See, 5-14-07.

HUNDREDS OF WORKMEN HERE

Delegates from All Over State Welcomed to City by Mayor.

LIVELY PROGRAM FOR THREE DAYS

One of Solemn Functions Will Be Enology on Late Grand Master Van Dyke by Senator Burckett.

The formal session of the twelfth biennial meeting of the grand lodge, Ancient Order of United Workmen for Nebraska, began at Washington hall Tuesday at 2 1/2 p. m. with about 400 delegates present. The earlier part of the session was devoted to conferring the grand lodge degree. This ceremony was completed in about half an hour, with Grand Master Clayton presiding. Mayor Oakes was then introduced by Grand Master Clayton and extended the address of welcome to the visitors.

"It gives me the greatest pleasure to welcome this great organization to the city of Omaha," said the mayor. "The pleasure is increased from the fact that I am a member of the order and have been for twenty years and the longer I remain in it the better I appreciate it. As the chief executive of this city, the metropolis of the promising northwest, I shall see to it that the city will give you every entertainment that you will come again and often."

Grand Master Clayton responded and then introduced Past Supreme Master Workman and Past Grand Master Workman J. G. Tate, who was at the head of the order of Nebraska for eleven years, but now a resident of Hood River, Oregon, and asked him to preside over the remainder of the morning session.

Grand Recorder of New York.
Mr. Tate gracefully accepted the compliment in a short address and then introduced Past Supreme Master Workman A. C. Harwick, at present grand recorder of New York, who delivered a short address upon the good of the order. He spoke particularly of the growth of the organization in the east and New York and its general prosperity everywhere.

A press committee consisting of W. N. Huse of Norfolk, Richard Ramey of Columbus and W. H. Hatcher of Omaha was appointed.

An adjournment was then taken until 2 o'clock p. m. The principal business of the afternoon session was the nomination for grand lodge officers, which were made from the floor of the convention.

At the morning session a motion prevailed requesting Senator Burckett to deliver the memorial address in memory of the late Grand Master Workman O. J. Van Dyke whose death occurred recently in Omaha. Senator Burckett accepted the invitation and the eulogy will be delivered some time during the present session of the grand lodge.

Among the prominent members of the order present at the meeting are Past Grand Master M. E. Shultz, ex-mayor of Beatrice; Past Supreme Grand Master Workman A. C. Harwick of New York, Supreme Representative Webb McCall of Kansas, Senator Burckett of Lincoln, Past Supreme Master Workman James G. Tate of Hood River, Ore., and others.

REPORT OF BURLINGTON SHOWS CONDITIONS IN NEBRASKA AND WYOMING.

The crop and soil report, as given out by the Burlington railroad and prepared from reports sent to the general superintendent by the division superintendent, does not mention the weather. The report for the week ending May 11 shows the winter wheat crop is making slow progress, but is very generally in good condition in the Nebraska district.

"No report has reached this office indicating any damage to winter grain, although the reports generally indicate slow progress on account of cold weather," the report says.

Oats and barley were, no doubt, more or less damaged by continued cold weather and heavy frosts. With favorable weather from now on the spring grain may do very well, but it is not yet certain. Nothing very definite can be predicted just now. Spring wheat has suffered less than oats and barley.

Corn planting, especially on the McCook division, was very generally completed during the week covered by this report, and a large part of the entire acreage should be seeded before the end of this week if the weather continues to be favorable. For various reasons, the corn acreage remains on the ground in places that there has been nothing to interfere since the early spring with the work of preparing the ground for corn planting. The delay is due to the fact that the average of oats will decrease as the corn acreage cannot yet be told, as the oat fields put into corn are about the last to be planted.

The potato crop has been planted, but has made very little progress. The planting of sugar beets continues, but is not yet completed. Stock generally is doing well throughout the Nebraska district. Some apples will be ready for the Missouri river counties and there will be some strawberries raised in Nebraska.

It is very good to hear that the McCook division and in fair condition on Lincoln and Wyoming divisions. Rainfall on McCook division during the report of the week, for which this report is made, was from light to one inch and was general; on Wyoming division, from light to four-tenths of an inch; on Lincoln division, from light to one-half inch. On the Wyoming and Lincoln divisions territory was practically all covered, but in the other places where light and the ground is getting somewhat dry.

