Two Candidates and Much Interest Involved in Office to be Filled.

Considerable local interest is being taken in the election of a successor to the late Rev. Alexander Gilchrist, a corresponding secretary for the Board of Home Missions of the United Presbyterian church. His successor is to be chosen at the general assembly of the church, which convenes in Denver May 22 to remain in session a week. Those most prominently mentioned for the vacant secretaryship are Rev. R. A. Hutchinson of Pennsylvania and Rev. George E. Hawes of New York. The latter possesses much local interest from the fact that Dr. Gilchrist was once pastor of the Central Presbyterian church of Omaha. He resigned the pulpit of the church to accept the secretaryship of the Home Missions board and has held it for five or six years.

Dr. Gilchrist died but a short time ago and the office has been vacant since. It is a position of great importance in the church, its administration extending all over the United States. The Omaha delegation left for Denver Tuesday morning.

MAIN WITNESS HEEDS THREAT

Frank Stillo is Missing When Case is Called in Criminal Court.

Frank Stillo was solemnly called three times in criminal court Tuesday morning and came not. He is the complaining witness in the case against Butch Ames, charged with robbery, and it was reported to the authorities that he packed his trunk a few days ago and silently stole away to Chicago. Friends said he had been threatened with death if he remained here to testify. As a result of his absence the Ames case was not taken up, but an effort will be made to get Stillo here. Stillo says Ames held him up March 26 and robbed him of \$20 and a gold watch. Some trouble was also experienced by the sheriff's office in locating Angelo Pano, who was to act as interpreter, but he was finally located.

CONTRACT FOR NEW HOTEL

Work on Henshaw Goes to the Capital City Company.

MAY BE EIGHT INSTEAD OF FIVE STORIES

Ground Dimensions Are Increased and the Walls Will Be Constructed to Permit of Greater Height.

Contracts were let Monday afternoon for the construction of a new five-story addition to the Henshaw hotel to the Capital City Brick and Pipe company by O. C. Redek, who represented the Redek estate in the transaction.

The new hotel building will be constructed throughout of reinforced concrete, erected under the Kahn system of reinforcement, after plans prepared by John McDonald, architect and actual construction work will begin as soon as the old building on the site at 1511 and 1513 Farnam street, are torn down. This wrecking will begin at once as the buildings have been sold to a wrecking firm. Although not definitely decided it is possible the new addition will be erected to a height of eight stories instead of only five, as is now contemplated and in any event the foundations and walls will be constructed with this end in view.

Cost Not Yet Determined.

The cost of the new hotel building has not been ascertained, as the plans have not been completed by the architect, but it will be thoroughly fireproof and completely modern. The old front of the present Henshaw hotel will be torn out and a new front constructed to conform to the front of the new addition, which in itself will be much larger than was originally contemplated.

It was first decided to extend the present hotel to cover only the ground formerly occupied by the building of the One Minute restaurant, but these plans have been abandoned and the new addition will be twice as large, extending from the One Minute restaurant building to the building occupied by Dresser, the tailor, at 1515 Farnam street.

The new addition will have a frontage of over forty feet on Farnam street and will be about 125 feet deep, which will provide for about 100 additional rooms for the hotel and cafe room on the second floor. The contract for the construction of the new building was let to the Capital City Brick and Pipe company on a percentage basis, similar to the manner in which the contract for the new Paxton & Gallagher warehouse was secured by the same firm and construction work will be begun as soon as the old buildings are removed. It is desired to finish the new hotel building as soon as possible.

Great Western Buys Lots.

Several more lots in the vicinity of Nineteenth and Pacific have been bought by the Chicago Great Western company on its right-of-way to its freight depot at Sixteenth and Leavenworth streets, and with many other lots recently bought, gives the company possession of nearly the entire tract of land bounded by Nineteenth, Pierce, Sixteenth and Leavenworth streets.

