TOPEKA CASE STAYS CLOSED

National Base Ball Commission Again Refuses to Reopen It. CINCINNATI, April 17.—In refusing the request of President O'Neil of the Western league to reconsider the case of the Topeka ciub, which was drafted by the Western league from the Western association, the National Base Ball commission today emphasized previous utterances on minor league base ball law.

The decision says no new svidence was

league base ball law.

The decision says no new svidence was filed "axcept in relating the circumstances that occurred at a meeting recently held in Buffalo, of certain representatives of the American association, President Shiveley of the Western association and others. The commission will not grant the request to reopen this case. We have stated that the legislation with respect to drafting of the National association is unwise and should be changed. We have also requested that the national board take steps, such as may be necessary amicably to arrange this controversy, and we again repeat that request, but will not reopen the case or go into the merits of the proposition at this time. We have been informed that at the Buffalo meeting certain agreements were entered into which were afterwards not carried out. If such is the case and the Western league has been damaged thereby, it should have its redress before the national board of the National association."

The request of Player Teddy Green of the Marshalltown, ia., club for reinstatement, was denied, the player having broken his contract without excuse, it is said.

The two large amateur parks will each furnish a double-header and there will be other games between the sixty amateur teams of Omaha.

AND "THE BEST."

The cause of Rheumatism is an excess of uric acid in the blood, brought on by indigestion, chronic constipation, weak kidneys and a general sluggish condition of the entire system. The refuse and waste matter of the body is not carried out as nature intends, but is left to ferment and sour and generate uric acid, which is absorbed into the blood. The first evidence of Rheumatism is usually little wandering pains in the muscles and joints, or a tender, sensitive place on the flesh. These are often so slight that nothing is thought of them and they pass away; but with each recurrence the trouble becomes more severe, and from slight wandering pains and excited nerves, Rheumatism grows to be a painful and almost constant trouble. The longer the poison remains in the blood the firmer hold the trouble gets on the system. Each day the acid deposit is increasing and the disease grows worse from year to year. After awhile the joints become coated with a corrosive substance which seriously interferes with their working and movements and sometimes they become permanently stiff and useless. S. S. S.

cures Rheumatism by going down into the blood and attacking the disease at its head. It neutralizes the poisons and acids and dissolves the salts and irritating deposits, making the blood stream pure, fresh and healthy. S.S.S. is made entirely of roots, herbs and barks, and is therefore a safe remedy. When the blood has been purified by S. S., the pains and aches pass away, and the cure is permanent. DESCRIPTION: Made in all sizes. It is lively and easy riding, very durable and lined inside with a special quality of rubber, which never becomes porous and which closes up small punctures without allowing the air to escape. We have hundreds of letters from satisfied customers stating that their tires have only been pumped up once or twice in a whole season. They weigh no more than an ordinary tire, the puncture resisting qualities being given by several layers of thin, specially prepared fabric on the tread. That "Holding Back" sensation commonly felt when riding on asphift or soft roads is overcome by the patent "Basket Weave" tread which prevents all air from being squeezed out between the tire and the road thus overcoming all suction.
