Traders who were short of the May delly-sry were conspicuous in the corn pit. The nearby dellvery, from being at a discount yesterday, attained a premium over July of %@%c at the close. The split at the highest point of the day was %c, when May sold at 50c. The covering operations in May were reflected in July contracts, the market for that delivery holding strong throughout the session. July corn opened unchanged to %c higher at 4%606%c, touched 6%c and closed at the top. Local receipts were 128 cars, with 9 cars of con-tract grade. Buying by houses with extensive con-nection in the northwest and southwest,

buying by nounes with extensive con-nection in the northwest and southwest, coupled with the atrength of corn and bug damage claims, held the cats market firm, although rains have recently improved the grop prospects in Illinois. July cats sold between alige and alige and closed is higher at diggedite., Local receipts were US cars.

The bulk of business in the provisions of the bulk of business in the provisions off was in changing May contracts for inter deliveries. The strength of corn was influential in holding prices steady. The market closed without material change. July pork, \$15,55; July lard, \$5.70; July ribs, as a

Foreign Financial. LONDON. April 25.-Money was in good supply today and discounts were weak. On the Stock exchange the reduction of the Bank of England's discount had gen-erally been anticipated and added to the recent cheerfulness, but prices were not appreicably affected nor was the volume of business increased. Mexican ralis fell 5 points upon the publication in the report of proposals to spend 31.50,000 in improve-ments. Copper shares were buoyant in sympathy with motal. Foreigners were cheerful. Russians and Japanese received considerable attention from investors Japanese imperial 6s of 1904 closed at 1615 Americans relapsed into duliness, the bad Japanese imperial Se of 1994 closed at 1815 Americans relapsed into duliness, the bad crop reports being the chief adverse in-fluence. Prices hung around parity during the forencon and hardened in places prior to the receipt of the New York opening prices. The latter brought no material help, the market became inactive and closed easy after the transaction of a small amount of business. BERLIN, April 25.-Busines on the Bourse today was stagmant and prices generally were lower.

today was stagmant and prices generally were lower. PARIS, April 25.—Prices on the Bourse today were firm throughout in consequence of the lowering of the Bank of England's rate of discount. Trading was inactive. Russian imperial 4s closed at 72.70 and Rus-sian bonds of 1304 at 495.60.

morning, as eastern markets reported lib-eral supplies and lower prices and there was some talk of a giuited beef market in the east. Opening bids were generally about 100 lower than yesterday and while salesmen were able to scratch out pretty about 100 lower than yesterday and while salesmen were able to scratch out pretty close to steady prices on the fat, light and handy weight grades, it generally took about a loc decims to move the heavier cattle and they are selling all of 1002150 lower than toward the close of last week. There was no material change in the market for cows and belfers, as the offer-ings of this kind were comparatively lim-ited and there was the usual vigorous de-mand from outside buyers in addition to the active inquiry from all the local houses. Prices were fully steady and have held firm so far this week. The market for veal caives was dull and about 500 lower than a week ago. Bulls, stags, etc., were in good request and generally sold at fully steady figures. There was very little activity in stockers and feeders, as fresh receipts were light and very /little stale stock had accumu-lated in speculator' hands. Prices held fully steady for what few cattle were of-fered and indications are favorable for a firm market the balance of the week, with a good clearance. REFER STYFERS
