Trading in corn was active and the market was strong all day. The advance in wheat was the chief builtsh influence, although small receipts gave additional impetus to the buying movement. The market closed strong and near the highest point of the day. Deliveries on May contracts were small, being 10,000 bu. July opened unchanged to half of higher at a closed at 50 kg. Soid up to 50 kg. Good and closed at 50 kg. Local receipts were 104 cars, with 30 cars of contract grade.

Sentiment in oats was very builtsh, because of the large line of May oats held by a prominent buil. Deliveries on May contracts were about 1,000,000 bu., and bearly all of this grain was taken by this same dealer. An advance of lo to 2c in the price of the cash grain strengthened options. The close was strong. July opened 4,15% to 5% higher at 45%,042%c. advanced to 43% and closed at 45%c. Local saccelpts were 126 cars.

Although deliveries of provisions on May contracts were much smaller than had been generally expected, aggregating 4,000 hbis. of pork, 750 tieroes of lard and 300,000 pounds of ribs. the product fell into weak hands and was placed on sale early in the day. These offerings pot with little demand and prices became senser. Later the market railled, in sympathy with grain. At the close July pork was up 10c at \$15.00. Lard was up to at \$3.55. Elbs were 5c higher at \$7.35.

Estimated receipts for tomorrow: Wheat 25 cars: corn, 118 cars: oats, 178 cars; hogs. Sic.

NEW YORK, May 1.—Trading in stocks became dull again today and prices were allowed to slip backwards under very mod-crate selling pressure. Some of the day's news items were adduced to explain the became dull again today and prices were allowed to slip backwards under very moderate selling pressure. Some of the days news items were adduced to explain the agg of prices, including fresh crop damage reports, but probably the largest influencing factor on speculatve sentiment was the fact that Union Pacific was under pressure. For several days past the movement of the whole market had been practically confined to the sympathetic effect of the course of Union Pacific. When that stock turned downwards today the life seemed to die out of the market.

There was some show of strength in the stocks connected with the copper industry, including Amalgamated Copper, Anaconda, and American Smelting. This seemed to be caused by a violent upwarg rebound in the price of copper warrants in the London market. The rise of these stocks was of slight influence on the general list. The United States Steel quarterly report was without effect on the shares of that company for the quarter and the unfulfilled orders on hand at its close were acknowledged to show a flattering condition of affairs in the trade. The speculation of the curraliment by railroads on the steel industry mist be looked for in lifetiation of affairs in the trade. The speculation were coperation the whole market. The proposed issue amounts to about \$35,000,000, to be paid for in installments and to be offered to stockholders at par. But the new issue, basides carrying the privilege of conversion into the common stock, is to bear interest at the rate of 5 per cent, while the previous issues of convertible bends paid 4 per cent and were also subscribed for at par by stockholders, the last issue of about \$17,000,000 having been made in April of last year. Upon the announcement of the new bond issue the old convertibles, which sold at 100% in the morning, ran off to below 98. Some minor effect towards depression was caused by a rise in the call money rate. The hardening of call loans was inoderate and was attributed to a number of causes, including the May I money settlements, the opening of a new bank and some resulting shifting of loans and the preparation for a number of syndicate payments. The London stock market was closed, but sterling exchange here was firm. The interesting fexchange here was firm. The interesting fexchange here was firm. The London stock market was closed, but sterling exchange here was firm. The interesting feature in the foreign money markets, however, was a decline in the private discount rate in Paris and a rise in sterling exchange at that point, marking the easing tendency of money affairs at that capital. The violent upturn in the late wheat market declided the downward course of stocks, which left closing prices

Business in stockers and feeders was rather quiet, a fresh supplies were limited and there did not seem to be any particular urgent demand for the stuff from any source. Desirable fleshy steers found a ready sale at firm figures, but the trade was duli, dragging and weak on the common, light and medium-weight stuff.

REFE STEERS.

HOGS-There was scother liberal run of bogs and a further decline in prices. Ad-vices from custern markets were all more or less hearish and the local demand was not so keen as it has been recently, while Sheep. or less bearish and the local demand was plate, it is not so keen as it has been recently, while there was little inquiry for shipping account. All classes of buyers preferred the per 2.00 light and bacon grades and paid a good total premium for them, while the heavy hogs premium for them, while the heavy hogs were neglected and the last to sell at hot-late to me figures. The average weight is running considerably heavier than a year ago. Last month the hogs averaged 22 pounds, but, il.00, Texas silver skin, per grate, about

New York Live Stock Market.
