Easterners cannot exactly figure out how Michigan can hold the conference by the throat in an attempt to force legislation favorable to Ann Arbor. For instance, in | the east Harvard is affected more unfavorably by the graduate rule than any other institution. Harvard is the great postgraduate institution of those actively engaged in athletic sports. The rule cuts Dexter, Des I McLaughlin, I Ragan, Omah Andreas, Des Frost, Lincolr the Harvard athletic population away down in figures. In fact, Harvard men say that instead of figuring on the basis of 5,000 men to draw from for athletic sports various restrictions make the figure actually about one-fifth of that number. It is added that taken all in all Dartmouth, reckoned as all college, probably has as many students to call upon for the support of athletic teams. Grounds at Cornell and Yale.

to be the development of more men for the athletic teams, this is not the primary oblect. If there should happen to be a few men to find themselver, athletically speakng, on the playgrounds that will be all very well. However, the benefits to the meat mass who have no time for athletic raining and small opportunity for exerino will be great. To resume, if Harvard had scented in

he graduate rule a plan by Yale, for instance, and had refused to continue in ompetition against the Blue and other colleges, what would have been the likely result? Harvard would have been free to ro and no one would have made any step o bar the way for the Crimson. Even Yale, whose condition of friendly rivalry with Harvard is more intimate than that of any other college, would have made only a perfunctory effort to hold Harvard to likely that the I. C. A. A. A. A. would have adopted the retailatory measures taken by the conference in making it diffiult for those not subscribing to the concollegiate games. But Harvard would have seen free to go exactly as is Michigan and with no better justification.

So it seems that little chance as Harard would have to break up the I. C. A. A. A. A., the situation out west is exctly paralleled. However, Michigan may se banking on the numerous rivalries and lifferences among the western colleges to form a brand new coalition. If that effort s successful, that combination may last as long as the conference.

Down at Annapolis they are well satisled with their track and field coach. P. J. Finneran, the old Knickerbocker Athletidub man. Finneran has been there for three seasons and has accomplished great results on a by no means good equipment, The track there is small of five laps to the nile, and the surface is not adapted for he best work. It was not even so good when Finneran came there. It was renarkable work that he did there in his irst season.
