KEARNEY MAY TEST A VETO

Allegation Normal Bill Was Not Disapproved in Time Prescribed by Law.

As Result of Frequent Losses One Firm Will Require All of Its Clerks to Give a Bond with a Surety Company.

(From a Staff Correspondent.) LINCOLN, April 15 .- (Special.) -- Judge Hamer of Kearney was in the office of Secretary Junkin a day or two ago looking up the bill vetoed by Governor Sheldon appropriating \$85,000 for an addition to the Kearney Normal school. It is understood some of the people in Kearsey who are throwing fits over the veto have it in mind to take the matter into court on the theory that the governor failed to take action on the measure until after the five days allowed him by the constitution to act on measures. If this were true the bill would have become a law without action by the governor. According to the legislative record the five days after adjournment would have been up at midnight Wednesday. According to the time this bill reached the governor this would have been the time. Wednesday, before midnight, Governor Sheldon called up Secretary of State Junkin to come down town and accept several measures which he had acted upon, among them being the Kearney Normal school appropriation. Mr. Junkin did not come down, but the numbers of the bills were given to him and accepted, though the bills did not actually reach him until the next morning.

Thomas May Lose Place. It is understood here that Superintendent Thomas is the one person more sorely distressed over the veto than anyone else, and it is also understood it was largely his sentiments expressed in a Kearney paper regarding the veto and Governor Sheldon. This may lead to whole lot of changes showtly, because Governor Sheldon is anxious to have an administration at peace and harmony with himself. It has been suggested he could in the interest of harmony have Superintendent Thomas removed from his position and get a superintendent who would do the best he could with the means at hand. This could be done, it has been suggested, by appointing someone else in harmony with the governor's views in place of Tom Majors on the normal board and then appoint another person in place of Member Gregg, who has always stood sponsor for Thomas. Majors' time is out shortly, but it is understood if the governor hinted at such a thing Mr. Gregg could be induced to resign and make way for peace and harmony. With two appointees who would no doubt reflect his views and with Treasurer Brian and Superintendent McBrien a majority of the pormal hoard, there is said to be no doubt Mr. Thomas could be spared the trouble and worry of trying to run a school in a building too small for the purpose.

Stores Tire of Being Robbed. Two young women, heretofore highly respected, who have been employed at the ctore of Rudge & Guenzel for some years, were caught pilfering from their employers Saturday and several dollars' worth of sliks and laces was recovered in their Both young women were discharged, but will not be prosecuted. Inashave been caught stealing in this store ployes they would be placed under bonds, occies of the 1. the firm to pay the cost of the bond and hereafter an employe caught stealing would be turned over to the tender mercies of a bonding company and prosecuted to the limit of the law. Pilfering among employes has been going on to such an extent in Lincoln that this firm last year brought in several detectives and placed them in the store with the result that several old and trusted employes were discharged. Other stores took up the plan with the same result.

Trouble Over Bills. Bills contracted on behalf oh the state subsequent to April 1, 1907, to be paid out of the appropriations made by the legislature of 1906, are going to have hard sledding because Deputy Auditor Cook holds that while the appropriations do not lapse until the last day of August, it is beyond his authority to issue a warrant to pay s debt contracted after April 1. He interprets the constitution to mean that belated bills for work contracted prior to April I shall be paid out of the appropriations of the subsequent legislature up to the last of August, but that it does not mean that bills may be contracted after April 1. The matter has been passed up to the legal department for an official pinion; and while Mr. Thompson has not yet given his decision, it is likely he will hold with the deputy auditor.

Assessors to Be Elected This Year. A fact which is not generally known is that county assessors are to be elected this fall in every county in the state. When two years ago, among other terms of

county officers extended was that of county assessor, which was lengthened one year. This would make the selection of these of ficers occur in 1908. All of the blennial election laws, except this one, were knocked out by the supreme court, and this one was not tested. The recent legislature, however, enacted a law which requires LINCOLN STORES ROBBED BY EMPLOYES the agreement to be elected this fall. This means that after the November election the State Board of Assessment will not only have to school ninety new assessors in the provisions of the law, but the secretary will also have to instruct the new assessors regarding the handling of property under the terms of the terminal tax law. This new law will have to be tested first by assessors who have had no experience in this line of work, as the county assessor is not eligible for re-election.

Move to Disbar Captain Fisher. Attorney General Thompson, it is understood tomorrow will file in the supreme court papers for the disbarment of Captain Fisher of Chadron for alleged unprofessional conduct. The claims committee of the house, which investigated Captain l'isher's connection with the Gedde claims before the legislature, recommended that this be done, and turned over to the legal department of the state all the evidence taken in this matter.

Objects to Post's Report. Attorney General Thompson filed in the upreme court today formal objections to he report of Referee Post recommending that the suit against all but two of the umber dealers be dismissed, and holding he Nebraska Lumber Dealers' asociation ot guilty of attempting to restrain trade. The attorney general also asked for thirty days in which to brief the case of the state. The objections of the attorney general were to the part of the findings of the referee relating to the statement that the association was not guilty as an associa-

Governor's Mother Seriously Ill. Late this afternoon a message was reseived from Governor Sheldon, who has een at Nehawka for two days, that the ondition of his mother had not changed and he would remain at her home at least tonight. The message is taken to mean that the condition of Mrs. Sheldon is very serious.

