DITCH CONTRACT TROUBLES

Work on Willow Creek and Boyer Cut-Off is Not Satisfactory.

CONTRACTORS LAY TROUBLE TO BREDGE

Possibility Matter May Be Settled by Present Contractors Turning Work Over to Another Firm to Be Completed,

Harrison counties will meet in adjourned to take any action. joint session as a drainage board in this the Western Dredging company of Omaha and Boyer cut-off ditches. At the joint session yesterday in Logan there was considerable talk among the supervisors of the two counties of cancelling the contract, but it was finally decided to postpone action until Saturday.

The Western Dredging company has met with all kinds of difficulties since it commenced work on the ditches, forming part the Pottawattamie-Harrison county drainage district. The principal difficulty, it is claimed by the company, lies with the big dredge which has not done the work expected of it. Yesterday at the close of the session of the drainage board at Logan, notice of suit by the Western Dredging company was served upon a representative of the Featherstone Foundry company of Chicago, the manufacturers of the dredge,

Messra. Callahan and Katz of the Western Dredging company stated to the supervisors that they would be willing to do is not furnished through a meter: anything to meet the wishes of the joint board, and requested that the contract be not cancelled, as such action would do the company almost irreparable injury. The board is anxious, if possible, to avoid such action, as it would result in a long delay in the construction of these ditches which form part of the drainage system now being carried out. In the event of the the One Minute Washer, price \$10. The cancellation of the Western Dredging company's contract, the board would be compelled under the law to readvertise for bids, and this procedure would mean a delay of several months before the contract could be awarded and work be recomnenced.

The board signified at the meeting yesterday that an assignment of its contract by the Western Dredging company to Pollard, Goff & Co. of Champaign, Ill., who have the contract for the Allen creek ditch, rould be entirely satisfactory to it. Mesers, Callahan and Katz stated they would be willing to do anything the board desired, rather than have the contract annulled, this, it is said, may possibly settle the matter at the meeting Saturday. The work under the contract of the Western Dredging company has proceeded not only not satisfactory, but not suffi-

ciently far. The work, the supervisors and the engineers in charge of construction say, is not according to specifications, and this is admitted by all concerned to be the fault of the big dredge. The work on the Allen creek ditch, for which Pollard, Goff & Co. have the contract, is most satisfac-

Prior to the reception forty-five candidates were publicly initiated, the work being car ried out by twenty-four young women, members of Conrad bive, in white uniforms, under the leadership of Captain

Myra Craigmile. Mrs. Louisa Luchow, on behalf of Conrad bive, presented Mrs. Hollister with a handsome souvenir spoos of Council Bluffs, and Miss West with a beautiful handpainted plate. The committee in charge of the reception consisted of Ladies Luchow, Mattingly, Cole and Preame.

COUNCIL DISCUSSES WATER RATES Conference Leads to No Action on the

Ordinance. The city council in special session last night discussed at length the ordinance ncorporating the schedule of water rates The supervisors of Pottawattamie and as prepared by Expert Klersted, but failed

city Saturday for the purpose of taking rate of \$7 and the discussion showed that some action in regard to the contract of this was generally favored by the council. Mayor Macrae stated he was and had for the construction of the Willow creek always been in favor of a minimum rate. 'Lots of men would like me to pay their water rant, and, in fact, I and others do pay the water rent for lots of other men. Every one should pay his proportion for the service."

Regarding the raise of hydrant rentals from \$54 to \$60 by Mr. Klersted, Chairman Wallace of the special water works committee explained that this was done by Mr. Kiersted to avoid raising the rates o private consumers in order to obtain the necessary income which the water works company was entitled to.

Some of the rates were questioned by some of the councilmen, and Manager Hart of the water works company said they probably could be rearranged providing others were raised so as to produce the same aggregate income.

The following are the rates where water RESIDENCES. Private reside
