their nerves or their digestion to responsible. Both come from the same thingstemach trouble. A poor man or woman whose nerves are tied in knots is bound to be mighty poor company. The same thing is true if what they eat don't digest properly. No wonder they gramble, I don't blame thera.

I have seen Cooper's New Discovery change the whole disposition of people in a month's time simply by getting their stomach in singe again. Even the expression on their faces was altogether different. The worried, tired, fretful look changed to a peaceful, happy expression, and the lines of cure disappeared sitogether. Many people tell me about this in lettera: They seem to think it is a miracia. It isn't. It's just the stomach working

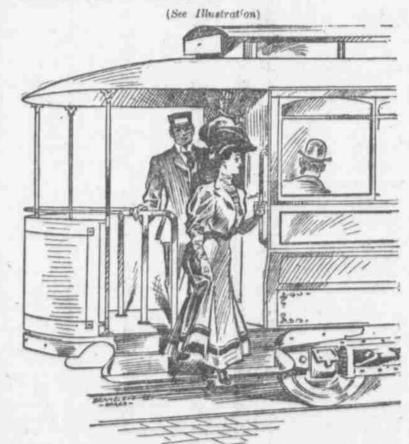

Here's a case of this kind; "I suffered with my stomach for thirteen years. Nothing I are seemed to digest. I also had chronic constipation, and was tired, duli, irritable and despendent all the time. I found it difficult to uttend to my duties as traction agent at this place. "Hix different tectors treated me and
