Hundred Million Dollars Will Be Spent in Reconstructing Missouri Pacific and Iron Monutain Ronds.

ST. LOUIS, Mo., April 27.-Stuyvesant Fish of New York, who was recently slected a director of the Missouri Pacific railway, and a member of its executive ommittee, arrived in St. Louis today from Little Rock, Ark., on a tour of inspection of the road. He left tonight for Kansas Olty. With Mr. Fish were A. W. Sullivan, general manager of the Missouri Pasific: M. C. Markham, assistant to the vice president, and Charles H. Werman, secretary to Mr. Fish.

In an interview before his departure tonight, Mr. Fish said: "Wall street bit off more than it could chow. New enterprises and the completing of some old ones have been deterred until conditions are more favorable. Wall street is now submitting to an extraordinary digestive process.

Some of the Wall street financiers have been suffering from acute fiscal stomach trouble lately, much to their discomfiture, if not surprise, and they must recover be fore they can renew their feasting. Their fessert was served rather late. Some oparators became ill previously. "Yes; I still retain my stock in the Illi-

gois Central. In am not willing to admit that my holdings aggregate as much as is said-13,000,000-but & have no objection to stating that they are still intact. My interests could not shrink \$6,000,000, but they kave shrunk. However, I have not lost anything and am able to report good health. "The financial strain has made the postsonement of railroad improvements com

Mr. Fish gave an intimation concerning the object of his trip over the Missouri Panine and Iron Mountain system. He said that the system is preparing to begin general reconstruction. Mr. Gould proposes expending about \$100,000,000 for improving the system. The intention is to invest about \$18,600,000 every year for at least ten years. Mr. Fish, as chief financhi adviser to Mr. Could, will assist in financing the work.

strengthened. Churches Confer. A renewed effort is about to be made to

bring about more intimate and harmonious relations between the Presbyterian churches in Scotland, Informal conferences have already been held at which the subject has tertained. Nothing definite, however, has yet been accomplished, but leading mem bers, both lay and clerical, of the Established and United Free churches are keenly interested in the matter, and a meeting is to be held on an early day at which it is hoped some action may be taken in the di-

rection indicated. The new Royal infirmary, in course of rection as a memorial of the late Queen Victoria here in Glasgow, is in many respects unique in design, and when completed will form one of the most perfectly aquipped institutions of the kind in the kingdom. The total cost of buildings and equipments will be about \$2,500,000.

RIOTING IN THE PUNJAB British Arms Local Volunteers in Efforts to Suppress Agitation in India.

LAHORE, British India, April 27.-Rifles nd twenty rounds of ball cartridges have been sent out to the local volunteers in consequence of signs of marked unrest among the Hindoo student element. The publication of inflammatory and

editious articles in the native newspapers. inciting race hatred against the Europeans and demanding native control of the government of India by means of an elected parliament, has been followed recently by riots at Lahores and elsawhere in the Punjab and by attacks on Europeans. Professional and political agitators are now fomenting strikes on the railroads and the government has concluded that it is time to suppress the rioting by forceful neans, if necessary. The authorities are satisfied that a determined front will speedily end the outward signs of disaffection, especially as they have the manimous support of the great Mohedan population, who at numerous mass meetings have emphatically condemned the anti-European movements. Recent events have given a remarkable impulse to enlistment the volunteers. The recruits include five judges of the supreme court, the directors of public instruction, university professors, high government officials and

BERLIN, April 27 .- All appearances indicate that May day this year will be observed less generally than ever in Germany. Many municipalities have forbidden street parades or other public demonstrations and the employers' organizations as a rule have taken strict measures to vent the workmen from celebrating the day, using the threat of a week's dismissal

without pay if they abrent themselves, This was means which last year brought the Hamburg stevedores to terms. The social democratic national committee has issocialists to observe the day, but the appeal is less aggressive than usual. It urges the ocal organizations to study the situation for themselves and then only celebrate the. day if they can do so without getting into trouble with their employers. The proclamation has been the subject of criticism on the part of the stalwart socialists, but the leaders in the speeches deemed the moderats recommendations as being the only wise course in view of the organizations' postbeen considered and the idea favorably en- I tion and firm attitude of the municipali-
