limit somewhat the powers conferred by the original bill. One amendment taken out of its jurisdiction the street cleaning department and eliminates the provision for civil service embracing the city employees. In addition to the power of the city engineer to discharge employees under him, any member of the city council may, under an amendment, file written charges against any employee. The latter is entitled to a hearing before a board consisting of the council, the mayor and the city attorney. Another amendment increases the limit of the library fund from \$200 to \$250.

CHURCH MERGER SUGGESTED. Baptists and Disciples May Unite Organizations as Result of Present Discussion. CINCINNATI, April 3.—With a proposition before it looking toward the merger of two great church organizations, the ninth annual congress of the Disciples of Christ met here today. Of the 1907 congress, in Indianapolis, a committee of ten was appointed to make a study of the situation and to report on the overtures and formulate a plan for "closer relations" between the Baptist and the Disciples church. It is understood that the committee's report will advocate the merger. The merger was fought on the ground that missionary society funds being given for a specific purpose cannot be applied in educational purposes and that complications likely would arise if the educational work, comprising some forty Christian colleges in various parts of the country, should be placed in control of the missionary societies. Before the Educational society the short, age in the number of ministers was the principal topic, it being shown that there are 1,300 members in the Christian churches of the country and only about 7,000 ministers. The vacant pulpits already number over 2,000 and the number is constantly increasing.

Crawford the First South Dakota State Conference of Charities and Corrections is in session here and will remain in conference for three days. All the superintendents of the state institutions, penal, charitable and educational, are here, as are the members of the state board itself. The national secretary, Alexander Johnson, is here and made the opening address. The conference organized with the following officers: Dr. H. K. Warren, president; Superintendent George Nash of the state normal and industrial school, vice president; Superintendent Mary E. Wood of state blind normal school, Gary, second vice president; W. E. Tipton, member state board charities and corrections, secretary. A number of outside institutions are represented.

THAW VERDICT THIS MORNING. Lunacy Commission Will Report Its Finding to Court Early. DEFENDANT IS IN FINE SPIRITS. He Undergoes Close Examination for Two Hours and is Pleased at Showing He Made. NEW YORK, April 3.—Tomorrow brings another critical stage in the case of Harry K. Thaw, when the slayer of Stanford White either will be officially proclaimed insane and ordered sent to a state asylum or his trial will be resumed before Justice Fitzgerald upon the findings of the lunacy commission that the defendant is at this time capable of rightly understanding his own position, of appreciating the nature of the charges against him and of rationally advising with his counsel. The commission completed its work today and will be ready to report to Justice Fitzgerald tomorrow. Thaw underwent a thorough mental and physical examination for more than two hours this afternoon. In this last crucial test he was entirely alone before the commission, even the district attorney and members of his own counsel being barred. When the three members of the commission—David McClure, Peter B. Olney and Dr. Leopold Putek—had completed their final examination they shook hands with Thaw in a most cordial manner. He went back to his cell with a light heart and declared later to his counsel that he felt the commission would surely declare him sane tomorrow. The attorneys sharp their District Attorney Jerome would not commit himself in any way. Thaw's counsel declared they were ready to proceed with the case tomorrow, and believed Mr. Delmas might begin his summing up address before noon. In that event they said Mr. Delmas would address the jury on Friday and a verdict might be expected before the week end. There is little or no likelihood that the report of the commission ever will be made public. If the decision favors Thaw, Justice Fitzgerald will merely order the trial to proceed without any reference whatsoever to the interruption which began two weeks ago. Should the decision be against Thaw, Justice Fitzgerald would have to quote but briefly from the formal finding of the commission in his order committing the young man to an asylum. If committed Thaw would have to remain in the asylum until declared sane by a superintendent of the institution. Then he would be brought here and tried again.

