BURWELL, Neb., April 12-(Special r-For the first time in many years Burwell is at present a dry town. The condition is not brought about because of the result of the election, for the high license board was elected, but there has been a faction of the high Hoense party that has for years insisted on only one saloon, and that s the party in power, and another faction has insisted that all should be licensed that ask for it and pay their money. There were three petitions presented to the board and on account of the factional fight there were remonstrances filed against all three drawn and Burwell is without a saloon, and the future result is in doubt.

Cars at Nebraska City. NEBRASKA CITY, Neb., April 12.-(Spe cial.)-A few days ago a number of the owners of elevators and grain men in this vicinity met in this city and effected a temporary organization for the purpose of seeing if some means could not be devised

whereby the railroad companies could be compelled to furnish them cars when needed. A committee was instructed to hire legal talent and to take such other action as they deemed best. This action had a most salutary effect, as the railroads have put cars in front of every cievator and have plenty on the sidetracks. This is greatly in contrast with the action of the railroads in the last four months, when elevators could not get to exceed

two cars per month. A. B. Hubermann, 40 years at S. E. Cor. importer; sold at import prices.

### TOTAL ON APPROPRIATIONS

Those Approved by Governor Are \$4,004 .-730 for the Biennium.

HUNDRED THOUSAND LESS THAN REVENUE

Auditor Pinces the Revenue at a Still Higher Figure, but the Governor Desired to Be on Safe Side of the Question.

(From a Staff Correspondent.)

LINCOLN. April 12 .- (Special.) -- The total appropriations made by the last legislature and approved by the governor, including the 1 mill levy for the State university (estimated) amounts to \$4,004,730.22. Including what the 1 mill levy for the uniersity will produce the governor estimated the receipts for the blennium to be \$4,122,-279. This will leave a margin for the state of \$117,640. But besides this money the taxpayers of the state will be assessed the extra mill to pay on the state debt, though they will be relieved one-half mill by reason of the repeal of the bill providing a levy for the schools. This, however, will be off. set by the probable addition of one-half mill against the general fund. Governor Sheldon estimated the receipts of fees by the various offices as follows:

Governor, \$170; auditor, \$210,000; secretary of state, \$65,000; land commissioner, \$10,000; banking department, \$30,000; food commissioner, \$5,000; board of frrigation, \$500; off soldlers' homes, \$72,000; interest on deposits, \$16,700; convict labor, \$68,000; back taxes,

Deputy Auditor Cook estimated the receipts for the general fund to be \$3,700,000. Governor Sheldon, however, based his estimate on a total assessment this year of \$315,000,000 and for 1908 an assessment of \$125,000,000. Others estimate the grand assessment roll much larger than this, but Governor Shelden was anxious to be on the safe side and for that reason urged appropriations to be kept within the limit of a conservative estimate of receipts.