John D. Wear sold his house and two lots at the northwest corner of Sixteenth and Mason streets to the railroad company for \$6,000. Emma Stroh sold her house and lot on Nineteenth street, between Pacific and Pierce streets, for \$2,000; George Krause sold his house and lot in the same vicinity for \$4,035, and E. J. Robinson sold two lots at the northeast corner of Nineteenth and Pierce streets to the company.

Woman Run Down by Wagon—Mrs. Robertson was run down by one of the Omaha Creamery Package company's wagons last night on Sixteenth street, between Harney and Farnam. Her right hip was badly bruised and her doctor feared that she may have been injured internally. She was taken to her home at 1814 St. Mary's avenue. The wagon was driven by E. F. Jones. Little Deals in Realty.

C. E. Fielda, a former justice of the peace, has sold his six-room cottage at 2222 Ames avenue for \$2,500. O. L. Miller and has bought a lot on Twenty-first and Spear streets upon which he will build a \$2,000 residence this spring.

Mrs. Mary W. Pennell has sold her house and lot on 14th street between Fortieth and Forty-first to Mrs. Jennie A. Kruger for \$2,000.

Walter L. Selby, a well known real estate dealer, has sold one lot and an adjoining strip of land at the northwest corner of Second street and the boulevard to Joseph Lobeck for an investment. A nominal consideration was given to the deed.

Deeds have been placed on record transferring the title of the Withnell home at Twenty-fifth and Harney streets from the executor of the estate, J. Fred Smith, to Mrs. Fredericks Wessels Caldwell, wife of Sam Caldwell, for \$2,300. The residence will be improved by Mr. Caldwell. Alexander R. Candless has sold his property at the corner of Twenty-fourth street and Ames avenue to Charles Jacobson for \$3,500 as an investment.

THOMAS NOW IN COMMAND

Brigadier General Assumes Charge of Department of the Missouri.

Brigadier General Earl D. Thomas, 11th Cavalry, arrived in Omaha Tuesday morning and after the necessary formulas of the turning over of the command of the department by Major General A. W. Greely to him, he assumed the command of the Department of the Missouri temporarily, or until the arrival of Brigadier General W. H. Carter, the permanent commander of the department, who will be here some time in September.

Major General A. W. Greely, who has been in command of the department in connection with his command of the Northern Military division, departed for Chicago last evening.

General Thomas is a graduate of West Point military academy of the class of 1880. He first entered the service in April, 1882, as an enlisted man in the Eighth Illinois Volunteer cavalry. At the close of the civil war he received the appointment to West Point, and upon his graduation from West Point was assigned to the Fifth United States cavalry. He became a first lieutenant in 1872, captain in 1888, major of the Eighth cavalry in 1899, lieutenant colonel, Thirteenth cavalry 1901; colonel of the Eleventh cavalry in 1903, and brigadier general in April, 1907. He has been in active service during the entire forty-six years of his military career and is a thorough soldier in all that the term implies.

General Thomas has not yet announced his aide-de-camp to serve with him here in Omaha. The general staff of the department will not be disturbed by his coming, but will continue as at present organized.

Lieutenant Charles C. Allen, Thirtieth United States infantry, for a number of years the personal aide-de-camp of the late Brigadier General T. J. Wint, arrived in Omaha Tuesday morning from the east, where he has been closing up the affairs of General Wint.

"We were all infinitely shocked by the sudden death of General Wint," said Lieutenant Allen. "We had abundant reason to believe he was recovering from his illness incurred, or rather aggravated, by his duties in Cuba. Even his physicians gave us to believe that with a relief from the responsibilities of command that he would live a long time, even though afflicted with a severe heart trouble. We were consequently astounded beyond expression by his sudden death in Philadelphia. General Wint is now at his former home at Eranon, Pa."

A telegram was received at department headquarters Tuesday morning from Colonel Henry P. Kingsbury, commanding the Eighth cavalry, announcing the arrival of that regiment at Fort Robinson, Neb., at 4 o'clock Tuesday evening. The command at Robinson comprises the headquarters of the regiment, the First and Third squadrons, twenty-four officers, 355 enlisted men and one contract surgeon.

