DIVIDING RAILROAD EARNINGS

State Commission Asked for Opinion on Method of Apportionment.

FUNDS FOR PUBLIC SCHOOLS OF STATE

Supreme Court Rules Auditor Must Issue Warrants Against Mill Levy for University, Though Money Has Not Been Collected.

(From a Staff Correspondent.) LINCOLN, May 24.-(Special.)-The State Railway commission has been asked by the Interstate Commerce commission for an opinion on the best way to fairly apportion the earnings and operating expenses of railroads handling interstate traffic between the various states. In the past arbitrary apportionments have been made, which according to the railroads and to the Interstate commission has not always been fair and just to the railroads or to the states and at this time an effort is being hade to map out a plan whereby justice nay be done all the states as well as the roads. At a recent meeting of railroad representatives, members of the Interstate commission and several railroad commissioners of states, it was decided to ask the views on the matter. In making up a plan the states are cautioned to consider "constructive mileage," which the letter explained is where one state is allowed more mileage than it actually has because of the increased cost of operation or other reasons. While the state commission has not yet had an opportunity to consider the matter, it is sure to protest against any mileage being taken from Nebraska and credited to another state because of any increased cost of operation in another state. The commission figures that as it costs less to operate a road in Nebraska, owing to the absence of grades and hills, more tonnage can be hauled in this state, so constructive mileage will cut little figure in the suggestion it makes to the national

Commission and Roads Draw. The recent order of the State Railway commission for local agents of railroads to report direct to the commission the number of cars on hand and the amount of freight shipped in and out, against which the railroads protested so vigorously, has resulted in a kind of dog fall. Today the commission is getting ready to issue another order for the local agents to report to the general headquarters of the roads and the McPherson general auditor and general superintendent are to sign and forward the original reports to the commission. This is to be a daily report, while the division superintendents are to report weekly.

U. G. Powell, rate clerk, has been looking into express rates charged in other states and he has reported to the commission that in Missouri and Texas the rates Red Willow are 25 to 33 per cent lower than in Nebrasks. In the two states named there is also a joint rate in effect which allows the shipment of express over the routes of Saunders two companies at the rate of one. In this state there is no joint rate in force, but seward separate rates have to be paid when the state there is no joint rate in force, but separate rates have to be paid when the chipment covers two lines or more.

C. C. Allen, representing the Atlas Engine works and the Allis-Chalmers company, secured the contract for installing a dynamo, boiler and engine at the state itentiary this morning, the price to be \$7.459. The state house is to be lighted from the penitentiary and power furnished for the elevator to be started up here some

Dentists Elect Officers. The Nebraska State Dental association has elected the folk ing officers, and the mext annual meeting will be May 19-21 in Omaha: Dr. M. E. Vance, Lincoln, presidont; Dr. D. A. Finch, Grand Island, vice prosident; Dr. E. H. Bruening, Omaha, secretary; Dr. H. T. King, Fremont, treasurer. Executive council, three year term: Dr. J. S. McCleery, Beatrice; Dr. J. H. Wallace, Omaha, and Dr. C. E. Brown, Emerson. Two year term: Dr. H. A. Shannon, Lincoln. One year term: Dr. N. H. Morrison, Red Cloud. The following executive committee was appointed: Dr. E. H. Bruening.

meeting, with the following assistants: Dr. but was not permitted to do so by lack of Oxford, and Dr. W. A. Cox, South Omaha.

Apportionment of School Fund. Chief Clerk Harnley of the office of the state superintendent has completed the ties of the state and the same will be certifled to the proper officials at once. Douglas county receives the largest amount of the distribution, \$49,396.33, because it has the largest number of children of school age, 40,064. The per capita distribution is \$1,230,739 and the number of pupils 371,985. This is a decrease from the school census of a year ago of about 4,000, due to the war waged on padded census rolls. Following is the detailed report of the distribution,

\$457,829.11 Burlington Can Condemn Land. The Lincoln & Northwestern Railroad company, which was restrained by the district court of Lancaster country from constructing a line of road across the farm of Fred Beckman, has obtained a reversal and dismissal in the supreme court, Chief Justice Sedgewick writing the opinion. The Lincoln & Northwestern was incorporated in this state in 1879 to construct a line of road from Lincoln to Columbus, thence north. The road has been constructed as far as Columbus. It leased its right-of-way Omaha; Dr. C. E. Brown, Emerson; Dr. E. condemnation proceedings to obtain right-B. Damron, Lincoln. President Vance also of-way across Beckman's land. Bockman appointed Dr. P. T. Barber of Omaha as Questioned the authority of the Burlington Herald. superintendent of clinics for next year's to exercise the right of eminent domain,

