Board of Supervisors Fixes Salary of Rev. Henry DeLong, Probation Officer, at Fifty Dollars Per Month.

Supplemental reports were filed with the Pottawattamie county Board of Supervisors yesterday by the checking committee, W. B. Reed and J. M. Matthews, with reference to their findings in the offices of G. G. Baird, county recorder, and H. V. Battey, clerk of the district court. The previous report on the affairs in the recorder's office was to the effect that a fee of 70 cents was being charged for the recording of a certain class of chattel mortgages, and that 70 cents only had been reported on these instruments, that being the statutory

Mr. Baird was called before the board and asked to explain the situation, and he said that he was following the custom of the office, but would turn over the amount the committee might find to be the difference withheld, on a re-checking of the

books.

Upon going over the books with Mr. Baird's book of original entry, which was not used before, the committee found that the amount of the difference was \$270.35. There was \$2.95 due the recorder, the sum being made up of fees reported in excess of those received on certain instruments. Supervisor Baker inquired as to whether the committee had observed the practice of Mr. Baird's predecessor, and in answer Mr. Reed said that they had not investigated the books prior to Mr. Baird's term sufficiently to make any statement as to As to the affairs in the office of the clerk

of the court there appears now to be no controversy, the supplemental report of the committee agreeing with that of Mr. Battey as to the amount of money in his hands April 3. It is shown that the clerk had \$1,342.38, and all but \$24.75 of this amount is held either by order of the court or because the time has not arrived when it shall be necessary for the clerk to turn over the unclaimed amounts to the county treasurer. The amount last mentioned might be the subject of controversy as to whether it is made up of claimed or unclaimed fees. If hands, and if they are unclaimed they should be with the treasurer. Mr. Matthews stated to the board that the affairs in the office of the clerk were in other than the finances of the office.

In accordance with the resolution authorizing the employment of an assistant to the deputy clerk in the office at Avoca, Mr. Battey named Laverne Tollinger, the board allowing \$200 per year for clerk hire. The original action of the board authorized Deputy Clerk J. M. Tollinger to hire his assistant, but as the clerk of the court has the authority to employ the men in his offices the resolution was reconsidered and

Matters in District Court. the district court yesterday Judge Wheeler was occupied with the trial of the case of Elizabeth Flower against the Continental Casulty company, the suit being to recover \$1,000, the amount of a policy, of which the plaintiff was the beneficiary. held by Robert C. Flower, her son, who met death by being struck by a Great Western train. Nearly all of the testimony had been taken at the time of the adjournment of court in the evening. The company is contesting the payment on the ground that the policy provided that in case death was by accident because of the carelessness or negligence or the violation of any law by the insured, the company would be liable for only \$100., The claim is made that it was by an act of carelessness on his part that he met death. The sum of \$100 has been tendered in payment, and the other \$900 is contested.

The question at issue is as to whether or not Flower met death while standing beside the track, being struck by something plaintiff, or whether he had climbed onto car and was thrown under the train, as is claimed by the defendant company. Nellie Sweeney, a little girl who witnessed the accident, tells a story in substantlation of the latter. Another witness said he saw a car door swinging as the train passed him, but he did not see the accident. There is a suit for \$30,000 pending against the Chicago Great Western Rallway company, brought by C. A. Flower, executor of the will of Robert C. Flower

In consequence, his medicines have enjoyed a popularity and increase in sale of late, amounting almost to a boom, and it is believed that this greatly increased demand is due largely to the fact of Dr. Pierce's open, honest way of treating his patrons and patients by reposing confidence in those who trust in him and his medicines. He has no secrets to withhold from them. He publishes the composition of his medicines openly and above board, so that all who use them may know exactly what they are taking.
