NEW SIX-STORY WAREHOUSE

Fairbanks, Morse & Co. Plan for Building at Ninth and Harney.

WANT HOME FOR GROWING BUSINESS

Present Quarters Inadequate and New Building Will be Ready for Occupancy by First of Next Year.

Estimates are being taken by the local managers of Fairbanks, Morse & Co., dealers in machinery and supplies at Eleventh and Farnam streets, for the erection of a new building on the lot bought by the company last fall at the northwest corner of Ninth and Harney streets.

The building now occupied by the company has become inadequate in capacity for the business transacted and the new warehouse has become necessary to keep pace with the growth in business.

The new building would complete a most desirable group of wholesale buildings on the corner in question.

Building for Mitten Company. A site for a new factory building for the Omaha Mitten and Manufacturing company, which has quarters at present on the second floor of the building at 130 Howard street, is being searched for by officers of the company and it is planned to erect a two-story building, probably of reinforced

concrete, if a suitable location can be secured. The mitten factory is an infant industry of Omaha, but the business has outgrown the present cramped quarters occupied on Howard street.
