After Strong Opening Prices Advance Sharply and Close Higher. FROST AND COLD WEATHER ARE FACTORS IN BULLISH MARKET ON PREDICTIONS OF UNFAVORABLE WEATHER.

NEW YORK STOCKS AND BONDS

Market Again Responds to an Advance in Union Pacific Shares. STRENGTH OF THIS ISSUE UNEXPLAINED.

Rumor Circulated that Treasury Assets Are to Be Distributed and that Holding Company is to Be Formed. NEW YORK, May 2.—The stock market again today showed itself responsive to the course of Union Pacific and not much to any other development.

The strength of Union Pacific was as much without explanation in any special direction as it was in the first and continued in consequence the subject of a great variety of rumors, for which no authoritative statement could be given.

The preferred stock has not hitherto moved in company with the common, although the reports of the Harriman group have been current ever since Union Pacific became active and strong.

The value of the stock market is not to be measured by the price of the stock, but by the volume of business transacted.
