CHILPANCINGO, Mexico, April 15 .- This city has been completely destroyed by an earthquake. The known dead number sleven and the badly injured twenty-seven. The greatest panic prevails and people are fleeing to the open country. The earth confinues to rock at half-hour intervals and sons are killed and many injured. many minor shocks are completing the

Word has reached here that the city of Chilapa, forty-two kilometers to the northeastward, has also been destroyed. No details have been received as to the number of the dead and injured. The population of Chilpancingo is 7,498, and until the panic into which the citizens have been thrown abates it will be impossible to state the number of casualties. The population of Chilapa is 1,500. No word has been received from Tixtia, and it is feared it also has been destroyed. According to the movement of the earthquake Tixtia would be in its

CITY OF MEXICO, April 15 .- The federal telegraph office here has informed the Associated Press that last night's earth- should not enter state militia, but if they quake has interfered with the working of do it must be subject to their duties with try," the wires in all parts of the republic south of a line drawn from Acapulco on the west coast to Tampico on the gulf coast. From messages received at the telegraph

office here up to noon it appears that the entire southern baif of the republic, including the lower country and the "Mesa" belt, felt the shock last night.

Messages from as far north as San Luis Potost and south to San Juan Bautista, in the state of Tabasco, report feeling the shock in varying degrees. At no place, however, has a loss of life or great de rac tion of property been reported except in the state of Guerrero. The boundary line of the northern zone of the earthquake extended across the country in a northwesterly direction for over 400 miles and south over 600 miles.

Heavy Loss of Life Rumored. The National Bank of Mexico has received a telegram saying that 600 lives were lost in the destruction of Chilpancingo and Chilaps. In governmental circles the report is not credited. It is admitted that both cities were leveled to the ground, but it is not thought that the death list will even approximate 500, owing to the fact that the houses are built of stone in order to resist earthquake shocks.

The federal authorities here have been appealed to by the governors of the districts of Bravos and Chilapa for tents, as the libabitants are now living in the open The governor of Guerrero has dispatched military engineers and troops to the stricken district and the work of rescue and sanitation is being carried on in a systematic manner.

is believed that the local station is much nearer the center of the shock than the eastern stations, where the duration of the quake was much longer.

It is a well founded fact that shock is center of an earthquake," said Prof. Armin O. "The shock felt in the east was very plainly recorded on the Omey aleemograph in the students' observatory. In a statement given out at the state geologist's office today it is declared that there is no doubt that the present dissurbance belongs to the 'world shaking' variety, and that it will be found to have been felt at the seismographical stations in this country as well as in Europe and

chaps in other parts of the world. "The first indication of the disturbance received at 1:14% o'clock this morning. At 1:38 a. m. the waves developed rapidly to extraordinary size, reaching an amplipendulum and causing the recording arms te swing entirely off the cylinders on both north-south and east-west machines. The large waves lasted ten minutes and the whole disturbance continued until about

NEW YORK, April 15.-Warned by President Roosevelt and Secretary Root that if success is to crown the efforts of those working for universal peace, their endeavors must be along practical lines, the National Arbitration and Peace congress today began its real activities.

Secretary Root in his speech pointed out the propositions which the United States government will have to make at the coming conference at The Hague. He warned his hearers not to expect too much at this second conference. The president in a letter to the congress expressed the hope diverted from Mrs. Eddy's estate.

It is expected that the court will hold a in the adoption of an international arbitration treaty. Secretary Root, after seconding this hope, declared the United States thought it proper to urge again the discussion of the subjection of limitation of armaments of the nations on land and sea and the abolition of the practice of using force In the collection of debts owed by one nation to the citizens of another.

Mr. Carnegie in an address paid a tribute to President Roosevelt, and expressed the wish that Mr. Roosevelt might be the peacemaker for the future. He declared, Day Saints' conference today was delivered | however, that Emperor William is the man among all men, who holds the peace of Business was resumed at 2 o'clock, with the nations in his power. Mr. Carnegie said it was unjust to speak of the emperor as a menace to the peace of Europe, then F. M. of these things with which the missionaries of peace are weakening their a tuments. Germany is prosperous and the German householder looks to military duty as he looks to paying for life insurance. And, even in war, no matter what the result were, Germany would not be crippled. American railroads have killed more people than American cannon. These arguments, which so many friends of peace use, are weakening to their own cause. Universal peace is not a material issue, it is a moral one.

one.

I want to deny the stories that have been used for so many years to the effect that Germany is a menace to the peace of the world. Peace, I believe, has no more earnest supporters than Germany, as America, I believe, has no sincerer friend.

Prof. Munsterburg declared Germany was

at perfect peace with all the world and a sensation was caused in legislative circles calm understanding of Germany's position today by the discovery of the forgery and would do more than anything else to promote peace. Carnegie Criticises Munsterburg. Prof. Munsterberg declared conscription

was not a burden in Germany, and therewere so doctored as to make it appear that by called upon himself the emphatic criticism of Mr. Carnegie, who said: "That statement is one of the greatest surprises I have ever heard. I wish he would go to our mills at Pittsburg and ask the thousands of men why they came

here." Thousands of people, added Mr. Carnegie, left Germany and came to America to escape military service.

Dr. Ernest Richard, president of the Gernan-American Peace society of New York, also spoke for Germany. He agreed with Prof. Munsterberg in his statement that he knew the Germans were great lovers of peace, for even in peace loving America the first peace society was formed of men of German birth. As an example of the love of peace felt by the German emperor, Dr. Richard said it was to him that President Roosevelt appealed at the time of the Portamouth conference when the Russian members of the conference were ordered to withdraw.

W. T. Stead then said: "There has been all sorts of talk about disarmament. I have heard it in every country in Europe and I have come to it at the devil hates holy water. No government in the world is going to propose any such thing at The Hague conference of anywhere else. What probably will be broached is a halt in this mad haste to increase armaments. Mr. Stead declared the spirit of arbitration prevented a war between Germany and France during the Morocco difficulty.

William J. Bryan, who was on the platform, was called for by the audience "I am on the program for Wednesday afternoon," he said, "and then I will be able to say to you what I desire to say, Tonight I wished only to have the pleasure of hearing those who have come from foreign lands to talk to us. All I wish to say is that we are drawing arguments from unexpected sources. I have often heard that there should be universal peace because man was made in the image of God, but this is the first time I have heard it argued that peace should result from his being made in an image of an ape,"

Welcome by Mayor McClellan. With nearly 1,000 delegates from all parts of the world in attendance, the National Peace conference was formally opened in Carnegie hall here today. Andrew Carnegie, president of the congress, presided. Mr. Carnegie, Secretary of State Root, Governor Hughes of New York and Mayor McClellan of this city were the speakers at the afternoon session. A letter from President Roosevelt was read to the delegates. Mayor McClellan delivered the address of welcome. His subject was "The Spirit of Nationality.

Mayor McCiellan said in part: I am one of those who believe that the

Puzzle

Find the Omaha paper that is running piteous editorials and boastful advertisements on the subject of want-ads; then interview advertisers and find which paper is running advertisements in larger space than ordered and twice as many times as ordered in a frantic effort to show a pretended increase, and you will know which paper has been really losing the want-ads that The Bee has gained.
