Henry Barrett Chamberlin's tribute, published in "The Voter," of Chicago, on Mr. Metcalfe's book-

"Of Such Is the Kingdom"

Read what he says:

"Richard Lee Metcalfe, associate editor of the Commoner, member of the national democratic convention from Nebraska in 1900, when he was Mr. Bryan's personal representative in the fight for a sixteen to one plank, and former editor of the World-Herald, has already firmly established his reputation as author of some of the ablest and most brilliant political editorials penned by any western writer. The breadth of his views and the depth of his knowledge concerning political conditions and situations challenge attention and command respect from all who know his work, making him an acknowledged authority throughout the west. But his latest book. 'Of Such is the Kingdom,' presents him to the public it a different phase. As its title, taken from the name of its first estay, suggests, it is largely devoted to the interests of that part of hum hity which cares little for statecraft or for things political. Childhood, its poetry, its charm and its power; parenthood --- its joy, its sorrow and its beauty; friendship--- its strength and its loyalty; the loveliness and the pathos of life which, as it passes, both gives and takes away-these are the themes which engage the pen of Nebraska's noted writhr. And the subjects are treated lovingly and tenderly, albeit there clings about them a gentle melancholy-the melancholy which the mature, thoughtful man, recalling days and friends who are no mote, must feel even though he has conquered a serene philosophy which viewing life steadily as a whole, accepts with calm courage its sorrow, and while feeling them deeply and sympathetically, yet pronounce it good. Such is the book which Richard Metcalfe tends out of the west-a book which, once read, abides in memory's heart."
