

The Clothes of High Character

Correct Spring Models for Critical Men

Men and young men who occupy important positions in the business world find that their station requires a certain refinement in dress. The ordinary "made-in-lots" clothes won't do. Only the best appearing clothes will satisfy. To the hundreds of such men we introduce

THE RENWICK SYSTEM

These are the clothes that make any man feel perfectly and fashionably clad among well dressed men. Every suit individually cut to scientific measurements, tailored and finished by hand.

Brandeis Sells These Clothes at \$15 to \$25

THIS is a favorite model, made to meet the demands of business men. It has refinement as well as style. It is hand tailored and finished to the most minute detail. Made in chevots and worsteds, also in blue or black serges.

The Renwick System Suits Are the Clothes of Quality & Merit

THESE clothes will permanently retain their shape—this means a great deal to the man whose appearance must always be irreproachable. They always appear like fine clothes no matter who wears them—no matter how long they are worn. The fabrics were all very carefully selected, and every bit of work on the clothes was done by skilled workmen in airy, light, sanitary workrooms.

Prices \$25 down to \$15

THIS is a two-piece outing suit, designed for ultra fashionable summer wear. It is just the garment for wear at resorts and in the city during the heated term. Hand tailored and finished with bellows plated pocket. Made in flannels and chevots.

THIS two-button sack is the latest model of a New York designer who plans most of the higher class models for tailors. This style will be much in demand by young men who seek something new and authentic in style and will be satisfied with nothing less. Flannels and worsteds are used in both two and three-piece suits.

Brandeis Exclusive Clothing Corner

N. W. Corner 16th and Douglas Streets.

WE offer you the clothes that merit your consideration, win your confidence and prove the wisdom of your judgment every day you wear them. The Renwick system are clothes for fashion's aristocracy, clothes for the business man who knows style and clothes for the young man, for whom every curve and corner must reveal the latest cut and fashioning. You couldn't buy more satisfactory clothes at twice the price we ask.

Prices \$25 down to \$15

COMPTROLLER MAKES REPORT

Total Receipts for City Near Million and Quarter Mark.

CLOSE TAX COLLECTION YIELDS RESULTS

Lebeck's Statement Shows that All Departments of City Government Reaped Benefit of Unusual Collections Last Year.

Comptroller Lebeck is completing his annual report for 1906, which report he expects to be able to send to the city council next Tuesday evening. The reason this report has not been closed earlier is that city bills are not always prompt in coming in, the last appropriation ordinance, for instance, having various 1906 items. The accounts have now been closed for the year, unsettled items being carried forward. This report shows a total of \$1,198,283.42 collected during 1906 for expenses of the city government, this total being credited to the various funds in this manner by the comptroller:

General, \$284,899.58; fire, \$165,100.15; police, \$198,572.19; lighting, \$97,052.72; curb, gutter and paving, \$41,741.82; street cleaning and sweeping, \$75,572.16; park, \$25,574.15; library, \$21,478.90; sinking, \$42,069.29. The amounts shown against these various funds represent balances from 1905, in two instances: 50 per cent of the 1906 levy, excess of the 50 per cent collected and various miscellaneous collections credited to the different funds. The general fund received \$22,558.09 in miscellaneous receipts, such as police court collections, inspection fees, permits, dog taxes, sale of market stalls and other sources of revenue. The lighting fund received \$3,975.09 in royalties from the electric light and gas companies. The library fund received \$1,173.47 for fines received for books laid over time and sale of catalogues.

Sinking Fund Total.
The sinking fund total of \$422,069.29 includes \$183,521.90 collected during 1906 for taxes, which if collected during the years in which they were levied would have been credited to the various funds at the time, but being collected in a later year these amounts go into the sinking fund.
The comptroller's report shows that out of the total receipts of \$1,198,283.42 for the year, \$1,021,021.22 was disbursed, leaving a balance of \$177,262.20 on the credit side.

About \$35,000 of this balance is being held pending the settlement of the gas contract suit now in the courts, no bill having been received for the 1906 gas street lighting. The rest of the \$1,021,021.22 is a credit to the sinking fund to begin the 1907 accounts with; in fact, the whole balance is brought forward, although the city still owes its 1906 gas bill.

This is the way the total receipts of \$1,198,283.42 has been expended as shown by funds: General, \$284,746.11; fire, \$165,100.15; police, \$198,544.86; lighting (gas not included), \$65,316.01; curb, gutter and paving, \$29,897.29; street cleaning and sweeping, \$27,066.66; park, \$25,574.15; library, \$21,478.91; sinking, \$42,014.41. Add the balance of \$183,521.90 already referred to in the amounts expended from these funds, and the total receipts will be balanced.

Expenditures from the sinking fund were \$100,000 bonds redeemed, \$248,555 for thirteen months' coupon redemption and \$1,964 in expenses in connection with the handling of bonds.
The water fund is kept as a separate account. The total receipts for the year for this fund amounted to \$25,617.30. Out of that total \$25,617.30 was expended for operations of the board, leaving a balance of about \$1,000 still in bank to credit of the fund. Of the total expenditures of the Water board, \$23,000 went for salaries of members, legal services, engineers' and experts' services and stenographers' work.