Wheat in the Wyoming district traversed by the Burlington is showing great improvement, according to the soil and crop report of the Burlington. On the Sterling division it is up from six to eight inches. On the Alliance division oats are looking better and do not appear to have been injured by the heavy frosts. On the other divisions the oats are in about the same condition as the wheat. On the Alliance division gardens are poor and on the Sheridan division vegetables are growing nicely. Some beets have frozen on the Sterling division and in some places will have to be replanted. Ranges are looking green and the stock is in fair condition on the Alliance division, while on the Sheridan division meadows and pastures are in excellent condition.

On the Sheridan division cattle are doing exceedingly well and should improve steadily, now that the range conditions are favorable. Sheep are in fair condition and lambing fairly under way. Shearing has been completed in some localities. There is a large crop of wool, but it is generally conceded that the quality is not up to last year's standard.

TOWNS AFTER NEXT SESSION.

At the afternoon session a resolution was adopted to appropriate \$50 for expenses of the next grand lodge session. Lincoln, McCook, Fremont, Grand Island and North Platte submitted bids for the next convention. This matter will be acted this morning by ballot.

Silas R. Barton of Aurora, who has served four years as a faithful officer, and W. A. Greenwood of Falls City were the only nominees for grand recorder and grand receiver, respectively, and were unanimously elected. Interest in the election will center on the grand master workman, medical examiner and trustee.

A resolution was adopted instructing the representatives to the supreme lodge to attend to the receipt of the amount of \$100 to provide for merging the offices of recorder and financier in the subordinate lodges. The grand lodge empowered the officers to employ a general attorney for the Nebraska jurisdiction.

A law was adopted making it the duty of the grand receiver to deposit in the name of the Ancient Order of United Workmen funds of the Nebraska jurisdiction in banks giving bonds approved by the financial committee in an amount not to exceed 50 per cent of the bonds given and the interest on the deposits to be placed in the credit of the various funds of the Ancient Order of United Workmen.

Another law was enacted corresponding in character to the state law, prohibiting the grand receiver from holding his office longer than two terms.

Florence citizens are anxious for the Workmen delegates to visit that thriving little place and take advantage of the new 5-cent fare which the street railway has just granted. Florence has invited the Workmen and expects them before they break up the gathering. They will be cordially entertained and shown around the scenic little town.

OUTLOOK FOR WHEAT CROP
(Continued from First Page.)

single sale at the opening, but promptly retreated from this conspicuous position. The profit-taking movement carried July down to 55c, and December to 57c. The reduced level of prices induced a wave of new buying near the close, under which prices rebounded sharply, and, in close, considering recent violent fluctuations, showed but a slight change from yesterday's final figures.

July closed unchanged at 55 1/2c; September, 56 1/4c lower at 55 1/2c; and December, with a similar drop, at 56 1/4c.

The volume of business done was heavy. Board memberships, not received, found no buyers at \$1.50, were easily salable at \$2.50 today.

PARASITE KILLS GREEN BUGS

Fight of Kansas University is Producing Good Results.

LAWRENCE, Kan., May 14.—Prof. S. J. Hunter of the entomology department of the State university, who for the past month has been collecting and sending free to the farmers of the southwest parasite bees to kill the green bugs that have been destroying wheat, received a telegram today from Secretary of Agriculture Wilson at Washington, asking for full particulars of his work. Prof. Hunter replied that he had distributed 2,000 boxes containing the parasites to Kansas farmers with uniform good results but that a large fund was needed to make the work comprehensive and decisive.

Prof. Hunter said today that he is still unable to fill all orders for the bees but is sending out boxes as fast as possible with the limited means at his command. Whatever delay the farmers have in receiving the boxes has been caused by a lack of funds to push the work, which is being done gratis by Prof. Hunter and the students in his department of the university.

A report received last night from Hutchinson, central Kansas, stated that the green bugs have begun to attack the newly sown corn.

Best Exorcism in New York.

NEW YORK, May 14.—The government thermometer at the weather bureau today registered 81 degrees and the first case of heat prostration for the year was reported. The victim was a laborer.

New Southern Pacific Treasurer.

SAN FRANCISCO, May 14.—Andrew W. Van Dusen of New York was yesterday elected treasurer of the Southern Pacific in the place of Captain C. C. His headquarters will be in New York.

