Eharp Decline in Dull Wheat Market After Strong Opening.

USUAL SATURDAY LIQUIDATION ENSUES

Profit Taking Sales and Pew Committments Over Sunday Cause Decline, Although Crop Conditions Are Unchanged.

OMAHA, April E., 1907.

The market had another wild opening, but the usual Saturday liquidation chaused and prices declined under heavy realizing sales. Corn and oats were in little demand and closed weak, while the close in wheat was nearly at the low point for the day. Receipts were moderate and there was no change in the condition of crops, but cables responded to the sharp rise of yesterday.

Wheat opened strong and higher on account of the continued absence of rain in the southwest, but the gain was not held and the market sagged under profit-taking sales and little support offered. The market was quiet and dull after the opening, as investors preferred to hold off and local traders sold out long lines in fear of rains OMAHA, April 27, 1907.

investors preferred to hold off and local siders sold out long lines in fear of rains of Bunday. Slight showers were reported Missouri, but precipitation was predicted by for Nebraska, lows and Missouri. It is believed that damage reports have en exaggerated and that the kansas crop only two weeks late and in fair condition to respond well to heavy rains. Sales 400,000 bushels of wheat at seahoard for port were reported. The Chicago Inter Ocean said: "Cash

The Chicago Inter Ocean said: "Cash people who have been bearish on wheat are now talking very friendly. The advance in futures and crop damage have forced them into line. Now that the price is up into the eightles more people are willing to buy wheat than when it was dragging around 75c. There were bids here from eastern millers yesterday for two carroess of No. 2 red at July price, c. i. f., fuffalo. Eastern miliers have bought 100,000 bushels of Ne. 2 red here the last two days and the steamer armour loaded it yesterday for Detrett."

Frost was reported in Ohio and freesing weather in the sorthern grain belt. Australian wheat shipments were 48,000 bushels last week and 1,006,000 bushels last week and 1,006,000 bushels last week and 1,006,000 bushels last week and 160,000 bushels one year ago. Corn opened firm and, after a slight reaction, closed slightly higher. Trading was light on moderate receipts, but 200,000 bushels were reported at scaboard for export. All options closed firmer at an advance of Mc.
