H. R. 330.—By Scudder of Hall. Exempting 10 per cent of the wages of the young man in St. Francis hospital, but in such a condition that he was unable to state the circumstances under which he was injured. It was asserted by the Kansas City officers that Fetter and the special officer exchanged several shots and that Fetter then turned his weapon upon himself and fired a bullet into his head. The wound which caused the young man's death is so situated, above the left ear, that it is declared by the doctors and by the police to be out of the question for the young man to have shot himself.

The coroner's physician, after examining the body of Fetter, announced no powder burns were discovered near the wound. He asserted that the bullet that struck Fetter must have come from a distance.

KANSAS CITY, March 27.—Frank Fetter was employed by Swift and Company of this city on March 22 last as a machinist. On March 15 Fetter went outside the company's plant for dinner and remained out after the gates of the plant had been closed. He returned to the plant and was told by the watchman, C. G. Hedrick, after telling him that he could not get in, says he fired several shots in the air in an effort to frighten Fetter away. Fetter believed the watchman was shooting at him and returned the fire. The watchman then began to pursue Fetter, who, finding him-

self unable to escape, shot himself in the head. At the hospital Fetter said he believed the police were looking for him and that he armed himself for protection.

CAUSE OF DEATH UNCERTAIN

Special Policeman at Kansas City May Have Shot Man from Chicago.

CHICAGO, March 27.—The police are investigating the circumstances surrounding the death of Frank Fetter, 23 years of age, who died today in a Chicago hospital. They believe Fetter was shot in Kansas City by a special policeman employed by Swift and Company.

Fetter left his home here three weeks ago and March 15 his father received a message from the Kansas City police saying that young Fetter had shot himself with suicidal intent. The young man was in St. Francis hospital, but in such a condition that he was unable to state the circumstances under which he was injured. It was asserted by the Kansas City officers that Fetter and the special officer exchanged several shots and that Fetter then turned his weapon upon himself and fired a bullet into his head. The wound which caused the young man's death is so situated, above the left ear, that it is declared by the doctors and by the police to be out of the question for the young man to have shot himself.

The coroner's physician, after examining the body of Fetter, announced no powder burns were discovered near the wound. He asserted that the bullet that struck Fetter must have come from a distance.

SALVADOR WANTS PEACE

Mexico Asked to See Good Offices in Stopping Central American War.

WASHINGTON, March 27.—Mr. Creel, the Mexican ambassador, today confirmed the press dispatches of this morning that Salvador has expressed a desire for peace in Central America and is anxious to have Mexico exert its good influence in ending the war involving Salvador, Honduras and Nicaragua.

This desire of Salvador is regarded by diplomats as an indication that the war is practically ended, because Honduras is not strong enough to continue it single-handed. This action of Salvador will double prevent Guatemala or Costa Rica from taking any part in the support of Honduras. Mr. Creel had a conference with Mr. Cores, the Nicaraguan minister, today and probably will confer tomorrow with Secretary Root as to how Mexico and the United States can best exert their efforts to restore peace.

MOBILE, Ala., March 27.—A report was brought to Mobile from Trukillo, Spanish Honduras, by way of Puerto Cortes, that an attempt had been made by the Honduran army to seize the Nicaraguan steamer Buldan and an American schooner at the first named place for the purpose of using them as troop ships, but that the presence of the American warships prevented it.

WASHINGTON, March 27.—The State department today received the following telegram from Philip R. Brown, secretary of the American legation at Tegucigalpa, the capital of Honduras:

Tegucigalpa was abandoned early yesterday precipitately. It was occupied last night by Nicaraguan and Honduran revolutionary forces. I assumed charge in the interval, with the aid of the consuls, and preserved order. The Honduran government no longer exists.

COAL RATES ARE TO STAND

After Confering with Interstate Commerce Commission Presidents Change Their Mind.

WASHINGTON, March 27.—Prompt action by the Interstate Commerce commission has averted what might have developed into a serious clash between the coal shippers and the railroads of Indiana and Illinois. March 15 the Indiana Railroad commission, the United Mine Workers and representatives of coal operators of Illinois and Indiana complained to the commissioners that the carriers had given notice of an advance of 2 cents a ton on coal from Indiana and Illinois points to Chicago. Such an advance, they pointed out, would seriously affect both operators and miners. The question of filing a formal complaint against the railroads was considered by the delegates with the commission.

An intimation also was made that proceedings would be instituted against the carriers for violation of the anti-trust law. Since that time the commission communicated with the presidents of all the roads interested, and in the words of Chairman Knapp, "certain suggestions were made to the railroads."

It was announced by the commission today that replies to the communications had been received from the interested lines and that the determination to make the proposed advance in the coal rates had been reconsidered and abandoned.

JURY AFTER PASSHOLDERS

Railroad and Express Company Managers Called Before Federal Inquisitors at Chicago.

CHICAGO, March 27.—The federal grand jury today began an investigation into the workings of the new rate law and its relations to the leasing of railroad passes and express company franchises.

Several of the superintendents and other general officers of the various express companies have been summoned to appear before the grand jury on Friday and have been requested to bring with them all records pertaining to the names of persons whom franchises have been issued since the passage of the rate law.

NEW YORK, March 27.—A dispatch received today from Tokio announces the death of James Henry Smith, one of the wealthiest capitalists of this city. At the time of his death Mr. Smith was on a wedding tour around the world. His bride is the divorced wife of William Rhineland Stewart. They were married in this city last September. Mr. Smith's death occurred yesterday at Kio, Japan. In the party with Mr. and Mrs. Smith were the duke and duchess of Manchester.

RURAL MAIL BOX DECISION

Delivery Will Be Discontinued Where They Are Not Placed by Roadside.

WASHINGTON, March 27.—In a decision rendered today Fourth Assistant Postmaster General De Graw insists upon an adherence to the regulations requiring that boxes on rural mail routes shall be erected by the roadside so that carriers can readily obtain access to them without deviating from their routes or dismounting from their vehicles. Failure to comply, the decision states, is likely to result in the discontinuance of the delivery of mail.

will be liberally used. Senator Epperson, in a statement made to the senate today, read from a compilation of appropriation bills now before the legislature and those which have been passed, showing the total to be \$4,282,356. The finance committee has roughly estimated the income of the state for the biennium will be about \$3,000,000. In other words, the expenditures of the state are to be kept within bounds the senate will have to reduce the appropriations about \$1,282,356.

The finance committee is working hard on the problem and is holding sessions morning, noon and night. The senate adjourned early this afternoon until 10:30 tomorrow morning in order the give the committee a chance to get out some more appropriation bills. The salary bill will come up before the committee of the whole tomorrow and will occupy most of the day. The senate has already killed one of the appropriation bills carrying \$50,000 for a diplomatic building at the Lincoln asylum, and today refused to revise it, though both McKesson and Burns of Lancaster made a fight to have the vote reconsidered. Several other institutions are slated to have their requests scaled down in similar manner.