A. B. Hopper, Fairbury; Dr. J. M. Prime, jurisdiction of the district court. The district court enjoined the Burlington, and from that judgment it appealed to the supreme court. The matters complained of in the plaintiff's petition is not that the compilation of the apportionment of the defendant railroad is without the general temporary school fund to the various counpower to exercise the right of eminent domain, but that its attempted exercise of that right in this particular case is unlawful. The evidence is held by the court nsufficient to establish the plaintiff's alegation that the road is not in fact being

> by condemnation proceedings. Photographers' Convention.

E. Evans, Dakota City.

Gambling Law is Valid. John H. Stratton of Cherry county, sentenced for the keeping of gambling devices, gets no relief from the supreme court. His argument was that sections 214 and 215 of prima facte evidence of its proper passage, but if the executive journals unequivocally contradict the evidence furnished by the curolled bill the evidence furnished by the fournal will control, but where the legislative journals are silent, as in this case, this will not be taken as evidence that the constitutional requirements were not ob-

served. Judgment of the district court is University Warrants Issue.

The supreme court has ordered a writ of mandamus to require State Auditor Searle to issue warrants on the state treasury on the funds derived from the 1 mill tax levy for the benefit of the State university. The auditor refused to issue the warrants, alleging that the appropriation bill appropriates the proceeds derived from the levy and that there were no funds on hand in the treasury for this fund as a result of collections. The court says that when the auditor of public accounts has audited and allowed a claim payable out of the 1 mill levy fund, and there is an unexpended balance therein of a sufficient amount it is his duty to draw warrants therefor in favor of the claimant, although there may be no money actually in the treasury belonging

J. W. Barnhart Leaves Herald. AUBURN, Neb., May 24.-Special.)-J. to the Burlington Railroad company. In W. Barnhart, former manager and founder May, 1906, the defendant company began of the Herald, and one of the best known newspaper men of the state, has been relieved of his position on the Auburn

> DR. TALKS OF FOOD Pres. of Board of Health

"What shall I eat?" is the daily inquiry the physician is met with. I do not hesitate to say that in my judgement, a large percentage of disease is caused by poorly selected and improperly prepared food. My personal experience with the fullyooked food, known as Grape-Nuts, enables me to speak freely of its merits.

"From overwork, I suffered several years with malnutriton, palpitation of the heart, and loss of sleep. Last summer I was led to experiment personally with the new food, which I used in conjunction with good rich cow's milk. In a short time after I commenced its use, the disagreeable symptoms disappeared, my heart's action became steady and normal, the functions of the stomach were properly carried out and I again slept as soundly and as well as in my youth.

"I look upon Grape-Nuts as a perfect food, and no one can gainsay but that it has a most prominent place in a rational, scientific system of feeding. Any one who uses this food will soon be convinced of the soundness of the principle upon which

ENFORCING HERD LAW IN KIMBALL settlers Do Not Propose to Have Crops

Destroyed. KIMBALL, Neb., May 24.-(Special.)-Homesteaders in this county are preparing to enforce the herd law against range cattle. The country has filled up with settlers until nearly every piece of govrnment land is taken up, the larger portion of it by actual settlers. They are breaking prairie and putting in crops and they don't propose to have them destroyed by cattle. No fences have been removed work in this section in acordance with the order which went into effect April 1. In fact, no attention was paid to this order here. So far there has been no trouble between ranchers and farmers and no serious trouble is expected, only that the farmers propose to see that cattle do not destroy their Case Against Williams Nolled

AUBURN, Neb., May 24.- (Special.) Charles Williams will not be tried on the charge of murdering his father, Isaac Williams. The case pending in the district court against the young man has been notic prossed, this action having been taken by the court officials the first of the week. Isaac Williams was killed September 11 last. Clarence Williams was tried last winter. He testified that he fired the fatal shot. He was cleared. The young men killed their father during a him in a lake and later greased him, and quarrel, one firing a revolver, the other a then scraped off the wagon grease with shotgun. The shots from the gun were knives. His clothes were badly torn and pronounced to be the ones that produced he was handled quite roughly.