Nebraska Electric Railway

HIS ELECTRIC LINE will extend from Omaha to Hastings, Neb. It will be BUILT RIGHT AWAY. Grading stakes were set last week, and grading will be commenced in a few days. The entire route has been surveyed, nearly all right-of-way as well as city and street car franchises have been secured. The road is projected by the Omaha & Nebraska Central Railway company, a corporation duly organized under the Nebraska laws and which has for reference many of the well known business men and banking institutions from along our line.

The route is indicated on our map. OBSERVE THE COUNTIES TRAVERSED --- they are unsurpassed for grain raising and general farming purposes. Observe, too, that at some points it is TWENTY MILES BETWEEN OUR ROAD AND ANY OTHER! LOOK at the fertile stretch between AURORA and DAVID CITY, north of our line, and EXTENDING TO THE PLATTE.

A Bold Step.

To overcome the well-grounded and reasonable objections of the more intelligent to the use of secret, medicinal com-pounds, Dr. B. V. Pierce, of Buffalo, N. Y., some time ago, decided to make a bold departure from the usual course pursued by the makers of put-up medicines for domestic use, and so has published broad-cast and openly to the whole world, a full and compate list of all the ingredients entering in the composition of his widely celebrated medicines. Thus he has taken his numerous patrons and patients into his full confidence. Thus too he has removed his medicines from among secret nestrana of doubtful merits, and made them firmedies of Known Composition. By this bold step Dr. Pierce has shown that his formulas are of such excellence that he is not alread to subject them to

Not only does the wrapper of every bottle of Br. Pierce's Golden Medical Discovery, the famous medicine for weak stomach, torpid liver or billousness and all catarrhal diseases wherever located, have printed upon it, in plain English, a full and complete list of all the ingredients composing it, but a small book has been compiled from numerous standard medical works, of all the different schools of practice, containing very numerous extracts from the writings of leading practitioners of medicipe, endorsing in the strongest possible terms, cheh and every ingredient contained in Dr. Pierce's medicines. One of these little books will be mailed free to any one sending address on postal card or by letter, to Dr. R. V. Pierce, Buffalo, N. Y. and requesting the same. From this little book it will be learned that Dr. Pierce's medicines contain no alcohol, narcotics, mineral agents or other poissonous or injurious agents and that they are made from native, medicinal roots of great value; also that some of the most valuable ingredients contained in Dr. Pierce's Favorite Prescription for weak, nervons, over-worked, "run-down," nervous and debilitated women, were employed, long years ago, by the Indians for similar allments affecting their squaws. In fact, one of the most valuable medicinal plants entering into the composition of Dr. Pierce's Favorite Prescription was known to the Indians. As made up by improved and mace; processes, the "Favorite Prescription" is a most efficient remedy for regulating all the womanny functions, correcting displacements, as prolapsus, anterversion and retorversion, overcoming painful periods, toning up the nerves and tringing about a perfect state of health. COVERNMENT RESTS ITS CASE

Prosecution Beaches Period in Trial of Prominent Land Men.

SAME OLD STORY OF HOW FILINGS CAME

Much Evidence and Many Witnesses Instrumental in Former Convic tions Are Potent in the Present Cases.

The government rests."

Such was the announcement made by pecial Assistant Attorney General S. R. Rush in the land trial before Judge T. C Munger of the federal court Monday afternoon at 4 o'clock.

The last witness examined was James I. Armell, an old soldier from the Milford Soldiers' Home, one of the group of h osen old soldiers who were induced to nake filings within the Spade ranch enclosure by Ami B. Todd and others. His story was similar to those of the other soldier witnesses. When he was asked by Todd to make the filmg he said:

"I told him I would never go on the lane to live, as I was too old to go out there. Todd told me it would not be necessary that understanding I made the filing." The hearing, with T. M. Huntington, Free Hoyt and Ami B. Todd as defendants, was esumed Monday morning. The first vitness was Charles G. Simmons, an old oldier from the Milford Soldiers' home His testimony related to his having made a declaratory statement and filing on a ection of land at the solicitation of A. B fodd and others without expense of any kind and the understanding that the land ould be sold to the cattlemen for \$300 upon final proof, should be be disposed to sell it

One of Former Witnesses. Simmons was one of the witnesses in the Richards and Comstock trial and his evience was a duplicate of that given in that trial. He further said T. M. Huntington had been designated in the declarators statement as the agent with power of atorney to locate the land under the declaraory statement, although the witness under stood that another party had been named or this purpose at first, but that Huntington's name was afterward inserted as the agent. He could not recall the name of the agent first named.

About a dozen other old soldiers from the Milford home gave similar testimony durng the forenoon session of the court and each testified he had no intention of living on the land, but that his general under-standing was the leasing of the land was equivalent to settlement and cultivation under the meaning of the land laws and rulings of the land commissioner. All of these witnesses testified similarly at the former trial.

on, in which Richards gave him directions relative to certain old soldier filings that were deficient in some qualifies and ancouncing that in one instance a friendly filing had been made over one of these filings, as the location was an important one. Houghton was a land agent at Chadron, who is alleged to have worked in collusion with Richards, Comstock, Huntagton, Hoyt and Todd, and one of the letters closed with the observation: have no means of knowing about these filings except as you advise me." Houghton was advised to give one old soldier, named error in his filing and as he could not reinquish the matter had better be left to rest and to fix the matter with Martin

The government attorneys then announced that the government rested, but reserved the right to call other witnesses, if after onsultation it may become necessary. The defense expects to put about fifteen vitnesses on the stand and will begin its evidence this morning. It now looks as if the case may be finished Tuesday or Wednesday.
