The game of last Sunday was just a curtain raiser; it really belongs to the Linpoin series, but was played here owing to the disinclination of the magnates to disturb the peace and quiet of the Sabbath at Lincoln by playing ball. Three Runs Besult, Which with a Couple of Stragglers, is Enough to Win the Game from Lincoln.

LINCOLN, April 23.-Omaha won today's game by bunching hits and playing more steady ball all the time. Lincoln had a little the best of the hitting, but the hits straggled along one or two to an inning. The base running of the locals was also bad, attempts to extend singles into doubles ending fatally. Johnny Jones was knocked out of the box in the seventh inning and McKay took his place. Sanders showed good judgment in his pitching, and his infield support was excellent. Score: OMAHA.

DES MOINES, April 23.—In the ninth inning of today's game, with no one out and two men on bases, George Yeager was sent in to hit for Gochnaur. He hit, too, right along the third base line and two secres came in, winning for Des Moines, 9 to 8. The game was a stern chase from the first. A large bundle of errors in that inning gave the Indians four scores, and though the Champions tied the game up several times, they were unable to take the lead until the last. Clarke was given a tryout after the first inning and showed well. Hatch pitched a good game for Fueblo. Score: DES MOINES.

## DOCTORS FOR MEN

THE RELIABLE SPECIALISTS

BRONCHITIS consists of an inflamation, acute or chronic, of the bronchial tubes, producing a disense of condition of the mucous membrane lining them. This treacherous and destructive disease is often primarily induced through contracting a cold, or a series of colds, as a natural sequence following exposure when overheated, studien climatic chances, getting wet, cooling off too suddenly, irritating vapors, or such other causes as materially weaken the general system. The broncalal tubes branch off from the trachea like a network and conduct the air to such from the lungs. They are very delicate and easily affected.

The starting point is frequently a severe cold in the head, or repeated colds, preducing an inflammation or diseased condition of the mucous membrane lining the nose or throat, commonly designated as a Catarrhal condition.
