ROMANCE OF THE GOLD MINE Mighty Magnet of Precious Metal Proves Irresistible Within Its Sphere.

More romance, more wealth and more political power came out of the Comstock When over \$900,000,000 in silver, the making half a dozen senators and a couple of trunk line railroads had been extracted For years it has been impossible to work been sunk, owing to the inrush of water innumerable but fruitless schemes to drain the mine so that the immensely rich veit of metal might resume its former business Corporations must also furnish a detailed of producing millionaires. Now it is asserted rather positively in dispatches from Virginia City that the tunnels are nearly finished, that the labyrinth of excavations and that mining can soon be recommenced. Since the Comstock, like a mighty magnet, drew hordes of fortune hunters to Nevada, that state had little to recommend it until a couple of years ago. Then that grizzled projector, Jim Butler, struck his pick into a marvelously rich rock at Tonopah, and it was the signal for a new stampede to the desert state.

The cattle are getting better as the season advances but there has been a very notable scarcity all week of strictly good to choice finished beeves.

On the whole the market for fat cattle has been a very natisfactory one for sellers. Prices were a little lower on Monday and Tuesday, but since then the trend of values has been steadily upward and the closing quotations are snywhere from strong to loc higher than a week ago. The advance has been mostly confined to the fat, light and handy weight beeves, for which the demand has been best from both packers and

been strong all week and in addition to the usual inquiry from local packers there has been vigorous buying by both eastern shippers and feeder buyers. Prices are generally fully 10c higher for the week and in the case of the fat light and heitery grades values are fully 10gHsc higher. Veal calves have been in good request and firm from start to finish, while the market has suffered a decline of 15gMsc on rough and heavy bulls. Business in stockers and feeders was fairly lively the fore part of the week but for the past two or three days the demand for the lighter grades has failen off very materially and closing prices for stock of this kind are 15625c lower than Monday. Farmers are busy in their fields at present and as grass is somewhat backward they are not anxious to take on the light cattle until pastures are in condition to receive them.

HOGS—The week closes with a moderate run of hogs and a good, strong, active market all around. The week's receipts foot up about \$5.500 head, or nearly 20,000 more than last week and 10,000 more than for the corresponding week a year ago. The market has been fairly brisk throughout, with comparatively little change in prices from day to day, the weakness of the middle of the week being fully regained and closing quotations being substantially the same as a week ago.

The general situation has developed no new features. Packers want the hogs, but feel that country supplies are liberal, and they are strongly averse to allowing prices to get materially higher until they are satisfied that the winter's run of hogs is over. The top today was \$6.50, as against \$6.40 yesterday.