NO MERGER OF 'PHONE FIRMS

Reported Agreement is Contradicted by Bell and Independent Officials.

A report from Chicago to the effect that the Independent Telephone managers and the Bell company had reached an agreement for a working agreement is strongly denied by F. H. Stow, manager of the independent concern at work in Omaha.

"The only plan under contemplation," said Mr. Stow, "was one to combine the long-distance telephone in Indiana, the Bell concern to leave the independents in control of the local business and the independents to pay tolls to the Bell on long-distance business. This plan was submitted to the independent companies at a meeting at Indianapolis and was defeated by a large majority."

"The trouble with some members of the Independent Telephone association is that they do not realize there is a western part of the United States, Ohio, Indiana and New York companies should reach a working agreement they would consider the entire telephone question settled throughout the United States. There will be no merger in the west; that is certain. Iowa and Nebraska are not involved in any such plan and the vote in Indiana shows that the alleged agreement was merely talk."

ENIX FINALLY CONVICTED

Found Guilty of Manslaughter of Harry Lockman After All Night Session.

Alec Enix was found guilty of manslaughter Tuesday morning by a jury in Judge Troup's court after an all-night session. It is said the jury stood eleven to one for conviction all night, the single juror giving in about 10:30 in the morning. Enix was charged with killing Harry Lockman, another negro, by a blow over the head.

The killing of Lockman was the result of a light in which he, his brother, Frank, Enix, and Al Harper took part in the alley near the house in which the party was being held, following a quarrel over a woman. The state contends Enix and Harry Lockman fought with each other and that Al Harper, who is jointly charged with manslaughter with Enix, fought with Frank Lockman. The defense contends it was just the other way and that it was Harper who struck the dead man. There was strong evidence on both sides, the witnesses differing as to the material facts.

LUMBER DEMAND TOO GREAT

With San Francisco Rebuilding It Cannot Be Met by Coast Firms.

D. M. SWOBE TELLS TALE OF DISORDER

Strikes and Prosecution in Stricken City, He Says, Have the Public Mind Constantly Wrought Up.

Delight M. Swobe of San Francisco freight manager of the McCloud River Railway company is in Omaha visiting his parents, Major and Mrs. Thomas Swobe. "The lumber business is at the height of its prosperity on the coast now, with the rebuilding of San Francisco and the eastern demand for the Pacific coast redwood lumber," said Mr. Swobe. "We are having some trouble with our eastern shipments on account of the tremendous congestion of freight traffic and with the flood troubles encountered by the railroads in Washington. Just 250,000,000 feet of lumber have been put out of the Shasta country during the last season and still the demand increases almost beyond the capacity of the mills to supply it."

"San Francisco is having no end of trouble with its labor agitation, the grafters trials and street car strikes. The confusion of Ruef has astounded the San Francisco people and the determination is to send the grafters to the penitentiary. They cannot escape the penalty. Their system of graft has extended back several years and the more it is aired the worse it gets. The labor troubles are extremely aggravating."

Woman Hired to Ride on Cars.

The street car strike is not wholly settled yet. The street car people tried the plan of loading their cars with women, thinking the strikers would permit them to run without attacking them. But it made no difference, they were just as apt to assault a carload of women as a carload of men. The plan was adopted of hiring women to occupy the cars, paying them as high as \$5 per day, but the cars were stoned incessantly and the plan had to be given up.

The streets are still littered with debris from the "quake" and it is next to impossible to secure men to clean them. All the help that can be procured is needed for building operations.

"We are glad General Funston is in charge out there again. He has warned the disturbing elements that order must be maintained and property and life protected or he will use the military and the disreputable know he will do just what he says. He brought the strike out of chaos during the "quake" and he will do it again if it becomes necessary to call upon the military. The mob is afraid of him and his presence at San Francisco is having an assuring effect."

"Matters will quiet down there after a while and San Francisco will be better than ever. It is now in the throes of a revolution for the better and it will come. The law-abiding element is determined. The Spoekles influence is doing an immense amount of good."
