STREAMS TO BE TURNED INTO TUNNEL

Whitewood Creek and Greater Part of Spearfish River to Be Used.

OPERATION WILL TAKE NINETY DAYS

LOSS TO COMPANY IS ENORMOUS

Damage Already Over One Million Dollars and Will Probably Be at Least Two Millions More.

LEAD, S. D., April 22.—(Special Telegram.)—Fire in the workings of the Homestake mine has reached such proportions that it will be impossible to quench it by ordinary methods, the accumulated gas making it impossible for the men to work in the levels where the fire is raging.

Whitewood creek at this time of year carries a large volume of water and this, with the greater part of Spearfish river, will be turned into the mine. It is expected that it will take at least thirty days to flood the mine to the 200-foot level and sixty days to drain the workings of water after it has accomplished its work.

The loss to the mine since the fire started a month ago has been over \$1,000,000 and it is estimated that it will be double that sum before the mine is again in working order.