The Great Ribbon Cheese will be cut Thursday, a m. Still about 50 pounds to sell; if you want to get a portion, get here and get it. Cheese you ever saw, now is your chance—only 25c pound and \$5.00 in Gold.

morning. Fruit trees are in full bloom and if freezing weather follows, the fruit crop will be ruined.

STANTON, Neb., May 14.—(Special.)—A heavy snow is falling here this morning, which melts as it falls. Fruit trees are in full bloom and the snow mingles with the blossoms. Surprising though it is, a large portion of cherries and plums were not killed by the previous unreasonable frosts and unless a freeze follows the present storm there will be a fairly good fruit crop. Grass has been slow in coming and pastures are short.

PRIMROSE, Neb., May 14.—(Special.)—A snow storm prevails here today. Snow is falling fast and furious and is being driven into drifts by a strong northwest wind. While it is an unusual happening moisture of any kind is welcome as this section has not been visited by a rain this spring and the small grain is suffering.

GREELY, Neb., May 14.—(Special.)—This vicinity was visited again with freezing weather last night, killing the fruit buds. A little snow is falling this morning.

COLUMBUS, Neb., May 14.—(Special.)—Snow fell here at intervals today.

HARVARD, Neb., May 14.—(Special.)—With the mercury within two degrees of freezing, a strong, cold north wind blowing and the air at times well filled with

BUFFALO LITHIA WATER

The Great Solvent and Eliminator of URIC ACID and other POISONS.

"Doubly Efficient in Rheumatism and Gout, and an Important Corrective of Digestive Failures."

John V. Sheemaker, M.D., LL.D., Professor of Materia Medica and Therapeutics in the Medical Department of the University of Michigan, July 25, 1899: "BUFFALO LITHIA WATER is doubly efficient in rheumatism and gout. It dissolves uric acid and phosphatic sediments, as well as other products of elimination, while at the same time it exerts a moderately stimulant effect upon the renal cells and thereby facilitates the swift removal of insoluble materials from the body. Without such action insoluble substances will precipitate in the kidneys and bladder. The intense suffering produced by stone, together with consecutive pyelitis and cystitis, are avoided by prompt elimination. Especially although the speedy removal of uric acid and other products of faulty function is of consequence, this one benefit, yet the prevention of uric acid, is a service still more important. This one benefit, when it corrects those digestive failures which are responsible for the production of deleterious materials."

James L. C. Abbott, M.D., A.M., LL.D., formerly Professor of Physiology and Surgery in the Medical Department of the University of Michigan, and President of the National Board of Health, says: "BUFFALO LITHIA WATER is a well-known therapeutic resource. It should be recognized by the profession as an article of Materia Medica."

Dr. Chas. G. Hill, Professor of Nervous and Mental Diseases, Baltimore Medical College, Baltimore, Md.: "In many forms of nervous exhaustion, accompanying an excess of urates and phosphates, it is invaluable."

Dr. J. T. DeBlanchard, Professor Montreal Clinic, St. N., V. E.: "I have used BUFFALO LITHIA WATER in most obstinate cases of Chronic and Acute Rheumatism, Gout, Gravel, and in the bladder, in Uric acid Gravel, with the most efficacious results."

BUFFALO LITHIA WATER is for sale by Grocers and Druggists. All impatience or question sent to any address.

Hotel at Springs opens June 15th.

PROPRIETOR BUFFALO LITHIA SPRINGS, VIRGINIA.

All the Gold in Georgia Could Not Buy

Reading, Ga., August 27, 1907.
MESSRS. E. C. DEWITT & CO., Chicago, Ill.

Gentlemen:—

In 1897 I had a disease of the stomach and bowels. Some physicians told me it was Dyspepsia, some Consumption of the Lungs, others said consumption of the bowels. One physician said I would not live until Spring, and for four years I existed on a little boiled milk, soda biscuits, and in the Spring, 1902, I picked up one of your Almanacs as a poor, emaciated Dyspepsia wreck and I grasped at anything that the Almanac happened to be my life savior. I bought a BOTTLE of KODOL DYSPEPSIA CURE and the benefit I received from that bottle

GEORGIA COULD NOT BUY IN TAKING IT and in two months I went back to my work, as a machinist, and in three months I was well and hearty. I still use a little occasionally as I find it a fine blood purifier and a good tonic. May you live long and prosper. Yours very truly,
C. N. CORNELL.
