Another reason was the near approach of delivery time on May contracts. On a report of killing frosts through kansas, Missouri, Iowa and Hilmos, the narket opened excited and strong. Continued absence of rain in Kansas and New contracts of the first half hour a brisk selling movement developed and prices broke sharply. The immediate reason for he change in sentiment was an official forecast of showers for several sections of he winter wheat but. The market at times sallied moderately on covering by shorts and delinest again just before the close. Corn. 6 CATTLE—Receipts were very liberal this morning, in fact, the heaviest run for some time past. The three days supply has been about 6,000 heavier than for the first half of last week and there has been a very noticeable improvement in the character of the offerings.

On account of the bearish tone to advices from eastern markets and the liberal local raceipts the fat cattle trade—opened out rather slow and early bids were fully life lower than yesterday, all ground. As it developed latter that there was a good and market for sheep almost nominal, but slow; lambs steady; unshorn lambs, the developed latter that there was a good on the heavy grades, prices stiffened up on this class of stock to very nearly steady figures, but the market was slow and weak on the heavy grades throughout.

The proportion of cows and helfers on sale today was very small, less than fifty loads, all told, and the result was a strong, active market for all decirable offerings.

Veal calves were steady and there was a little noticeable change in the market for bulls, stags, etc.

Business in the stocker and feeder di-

little noticeable change in the market for bulls, stags, etc.

Business in the stocker and feeder di-vision was rather quiet, owing to the fact that the liberal run of oattle included very few feeders. There was a good demand, however, for the good stock and prices were quotably fully stoady. Light stuff, as usual of late, was slow and weak, although hardly quotably lower. hardly quotably lower,
