts this spring to please the shirtwaist enthusiast. Never has there een a larger variety, daintier or more effective designs to select from, and better still, there is a stamp of newness on every garment. For very early spring wear the light weight sliks are the correct thing and are displayed in foulard silks with coin spots and small dotted designs, some having the background covered with narrow white stripes. Fancy louistnes in plaid or striped designs will be worn not only for shirtwalsts, but for the shirtwaist dresses, Other popular silks are the messalines, India silks, raishs and chiffon taffetas. Many novelty silks are also displayed. The lingerie waist still continues to hold its prominent place in weman's affections and more in vogue than ever if their popularity ored dots on a white background, are the materials which are given prominence in Sleeves Are Short.

In fact, the long lines in trimming are returning to favor. The predicted absence of short sleeves did not materialize, as has dropped toward the elbow. The trim-The black stockings embroidered in white ming of the wairis is their most attractive ennes lace, tiny pin tucked shadow, eyelet preferably used, and from these most charming and striking lingerie waists are invented. One handsome model seen has ralenciennes lace insertion is set in a series of Vs, the lower one reaching to the center of the bust. A very chic and dressy appearance can be given to these waists by pender design, often called ribbon jumpers. models suggest some very artistic ideas, predominant color in the ribbon to be used. After a general survey of the spring waists displayed it will be observed that fushion scents the continued vogue of very sheet material elaborately designed with the daintlest of patterns and the finest of embroiderles and laces.

### TRIMMINGS ARE PROMINENT Garments Decorated with Braids Are Among the Latest Things to

He Shown. The spring styles show a tendency to load suits, dresses, separate coats, waists and other garments with trimmings. The cause for this is attributed to the fact licted. The bands on the new quisite and costly trimmings. The beaut hats are usually of material of the same of these trimmings is especially noticeable shade as that of the hat, although black on the new spring suits. A variety of newest, perhaps, are the colored braids, it fads shown in gowns or chemise are those seen on properly dressed persons during the blending of the green and the brown-are the shades which the exclusive tailors and flat silk brald in curved pattern and smaller dimensions in both crown and some suit now on display in one of the brim. The brim has more of a decided windows which is made of light gray, toned roll and fits closer to the body of the with an invisible check of navy blue. On in navy blue cleverly outlined with the making hand-embroidered work more ex- yet, curiously enough, men are very un- this season, at least, with the spring Novelties are shown in a high-crowned soutache braid. The jacket has the fronts pensive, but the increase will not be par- appreciative of these tortures. Time and output in shoes and stockings. One feels hat with a flattened crown, but novelties and back, the cuffs and the upper porticularly noticeable this season. They cost time again I've heard young men-no, not after an inspection of the exclusive shops and brown shades will not prove popular, tion of the sleeves almost covered with a smaller pattern of the same design. The result is very effective. Fushion also de crees that buttons must also be added to give a really chic appearance to a garment. And what a variety there is to select from. Handsome jeweled and metal buttons, croches buttons in black and don't have to pay 'em for more than a dark colors, slik or cloth covered buttons. The silk buttons must correspond in color with the predominating color in the cloth and very harmonious and artistic effects have been the result.

#### RUCHING HAS COME TO STAY Latest Neckwear Designs Show Tulle to a Greater or Less Degree. Women should give special attention to

the new and dainty styles in neckwear, as these little fads so in promisence in the early spring displays distinguishes a garmont and gives it a chic and stylish appearance. Many pretty styles are in vogue, the tulie ruche, embroidered limen collar and cuff sets, and many handsome lace sets. The tulle ruche has evidently come to stay. It is true it is made of material more or less perishable, but it is immensely becoming, and that is enough to put it in favor as an indispensable accessory to either the street or evening tolict. Tuile is also shirred into all sorts of complicated forms, which gives a very pretty and siry finish to a collar. The embroidered collar and cuff set continue to be very popular; indeed, they have become a staple article, and for the good reason that a touch of white at the throat and wrists s extremely neat, dressy and becoming: Embroidered turnover collars of piquo: linen, with the soft finish, are retailing at 50 to 55 cents. These are worn with both lingeric and slik waists, the fronts being ompleted by the dainty little cravat bow nade of lawn or swiss, which can be easily laundered. White stocks trimmed with narrow four-in-hand or Windsor ties and cravat bows in plaid or plain colored wilk have been very popular. The lace sets are not nearly as much in favor as the embroidered ones, as not only are they very much more extravagant, but they do not wash so well or keep their shape. There is some discussion as to the correct height of the collars. Preference is given to the inch and one-half to two-inch widths.
