LATE CORN OPTIONS REACH RECORD PRICE Continued Drouth in Southwest Where

Light Rains Have Been landequate, Cause Advance in Strong Market.

OMAHA, April 14, 1907. OMAHA, April M. 190.
Continued drouth in the southwest caused strength after a slight fecession hear the opening, due to profit taking. All grains were active and ligher, with July and September corn leading in the general bull market. Prices on July and September in reached the highest point attained for this crop and caused strength in the entire market.

Wheat opened steady on moderate receipts, but declined fractionally on reports

when opened steady on moderate reeipts, but declined fractionally on reports
f rains in the southwest. The slight deline was sided by profit taking on scalpng trading; but the market turned after
eports were received that the precipitation
sported in the southwest was inadequate
o cause any material effect in the crop.

Is a strictly a washer worket. to cause any material effect in the crop.

It is strictly a weather market and responds easily on receipt of crop news. Prices rose after the receipt of the weather forecast, which was unfavorable in predicting only light showers in Kansas and Missouri. Cables were very much higher and the export demand continues strong.

The cash market is stronger and slightly The cash market is stronger and slightly higher on all grains of good quality, although the demand for the poorer grades remains slow. The close was strong, with a net advance of 46 in May wheat to 72%c

Corn showed great strength and trading If large volume. July corn advanced 45%c to the on light offerings and s responded to the strength manifest ils side. Closing prices were at the

on this side. Closing prices were at the high level.

Oats were in poor demand and the market was dull, few transactions being reported. Receipts were only fair in both quantity and quality and the market was easier. The close was only steady, with practically no change in quotations.

Primary wheat receipts were 733,000 bushels and shipments 373,000 bushels, against receipts last year of 272,000 bushels and shipments of 52,000 bushels. Corn receipts were 58,000 bushels and shipments of 53,000 bushels and shipments of 54,000 bushels last year. Clearances were 34,000 bushels last year. Clearances were 34,000 bushels for orn, Clearances were 341,000 bushels of corn none of oats, and wheat and flour equal to 123,000 bushels. sion bushess.
Liverpool closed %2%d higher on wheat
and %2%d higher on corn.

CHICAGO GRAIN AND PROVISIONS Features of the Trading and Closing

Prices on Board of Trade. CHICAGO, April 24.—Drouth in Kansas furnished the chief incentive to a further advance in wheat prices here today, the July delivery closing at a net main of 50. Corn was also up 50. Oats were 5000 lighter. Provisions were 75000 to 1250.

As he continued absence of rain in Kanas shown by the weather bureau led a strong opening in the wheat pit, e being an active general demand. An

As he continued absence of rain in Kandela as shown by the weather bureau caused a strong opening in the wheat pit, there being an active general demand. An advance of 'AGAC in the price of wheat at Liverpool, said to have been due to unfavorate crop reports from this country and also advices of a similar kind from Germany and other parts of Europe, served to stimulate additional builtsh wentiment among local traders. Demand continued urgent all day and in spite of heavy realizing sales prices were well maintained. A report from New York which claimed that ninety boatloads of wheat had been taken there for export tended to inspire fresh enthusiasm among the bulls late in the session. Primary receipts were liberal, total arrivals today being 733,000 bushels, compared with 274,000 bushels for the corresponding day a year ago. This brought out active profit-taking, but all offerings were readily absorbed. The market closed strong. July opened 140%c to 140%c hisher, at 314,60%c, and then advanced to 31%c. The close was at \$15,60% in the control of the corresponding day a rear ago. The close was at \$15,60% in the control of the corresponding day a pear ago. The close was at \$15,60% in the control of the corresponding day a pear ago.

Trading in corn was more active than for some time past and the tone of the market was strong. A sharp advance in the price of corn at Kansas City had a builtin effect on the market here. Other influences contributing to the strength was the advance in wheat, small receipts and unfavorable weather for farm work. Shorts and commission houses were the principal buyers, while local longs were the principal buyers, at the care the country had a depressing effect. July opened 12° th

had been in the feed lots for several months.

Early advices from eastern markets were decidedly bearish, and while there was the usual good demand from all the local dressed beef men, as well as considerable inquiry for shipping account, all classes of buyers were insisting on lower prices and bids were generally pretty close to loo lower than yesterday's figures. Salesmen were slow to accept the situation and competition for the light and handy weight grades was sufficient to hold values very mearly steady. Most of the plain, heavy and unfinished cattle, however, sold bifile lower than yesterday and were slow at that

that.

There were only about thirty loads of cows and helfers on the market and the demand for them was fully as good as it has been and the limited supply changed hands in good season. Veal calves were slow and about De lower than last week. The market for buils, stags, etc., was fairly The market for buils, stags, etc., was fairly active and fully steady.

Receipts of stockers and feeders were very light and with a good demand from all the speculators the market was active as far as it went and prices were fully steady. There was not a very extensive country demand, but the general tone to the market was fully steady.
