Haywood is on trial for complicity in the murder at Caldwell, Idaho, on December 35, 1005, of former Governor Frank Steunen borg. Haywood to one of the four defendants charged with the murder. The others are Charles H. Moyer, president of the federation: George A. Pettibone, a former member of the executive committee of the federations, and Harry Orchard. The fast named is expected to be the most important witness for the state against Haywood, Moyer and Pettibone. He is said to have made a confession and it has been the task of the prosecution to endeavor to corroborate this confession wherever possible. The fact that Haywood's case is the first called for trial is regarded as indicating that the prosecuting attorney believes their strongest evidence is against the secretary of the federalton, .The outcome of bis case will determine the action to be taken with regard to Moyer and Pettibone. Should there be a conviction of Haywood, Moyer and Pettibone will be called for trial in the order named. On the other hand, an acquittat of Haywood undoubtedly would mean an abandominent of the case against the other accused officers of the miners' organization. Orchard will not be tried until all of the other cases are disposed of.

the street corners. There seems to be no question here but that a fair trial will be had and the best of feeling apparently prevails among those most prominently connected with the case. Even the more radical of the supporters of the accused iners are in good humor and are ready to chaff with their acquaintances over the advantages or shortcomings of socialism The good feeling and widespread desire to prevent anything even approaching a flare of disorder was evidenced late last night, when Mayor Haines summoned before bin a socialist orator who was here eight months ago haranging audiences at the street corners and protesting the absolute innocence of the men accused of the musder of Governor Steunenberg. The mayor explained to the socialist editor speaker that the conditions of quiet and calm prevailing in Boise was so gratifying to the citizens that they did not think it advisable that there should be public speaking at this time.

matter of determination for a jury and public oratory on the subject might tend to inflame some persons into an overt act which would be regretted on all sides. The interview was most satisfactory, ending by the mayor's caller deciaring that he had no intention of speaking during the trials and that he agreed with all the mayor said. Speculation as to the length of the Haywood trial has resulted in guesses ranging from two weeks to five months. There are some who believe that the task of smeeting s jury alone will require at least three weeks. the introduction of a resolution by Dr. A. B. Somers of Omaha deprecating the practice of paying and receiving commission on the part of physicians in order to secure practice from others, particularly as relating to surgical cases. The resolution strongly condemned the practice as contrary to professional ethics and recommended the expulsion of members from tha county and state medical association who indulged the practice and that this association go on record as unalterably opposed to the practice.

Many Rails Broken After the adjournment of the meetings of the directors of the Union Pacific and Southern Pacific today Mr. Harriman gave out a letter from Operating Officer Kruttschnitt, which he had read to the directors in use only five or six months. This was a little indication of what the railroads had to contend with. As the companies did not make the ralls they were not responsible, he said, but it was, however, one of the very serious conditions which railroad companies had to face. Mr. Kruttschnitt said that he had discussed this matter with half a dozen operating officers of other lines and finds their experience to be about the

"I am here in accordance with the program for a conference in regard to the candidacy of Secretary Taft and also in the interest of the primary reform movement. The pronunciamentos from Toledo and Cleveland mean that Ohio will be for Taft for president, and I am very glad for that. In Washington in promoting Secretary Taft's candidacy the greatest obstacle I met was the question, 'Why, he won't have his own state, will he?' or a question as to whether the state would be divided. As long as things remained in that condition I would have insisted on the primary in order that Ohio should express its choice. I now feel that the necessity for primaries has been eliminated." Chairman Arthur Voris, the manager o

the Taft forces in Ohio, said today: "The purpose of Taft's friends in agitating now the question of the choice of Ohio republicans for the presidency was to dispel the notion that he would not get the united support of Ohio. The events of the ast few weeks seem to have culminated today in the voluntary withdrawal, without stipulation, of all opposition and in the complete realization that the republicans of Ohio are solidly for Taft for president and the movement will go forward now with every prospect of his nom-
