The plumbers say the matter has become zerious, but they do not place the blame on the police saying the parents are at fault for not caring better for their children, and suggested that means be taken to let them know of their children's acts.

Six Years for William Howard-William Howard Thursday morning entered a plea of guilty to a charge of robbing the restdence of E. W. Swobe, Thirty-sixth and Dodge streets, and was sentenced to six years in the penitentiary by Judge Troup. W. W. Dodge, Howard's attorney, made a touching appeal for clemency. He said Howard's 14-year-old son had written a letter declaring he would stand by his father, even though he were sent to the penitentlary. He said he would go to Lincoln, too, and visit his father frequently in his cell. Judge Troup told Howard he should have thought of his son before he committed the burglary. Howard has a long penitentiary record in other states and Judge Troup referred to this in announcing his punishment. He was caught at the Union and John T. > Ex-Mayor J. S. Harrington of O'Neill is an Omaha visitor, stopping at the Merchants. Mr. Harrington is just back from the Pacific coast, where he has been looking after some copper mining properties in which he and other Nebraskans are inter-

"We have a big thing out there and are going to make good," said Mr. Harrington. "Our mines are located east of Seattle and west of the Cascade range. We are now putting in a big tunnel and the railroad is building a branch line direct to our mines. We have not been saying much, but are little. Our properties are owned and controlled wholly by Nebraska men, and the output thus far indicates one of the best mining prospects on the coast. The beauty of it is we are of easy access to both railway and water transportation and feel the utmost confidence of realising handsomely from our investment."

The grip has been unusually prevalent during the past winter, and in many cases is likely to be followed by an attack of muscular rheumatism. This is the most common variety of that disease and least dangerous. There is no swelling of the joints and the pain is not so excruciating as in soute or inflammatory rheumatism however, and every movement increases the pain. Conference and Other Real Estate Men Are Showing Much Activity.

Extension of time for the submission of bids by contractors on the new Oohn building, for which excavations have been completed at Sixteenth and Davenport streets, have complained recently to Chief of Po- has been granted by Architect John Latenser. All hids for the construction of the new building were to have been submitted not later than Thursday evening, but the time has been extended until next away with tools, fill pipes with rubbish Monday. It is not probable that the conand in other ways cause endless trouble tract will be let before one week after the submission of all bids. Many of the contractors of Omaha are figuring on the plans, which are exceedingly intricate, as the new building will be a most desirable contract to secure.

Another Apartment House. A modern apartment house or a row of St. Louis brick flats will be built this season by William Redgwick on three lots recently bought by him at the northeast corner of Thirty-afth and Dodge streets from Harrison & Morton. The improve ments will cost about \$30,000 and work will be begun as soon as the type of building is definitely decided. The lots are consider ably below grade and sold at a very low figure when the desirable location is taken into consideration, but this will not prove serious obstacle in the building of the brick flats or the apartment house, as the basements of the new structures will extend considerably below the street level. Redgwick is associated with C. W. Partridge in building the new Christian church and the new row of brick flats west of All Saints' church.

Y. M. C. A. Building Ready. The new building of the Young Men's Christian association at Seventeenth and pleted with the exception of a few interior secorations and the installation of the lighting fixtures. The contract for furnishing and installing the lighting fixtures has been let to Burgees-Granden Co. and the fixtures are of the most elaborate and expensive character. The artesian well has been completed and the contractor is at work connecting a compressed air pumping engine with the well, which does not have a surface flow on account of the high elevation of the new building.

Smith Company Conference. B. F. Smith of New York City, one of eastern members of the local real estate firm of the W. Farnam Smith company, arrived in Omaha Wednesday evening for the purpose of spending a few days conference with the Omaha officers of the company. Mr. Smith is on an annual tour of inspection and has large investment interests in Omaha that require a considerable part of his personal attention now getting in shape to stir things a He expressed himself as greatly gratified that he could look to Captain Palmer for at the remarkable prosperity in evidence the bill. throughout the entire west, and in Omaha

