Such was its force that our city seemed to be in the jaws of some monster who would shake us into shreds as a mastifi does his game. Down came the plastering, the furniture was overturned, cracks were opened in strong walls, roofs were shattered and rain poured in. During the first day there were four-teen shocks and they still continue. There have been altogether eighteen shocks. Of the 4,000 houses here over 300 have fallen and half the remainder have been seriously damaged, about 350 to 3500 being needed to repair each house.
