The Farmer's Wife

Is very careful about her churn, Sha scalds it thoroughly after using, and gives it a sun bath to sweeten it. that if her churn is sour it will taint the butter that is made in it. The stomach is a churn. In the stomach and digestive and nutritive tracts are performed processes which are almost exactly like the churning of butter. Is it not apparent then that if this stomach-churn is foul is makes foul all which is put into it?

The evil of a foul stomach is not alone the bad taste in the mouth and the foul breath caused by it, but the corruption of the pure current of blood and the dissemination of disease throughout the body. makes the sour and foul stomach sweet. It does for the stomach what the washing removes every tainting or corrupting ele-ment. In this way it cures blotches, pimples, eruptions, scrofulous swellings, sores, or open eating ulcers and all homors or discuses arising from bad blood.

If you have bitter, nasty, foul taste in your mouth, coated tongue, foul breath, are weak and easily tired, feel depressed and despondent, have frequent headaches, dizzy attacks, gnawing or distress in stomach, constipated or irregular bowels, sour or bitter risings after eating and poor appetite, these symptoms, or any considerable number of them, indicate that you are suffering from billiousness, torpid or lazy liver with the usual acc ion, or dyspepsia and their attendant
