ures of the Trading and Closin

Prices on Board of Trade. CHICAGO, April 29.—Rain and snow in Kansas and other sections of the southwest induced free profit taking in the wheat market today and caused a decline of about it per bushel in all delivertes. At the close the July option was of 350 ic. Corn was up 4c. Outs were a shade higher. Provisions were a shade to lice lower.

higher. Provisions were a shade to loc lower.

The wet weather in Kansas not only dampened the enthusiasm of the bulls in the wheat pit, but at the same time encouraged ilocal and outside longs to sell freely. This selling was further augmented by the weather bureau's forecast of additional rain tonight in Kansas. The fact that the market at Liverpool closed light lower also tended to make more promounced the weakness in the local market. The selling pressure was heavy through-The seiling pressure was heavy through-out the entire session and the market manifested no recuperatice power, the tone being weak from beginning to end. Al-though commission houses were active buy-ers at times, the bulk of offerings were taken by shorts. Bearish sentiment was taken by shorts. Bearish sentiment was accentuated by liberal primary receipts, total arrivals today being 1,07,000 bu, compared with 495,000 bu, the same day a year ago. The market closed weak. July opened %0.54c to %0.55c lower at \$25,000,000 did to \$10 and closed at \$25,000. Clearances of wheat and flour were equal to 138,000 bu. The visible supply increased 785,000 bu, and the amount on passage increased \$25,000 bu. Minneapolis, Duluth and Chicago reported receipts of 679 cars, against \$10 cars last week and \$74 cars a year ago.

against \$10 cars last week and \$74 cars a year ago.

A break of 14d at Liverpool and a weak opening in wheat caused a lowering of corn values at the start. For a time there was considerable selling by commission houses and local longs. The market railled materially during the last half on active buying by cash houses, small receipts being responsible for much of the demand. The close was firm, July opened 440% to the close was firm. July opened 440% to the close was firm.

receipts were it cars, including E cars of contract grade.

Wet weather in the southwest caused some selling of cats early in the day which resulted in moderate weakness. Later, however, considerable firmness developed on a brisk demand from elevator interests. July opened 14914c to 1462c lower at 1143 115c, advanced to 113c and closed at the top price. Local receipts were 39 cars.

Provisions were rather weak because of selling by local packers. The sales were based on a 5c decline in the price of live logs and on the weakness of wheat. The volume of trading was small. At the close July pork was off 15c at 115.214. Lard was down 116c at 1275. Ribs were a shade lower at 18.671468.79.

Estimated receipts for tomorrow: Wheat, 7c cars; corn, 278 cars; cats, 254 cars; hogs, 18.000 head.

The leading futures ranged as follows:

13,000 head.
The leading futures ranged as follows:

NEW YORK GENERAL MARKET

As was anticipated generally by traders Baturday, the wheat market suffered a sharp break and prices on May and July options declined lide. General rains throughout Kansas, Nebraska and the fourtwest were the cause of the extreme sukness and long wheat came out freely on the decline. The Loudon market broke sharply and, with an increase in the visible wheat supply, caused much easier feeling Later dealings disclosed some support and prices generally rose slightly nigher.

Wheat opened weak on the reports of foreign markets. May wheat declined from 1840 asked to 7540 asked. September options were firmer and the trading gries were slightly firmer, but all options closed with a net loss of lice.

Coru was weaker on lower cables and in sympathy with the wheat market. Trading was light and receipts were moderate. The market was dull and the close was simmer, July corn closing at sec. Oats opened soft, with considerable selling by commission houses. The statistical situation is stronger, but precipitation in the southwest caused an early decline, with an increase in stronger, but precipitation in the southwest caused an early decline, with an increase in stronger, but precipitation in the southwest caused an early decline, with an increase in suffered as the process of the extreme ceptus. September, 2018 of the Day on Washest and Theorem Commission houses. NEW YORK STOCKS AND BONDS Rise of Union Pacific the Only Noteworthy Feature of Session.

NO NEWS TO EXPLAIN MOVEMENT Sharp Reaction in Wheat Given

Some Assistance to Advocates for Higher Prices for Stocks.

NEW YORK, April 29.-The extremely

NEW YORK, April 22.—The extremely limited operations in the stock market to-day gave no hint of any growth of outside interest. The movement of Union Pacific was the only one worthy of note. The strength in that stock really dominated the whole market and gave it whatever vague character it made. There was no news to explain the advance in Union Pacific. It was variously attributed to the formation of a stock market pool to speculate in the stock and to the expectation of some coming change in the affairs of the company that would redound to the benefit of the stockholders.

The sympathetic effect of the Union Pacific movement radiated through the market with diminishing effect in stocks more remotely connected with it, the greatest effect being shown in the more intimately connected transcontinental groups. The sharp reaction in the wheat market gave some assistance to the advocates of higher prices for stocks. The amount of unloading of wheat induced by the news of showers in the southwest serves to impress stock market sentiment with the large amount of speculative influence which has been at work in the recent wheat market and so detracted from the force of recent crop scare reports. Otherwise the day was unusually barren of incident and offered small help towards resolving the uncertainty which holds the securities mavket in check. The price of cooper made another advance in London today and gave some impetus to copper securities. Reports from railroad traffic officials were of continuance of favorable conditions, but in a less sanguine tone than recently. The car situation is reported easier, although this is attributed to an increased supply of new cars rather than to any falling off in traffic officials were of continuance of favorable conditions, but in a less sanguine tone than recently. The car situation is reported easier, although this is attributed to an increased supply of new cars rather than to any falling which advanced the price of the gold yield advanced the price of the gold yield point, th

LONDON. April 38.—Money was temporarily dearer in the market today owing to the call for over \$10,000,000 of the Japanese loans. Enseounts were firm. Operators on the Stock exchange were mostly idle and the business transacted was featureless, with consols and other first class scurities still dropping under fresh loan rumors. Prices hardened slightly in the afternoon on the Bank of England getting the bulk of the gold in the open market, but consols again dropped on realization. Americans were favorably affected by the better New York bank statement. They opened above parity and improved in the forenoon, with the Pacific stocks leading. Later New York bid up Union Pacific and a few other specialities and the market closed steady, after a fair amount of business had been transacted. Mexican rails were in good r—nd

and dearer. Japanese imperial 5s of 1804 closed at 181%. Kaffire were flat early in the day, owing to fears of the repairination of the Chinese coolles in South Africa, but at the close prices were firmer.

BERLIN, April 29.—Prices on the Bourse today opened firm, but weakened later.

PARIS, April 29.—Prices on the Bourse today were firm, but trading was inactive. Russian imperial 5s closed at 75.00 and Russian bonds of 1904 at 67.00.

Gattle Peccipts Rather Light and Quality of the Chinese cooling was inactive. Set the Cooling were firm, but trading was inactive. Russian imperial 5s closed at 75.00 and Russian bonds of 1904 at 67.00.

New York Money Market. NEW TORK, April 20.—MONEY—On call, asy at 2074, per cent; ruling rate, 24 per cent; closing bid, 2 per cent; offered, at 24 er cent.
