Western league teams now know the day of their beginning, April 17. The delay in announcing the schedule has been due to the uncertainty as to the circuit. It was desired at the close of last season to add Topeka and one other town, St. Joseph preferred, to the Western league circuit for the purpose of making it eight instead of six clubs strong. This plan was defeated, although it was followed until the very last. President O'Neil followed the instructions of the league members to the letter, but could not carry the point in face of the law and the opposition of the Western association. Six clubs will again contend for the pennant, and spring practice shows that they will be much nearer matched than last year.

This will to some extent militate against the on will to some extent militate against the off "Inside game," which has won for Omaha such distinction in Western league circles, for that game calls for seasoned players.
