Foot Comfort for Men

It's what we call our cushion soled shoes and those who have worn them say—"There is more real comfort to the square inch in these kinds of shoes than any shoe they have ever worn."

It's the only real cushion soled shoe on the market, hand-sewed, which makes it flexible and easy—made on a broad foot-form last which allows the foot to rest squarely on the sole, as it should, and not on the upper as most so-called cushion soled shoes are made.

We have this guaranteed satisfaction shoe for

President Roosevelt Says:

"Straight whiskey will be labeled as such."
"Imitation whiskey will be labeled as such."

That is the President's ruling in regard to whiskey in the Pure Food Law. If a label says "straight whiskey" the bottle must contain straight whiskey and nothing else. Our

Pure Food Whiskey

conforms with the Pure Food Law and fills every requirement of the president's ruling. It is warranted to be a straight, pure article drawn directly from a double stamp barrel. No imitations, no blends, no compounds, a straight whiskey bottled by us and guaranteed by the U. S. government as such.
