SIX FEET OF SNOW ON LEVEL Condition in Which a Pioneer Found **Omaha Forty Years** Ago.

Forty years ago today Rev. J. M. Caldwell, a Baptist minister who lives at 2708 North Twentieth street, crossed the ice on the Missouri river in a four-horse stage coach with twenty passengers when the snow was six feet on the level.

"I recall many peculiar incidents of the trip as viewed at the present time," said Mr. Caldwell. "I was then an active minister and came to Omaha to attend a Baptist conference, which was held in the old First Baptist church on the site of the old postoffice at Fifteenth and Dodge streets. We arrived in Council Bluffs April 7, 1867, and crossed the river to Omaha in a rickety old stage coach over the Ice. Twenty passengers were squeezed into the palatial acommodations of the coach and the snow ame up to a level with the windows. "Omaha was then pretty much of a frontier town, but boasted of several substan-

tial buildings. The conference only lasted one day and the weather was bitter cold. We returned to Council Bluffs the following day, when a blizzard was still raging." Mr. Caldwell bought lands in western Newranka about the time of his early visit, ut has since exchanged the property for Omaha real estate and has lived in the city for the last six months. He has been in the Baptist ministry for forty-five years, but is now engaged in evangelistic work.

He is of the opinion that the winters of long ago were much colder and accompanied with more snow than in late years.