WARM TIME IN WYOMING. Effort of Sheep Company to Join Stock Growers' Association Starts Now. ALLEGED ATTEMPT TO CONTROL SOCIETY. After Discussion in Which Fight is Threatened Application is Withdrawn—Small Cattle Growers Are Blamed. CHEYENNE, Wyo., April 3.—(Special.)—The annual meeting of the Wyoming Stock Growers' association struck a rock at once when the applications of a number of stockmen and stock companies came up for consideration. Some of the cattlemen objected to the admission of sheepmen, but it was pointed out that a large number of the members owned sheep as well as cattle. A vote was taken on the proposition to admit sheepmen, and carried. President Irving voted eighty-eight proxies in favor of admitting the L. U. Sheep company. The cattlemen called attention to the constitution and bylaws, which provide that three black balls are sufficient to reject an applicant for membership, and that more than the required number of black balls had been cast. Some very bitter speeches were made by the cattlemen, and these were replied to in kind by the sheepmen present, and also by a number of cattlemen who took sides upon the matter of cattlemen against sheepmen. The sheepmen had attempted to control the convention so as to pass resolutions against federal control, leasing and fencing of the public domain, but the charge was denied. Application Withdrawn. When it seemed that the stockmen would come to blows and that nothing could avert the transfer of the rights of the range to the floor of the convention hall, a representative of the L. U. Sheep company withdrew its application for membership and President Irving quickly declared a recess. The discussions in this convention indicate clearly that the feeling of bitterness upon the part of cattlemen against sheepmen is rapidly disappearing and annually the sheepmen gather new converts from the ranks of the cattlemen and soon, if these conditions continue, there will be no feeling of bitterness between the two interests. It was noticeable that the only ones who were at all bitter against the sheep interests were a few small owners who are deep in their ideas and who are usually the last to admit their mistakes. At one time these men threatened to disrupt the organization, to withdraw and organize a new association, and they may do so yet, although the action will in no way affect the Wyoming Stock Growers association, which is the oldest organization of its kind in the state.

When it seemed that the stockmen would come to blows and that nothing could avert the transfer of the rights of the range to the floor of the convention hall, a representative of the L. U. Sheep company withdrew its application for membership and President Irving quickly declared a recess. The discussions in this convention indicate clearly that the feeling of bitterness upon the part of cattlemen against sheepmen is rapidly disappearing and annually the sheepmen gather new converts from the ranks of the cattlemen and soon, if these conditions continue, there will be no feeling of bitterness between the two interests. It was noticeable that the only ones who were at all bitter against the sheep interests were a few small owners who are deep in their ideas and who are usually the last to admit their mistakes. At one time these men threatened to disrupt the organization, to withdraw and organize a new association, and they may do so yet, although the action will in no way affect the Wyoming Stock Growers association, which is the oldest organization of its kind in the state.

WARM TIME IN WYOMING. Effort of Sheep Company to Join Stock Growers' Association Starts Now. ALLEGED ATTEMPT TO CONTROL SOCIETY. After Discussion in Which Fight is Threatened Application is Withdrawn—Small Cattle Growers Are Blamed. CHEYENNE, Wyo., April 3.—(Special.)—The annual meeting of the Wyoming Stock Growers' association struck a rock at once when the applications of a number of stockmen and stock companies came up for consideration. Some of the cattlemen objected to the admission of sheepmen, but it was pointed out that a large number of the members owned sheep as well as cattle. A vote was taken on the proposition to admit sheepmen, and carried. President Irving voted eighty-eight proxies in favor of admitting the L. U. Sheep company. The cattlemen called attention to the constitution and bylaws, which provide that three black balls are sufficient to reject an applicant for membership, and that more than the required number of black balls had been cast. Some very bitter speeches were made by the cattlemen, and these were replied to in kind by the sheepmen present, and also by a number of cattlemen who took sides upon the matter of cattlemen against sheepmen. The sheepmen had attempted to control the convention so as to pass resolutions against federal control, leasing and fencing of the public domain, but the charge was denied. Application Withdrawn.
