Korvens and Erratic Wheat Market, with Querations of the Day on Various Cearse Grains Firmer.

CABLES ON ALL GRAINS MUCH STRONGER

rly Strength in Wheat Caused by god Foreign Demand, but Reaction Follows Favorable

"48 weakness because of reported rain in western Kansas. The wet weather reports were later denied and the market closed firm on renewed buying by shorts and commission houses. May wheat opened %c to %c higher at 75c to 75%c, sold off to 75%c and closed at 75%c. Clearances of wheat and flour were equal to 121,460 bu. The world's visible supply as shown by Bradstreets' decreased 286,000 bu. Frimary receipts were 567,000 hu., against 400,000 bu. on the same day last year. Minneapolls, Duluth and Chicago reported receipts of 465 cars, against 419 cars last week and 347 cars one year ago.

465 cars, against 419 cars last week and
367 cars one year ago.

Corn was firm because of a scarolty of
offerings. Receiving houses reported that
country purchases were very small and
strengthened the market. Another bullish
factor was an advance of 1435 at Liverpool. Commission houses were the princical buyers and the greater part of the
offers came from the longs. May corn
opened 1565 c higher at 464c, sold between
46c and 465 c and closed at 455c. Local receipts were 38 cars, with one of contract
strade.

Trading in outs was light, but the tone
the market was strong. Small local

Trading in oats was light, but the tone the market was strong. Small local lipts formed the chief strengthening formence, arrivals today being 19 cars less than had been estimated. The principal buying was by cash houses. May oats opened 165% chigher at 41% c. sold between 41% c and 41% c and closed at 41% c. Local receipts were 172 cars.

Frovisions were strong on a lively demand by shorts and local packers. A decline of 507% c in the price of live hogs seemed to have no effect on traders. At the close May pork was up 30c at 185.65. Lard was up 19c at \$8.70. Ribs were 1079 12% c higher at \$8.60.

Desirable kinds of stockers and feeders were in demand and sold freely at steady prices. In fact the stockers and feeders were the first cattle in the yards to sell. Representative sales:

ran heavily, making the total for the day cobsiderably larger than anticipated. The market was not quite so active as resterday, but packers all seemed to want good killers, both sheep and lambs, and the market on anything of that description was fully steady with yesterday. More than that, the trade was sufficiently active to effect a reasmably early clearance of the desirable killers. On the other hand, the common to medium grades were rather slow, with the feeling, if anything, a little easier.

Good lambs gold as him total for the day curities, increased dt.800,000 marks; notes in circulation, increased dt.800,000 marks; notes in circ

sow, with the feeling. If anything, a little easier.

Good lambs sold as high as 77.85 which was the top yesterday. There were no choice light yearlings in the yards to make a test of the market, but the feeling is that anything good along that line would bring around \$6.75. Some pretty fair heavy yearlings sold at \$6.80. Good ewes sold up to \$5.75. All these prices looked very good and the market as a whole was shiefactory, although buyers did not lump over each other as they did yesterday in their selforts to secure everything in sight.

BERLIN, March 26.—The weekly statement of the Imperial Bank of Germany shows the following changes: Cash on hand, increased 13,940,000 marks; treasury notes, increased 1,500,000 marks; other se-

month and Faster holidays. Discounts were higher. The opinion prevailed that there would be no increase in the Hank of Eagland's discounts this week, as large amounts of sold are expeuted from the continent. Trading on the Stock exchange opened with an uneasy tone under the influence of yesterday's declines in New York. The selling, however, was not large and towards noon a quieter feeling prevailed and a firmer tendency was manifested. The market closed cheerful with operators hopeful regarding the settlement. The failure of one small jobber was announced. His losses were mostly in Hudson Hay. Consols were firmer and higher. Americans opened above parity, but declined owing to heavy liquidation. Later they improved and under New York support closed at the best quotations of the day. Canadian Pacific was affected sympathetically. Copper shares were weak and fluctuated violently. Ho Tintos fell to S. Japanese imperial is of 1904 closed at 1004.