> Dudgeon's New Site. The large lot and two-story frame building at the northeast corner of Twentyninth and Farnam streets has been bought by D. W. Dudgeon, the plumber, through W. R. Homan, for \$5,500. The lot has a frontage of 115 feet on Parnam street and is forty-five feet in depth. Mr. Dudgeon intends to remodel the old frame building on the lot and will establish his plumbing shop in the reconstructed building. Mr. Dudgeon has sold his home at 2727 Chicago street for Paxton. \$3,000 to Jacob Frank, who will occupy the

premises for a home. Smith Buys a Fint. F. W. Smith, a retired merchant who moved to Omaha to make it his permanent residence about one year ago, has bought worth avenue for \$5,600 from William Redgwick, through the firm of Harrison & Mor-The flat was built last fall by Mr. Redgwick and C. W. Partridge and is strictly modern. Since coming to Omaha Mr. Smith has invested over \$20,000 in Omaha real estate, showing the confidence felt by outside investors in the future of the city, and is planning to make other in-

vestments in the near future. Remodeling a Block. Improvements to cost several hundred dollars are to be made to the Patterson building at Seventeenth and Farnam streets by the agents, the McCague Investment company. The store now occupied by the Columbia Phonograph company at 1831 a few days. Farnam street will be remodeled by the extension of the front to the street line, utilizing the large space now used for the entrance to the building. A new entrance to the building will be provided on the Seventeenth street side, back of the Smith Premier Typewriter company.

Sales at Dundee. Several cash sales of Dundee residence property are reported by George & Co., as having been made for the Dundee Renity company. A lot on Underwood avenue, between Fiftieth and Fifty-first streets, was sold for \$650 to Oscar F. Drefold, who has engaged an architect and has specifications for building a frame residence to cost \$4,000 J. P. Maxwell bought a lot on Underwood avenue, near that bought by Mr. Drefold. and has plans prepared for the erection of a home this spring that will cost \$3,500 Two lots at the northeast corner of Fiftysecond and Cass streets were bought by John Muriagh, sr., for \$1,500 and the buyer intends to build a \$7.500 home this spring

The first cars put out were experimental in a degree, but they did remarkably well, Nos. 8 and 9 have been doing exceptional work. No. 8 runs daily between Heatrice and Lincoln and has built up quite a bustness. The trouble has been with these cars that they were scattered all over the country, one being at Galveston, one at San Francisco and one in New York, and this arrangement made them so scattered that should anything break they were too far from the shops, or should a motor become sick there might be none there who could run the motor. With the installation of more of these cars supply stations can be maintained and should a part break it will not take so long to repair the damage. With all these facts considered it is said that No. 8 has been running for over six months with less repairs than a locomotive

would have required doing the same work. Superintendents Here. Superintendents J. O. Brinkerhoff of the Kansas division, H. L. Anderson of the Wyoming division and A. F. "Not yet," said the buyer, "but my wife expects them any minute. You see they broke into the house across the street a few nights ago and took a couple of watches and some other valuables. "Well, night before last we went to bed and I hadn't had more than forty winks till I was awakened by my wife. Burgiars downstairs,' she whispered. I told her it was nonsense, but it was no use, I had to go down. The hall was dim below, but my eyes, dull with sleep, discerned a burly form standing by the door. It was motionless. I fancied I could see a gun gleaming in the fellow's belt. He was evidently stowing away his booty. My wife was standing at the head of the stairs. ## Irrigation Means Wealth

Each year records an advance in the values of irrigated lands. A strong illustration of higher values is shown in the vicinity of Brush and Fort Morgan, Colorado, where two new beet sugar factories were completed in 1906. Irrigated lands from which sugar beets were raised have risen in value from \$40.00 or \$50.00 an acre to \$80.00 and \$150.00 per acre. There are many desirable tracts, both unimproved and under

crops, in the Bijou and Jackson Reservoir district of Eastern Colorado, that can be bought today very cheap, at prices which experience shows will double in value when such lands are planted What is the value per acre of sugar beet lands that yield for

the season net earnings of 35 to 40 dollars per acre? This Bureau will assist you in locating in Eastern Colorado, the North Platte Valley, the Big Horn Basin, or the Billings District. Excursions 1st and 3d Tuesdays.