DENNETT MAY HAVE PEACHED

Jerome Said to Have Secured Facts Relating to Trust Company Robbery.

NEW YORK, April 26.—A complete exposure of the plan by which several hundred thousand dollars worth of bonds were stolen from the Trust Company of America may be in the hands of the district attorney before night. Both W. O. Douglas, the assistant loan clerk for the trust company, who was arrested on a charge of stealing the bonds, and O. M. Dennett, a broker, who was taken into custody, were examined today by the district attorney. How much the officials succeeded in getting out of Douglas is not known, but it was said that Dennett had voluntarily made a clean breast of the whole affair.
Asked if he anticipated that another arrest would come as a result of Dennett's statement, District Attorney Jerome answered, "No."

MAIL MAN BITTEN BY DOG

Easily Wounded by Canine Thought to Have the Rabies.

CUR BITES OTHER DOGS AND FOWLS

Carrier Lies at His Home Seriously Injured and Will Be Sent to Chicago if It is Rabies.

G. J. Powers, 2506 Jackson street, a mail carrier, lies at his home in a serious condition, the result of being bitten by a dog owned by W. C. Peterson, 421 North Thirty-fourth street. Postmaster Palmer says Powers will be sent to the Pasteur Institute at once.
Powers was delivering mail Friday morning and was on the street in front of the Peterson house when the dog rushed at him. It was a big yellow brute of curish breed and tendencies. Powers kicked at the animal, but not until it had inflicted a wound in his hand tearing the flesh of the palm to a depth of nearly half an inch. The dog renewed the attack immediately after receiving the kick. Powers kicked again and then made for the house. The dog followed and biting him repeatedly in the legs and arms. He gained the house, the brute still in hot pursuit.
As soon as he could be sure of getting away without being pursued by the dog Powers took a car and came down town to the office of Dr. Langford, where the wounds were cauterized and dressed.
More than fifteen separate wounds were found on the body of Powers, some of them deep and with the flesh badly torn.
The police were notified and a number of officers detailed to search for the animal. If possible the head will be secured and sent to the Pasteur Institute in Chicago.
The cur fled immediately. Scarcely had the police been notified when word came of a dog answering the description at Twenty-seventh and Cumins, where he had bitten two other dogs and killed four chickens. Next came word of a big yellow dog following and biting him repeatedly in the legs and arms. He gained the house, the brute still in hot pursuit.
The police were on the trail of the outlaw at once and traced him by means of a trail of dead chickens and bitten dogs up through Kountze Place and out toward the north.
The dog was heard from at Nineteenth

NEVER PAID RAILROAD FARE

Young Traveler Who Can Beat the Anti-Pass Law All Hollow.

Eloy Brannlund of Bellingham, Wash., arrived in the city Friday morning. He is stopping—well, never mind where he is stopping. Eloy is a youth of 18, but looks younger. He has traveled all over the United States, Mexico and Alaska and it is his proud boast that he has never paid a cent of railroad fare.
The wise deliberations of the United States congress have had no effect on the passes of Eloy. He rides now as blithely as he did before the anti-pass law was put into effect.
Eloy is little more than four feet high in spite of his 18 years. He believes with the great apostle of the simple life that, too, frequent baths are a menace to the health.

ANNOUNCEMENT EXTRAORDINARY!!

GRAND SALE OF RUGS

AT BRANDEIS 3rd Floor New Store

NEXT MONDAY

Entire Stock of Philadelphia Mfg.
At Less Than the Cost to Make.
SEE THE RUGS IN THE WINDOWS

Of course when one is traveling on the bumpers of a freight car or the blind baggage of an express, one cannot keep one's linen in spotless condition. But in spite of this grimy exterior Eloy has a poetic temperament for he announced that he was "on his way to the golden west."
"I just wrote up the little history in Sioux City yesterday," explained Eloy as he handed out a grimy slip of paper on which was written the following:
"I was born in Sioux City, am 18 years old, my last jumps was from Bellingham, Wash., to Seattle, then to Portland, then to 'Frisco, then back to Seattle. I heard some men talking about Hong Kong, China and thought I would go there, when the boat started to move from the pier I jumped through the port hold & went down and stowed away after we was out to sea. 2 hours I came out & found that I was going to Seward, Alaska, then I went to Valdez by boat, from there I walked 60 miles over ice and snow in midwinter with \$5 in my pocket to Fairbanks, Alaska. Coffee was \$6, so I could not by much, but I have the honor of saying that I am the only boy that ever undertook the trip broke, it took me 13 days and 8 hours to make the trip."
Hermann Case to Jury.
WASHINGTON, April 26.—The case of Blinger Hermann, on trial for destroying public records, probably will go to the jury before adjournment of court today. United States Attorney Baker concluded his argument today and the charge of Justice Stafford to the jury will follow this afternoon.
