Opening Weak and Dea's Soft at Times, Quotations of the Day on Various but Rallies When Selling Eases.

LONG WHEAT MAKES FREE SALES

Vact Has Had Tendency to Push Prices Down, but Feeling is All This Grain Will Yet Be Taken.

OMAHA, May 24, 1907. The opening was weak and the market howed soft at times, but railled as soon a selling eased. Cables came strong and Suropean private cables report conditions very bad there. The general growing weather throughout the west and northwest has improved greatly and seeding mostly Wheat was weaker at the opening and

Wheat was weaker at the opening and seemed soft, but steaded as soon as selling cased. There has been free selling of long wheat for the last two days and this fact has had a tendency to push prices down. However, there is a strong feeling that this wheat will be all taken back on a gain. July wheat closed at 925c, bid.

Con showed weaker signs, with a strong demand. Receipts were small, but receivers are expecting large shipments in the near future. Illinois farmers have sold some corn and expect to unload more if prices stay at the 50c mark. July option closed at 495c bid.

Oats opened weak, trade being large and general. Commission houses were on both sides of the market. The heaviest trading was done in September option. July opened at 45%c asked and closed at 45%c bid.

Primary wheat receipts were \$25,000 bu and shipments 515,000 bu, against receipts of \$66,000 bu, and shipments of 352,000 bu.

CHICAGO GRAIN AND PROVISIONS

Features of the Trading and Closing Prices on Board of Trade.

Prices on Board of Trade.

CHICAGO, May 24.—Wet weather in the west and southwest was again the domirating influence on the local wheat market today. At the close the July delivery was down the September was unchanged and December was the lower July corn and oats were each up \$c. Provisions were unchanged to 7% lower.

Mecause of the continued rains in Nebaska, Kansas, Iowa and other winter heat growing states the wheat market was subjected to heavy selling pressure early in the day. Local and outside longs were free sellers and commission houses also were active on the bear side of the market. About noon the bulls made a determined effort to bring about a rally and forced prices up to a point about 3c above the low market of the day. The statement of a local crop expert that the shortage in this year's winter wheat crop will be 100,000,000 bushels, as compared to the crop of last year, as estimated by the government officials was one of the factors that caused the rally. Another was the report from New York and Winnipeg that large quantities were being taken in those places for export. During the latter part of the seasion the market declined on heavy realizing sales. The close was weak, July opened \(\frac{1}{2}\) Agother to \(\frac{1}{2}\) Ago, sold off to \(\frac{1}{2}\) Ago, conversed to \(\frac{1}{2}\) Ago and closed at \(\frac{1}{2}\) Ago, becember opened as shade to \(\frac{1}{2}\) Ago, became of the season the market to store the country receipts were \$2.60, bu. against \$2.600 bu. for the same day last year. Minneapolis, Duluth and Chicago reported receipts of \$26 cars a year ago.

The corn market was weak early in the day because of improved conditions for the growing crop. Later the sentiment became bullish because of improved conditions for the growing crop.

than the ruling rate for money. The difference of the demand with the cessation of the active pressure to liquidate today, in face of this technical index of a large outstanding short interest, arouses some suspicion of borrowing of stocks against sales that are really soid in liquidation in order to conceal the appearance of liquidation or its sources. Recent sales of stocks here for foreign account also are believed to have been large and it is customary in such cases to borrow stock for delivery pending the arrival of certificates from abroad, thus increasing the appearance of a large existing short interest. New York Mining Stocks. NEW YORK, May 24.-Closing quotations

Foreign Financial. LONDON, May 24.—Supplies of money were scarcer in the market today and rates had a hardening tendency. Rates were firmer on the weak foreign exchanges. Trading on the Stock exchange was dull and prices were depressed, owing to the dear monetary outlook and lack of support, which weakened consols and first-class securities generally. Ratis suffered on provincial selling, while the labor troubles in South Africa affected Kaffirs. Americans opened at a fraction above parity, but the opened at a fraction above parity, but the improvement disappeared before noon on
